Is She Working Herself to Death

Does your wife complain of too much dairy work? Do you ever hear her say she'll never get through washing milk things? How often does she say, "Oh, if I only had fewer pans, crocks and cans to wash, I could read, write or sew more, or even take a little rest each day."

AN EASIER TIME.

Ask her about it. Arrange to make the dairy work one half easier, one half neater, one half more pleasant, and 25 to 100 per cent. more profitable by using a Sharples Tubular Cream Separator. Until you try the Tubular, you can't imagine the difference it makes. It skims the milk immediately after milking—there's no milk standing around—no cans or pans to wash. The Tubular is entirely different from all others, so much more simple and convenient. Bring your wife and let me take a Tubular apart for you.
