The germ can only prosper when the condition of the system gives it free scope to establish itself and develop. When there is a deficiency of vital force, languor, restlessness, a sallow cheek, a hollow eye, when the appetite is poor and the sleep is broken, it is time to guard against the germ. You can fortify the body against all germs by the use of Dr. Pierce's Golden Medical Discovery. It increases the vital power, cleanses the system of clogging impurities, enriches the blood, puts the stomach and organs of digestion and nutrition in working condition, so that the germ finds no weak or tainted spot in which to breed. "Golden Medical Discovery" contains no alcohol, whisky or habit-forming drugs. All its ingredients printed on its outside wrapper. It is not a secret nostrum but a medicine or known composition and with a record of 40 years of cares. Accept no substitute—there is nothing "just as good." Ask your neighbors.

Politeness.

Lieutenant Shackelton, in a happy and manly speech which he made in reply to the feast of his health by Mr. Heinemann at the dinner given by that gentleman at the Savoy Hotel, told an interesting story of politeness in the untrodder regions of the Ant.

His party, he said, were always extremely good-humored and polite, and one professor in particular attained a degree of politeness unusual under such trying circumstances. "Are you busy, Mawson?" he called out one night to another member of the party who was in the tent.

"I am, said Mawson." 'Very busy? said the professor.

"Yes, Very busy? said the professor." 'Yes, Very busy? "If you are not too busy, Mawson, I am down a crevasse.'

"The professor was found hanging down a crevasse by his four fingers a position which he could not have occupied for any length of time."—London Daily Chronicle.
