It's a Top Notch Doer.

Great deeds compel regard. The world crowns its doers. That's why the American people have crowned Dr. King's New Discovery the King of Throat and Lung remedies. Every atom is a health force. It kills germs, and colds and grippe vanish. It heals cough-racked membranes and coughing stops. Sore, inflamed bronchial tubes and lungs are cured and hemorrhages cease. Dr. Geo. More, Black Jack, N. C. writes, "it cured me of lung trouble, pronounced hopeless by all doctors." 50c, \$1.00. Trial bottle free. Guaranteed by Trout's drug store.

Growth of Rural Delivery.

The relief which rural free delivery has brought to those farmers now in the enjoyment of that valuable privilege cannot easily be overestimated. It not merely saves him the expense and time of frequent trips to the postoffice town, but keeps him in touch with the world, when he has no leisure or opportunity to leave his farm. It is a great convenience, and the demand for it makes it grow steadily. Thirteen years ago the experiment of free delivery of mail began with five routes in one of the border States. There are now 40,919 routes, with nearly as many carriers, serving 40,000,000 patrons daily, and Uncle Sam has spent for service, up to date, not less than \$170,000,000.

He had taught in the public schools for forty years and was a pensioned teacher.

Higher Prices for Shoes.

From so good an authority as the Boot and Shoe Recorder, we learn that despite the fact that the manufacturers were successful in their campaign for free hides at the time the tariff bill was passed, there will be an increase in the price of shoes. This will be interesting, if not acceptable, news for the consumer.

The highest price for hides ever known is now prevailing in this country. Calfskins, which have practically been on the free list always, cost more than at any time since the civil war. The increased cost of calfskin uppers on a pair of shoes will run from 8 to 12 cents; the increased cost of sole leather will add to the cost of shoes from 6 to 10 cents, to say nothing of the findings, even though there be no increase in the cost of labor.

The cause for this condition is attributed to the fact that the demand for leather exceeds the demand for beef, and we must wait for a change here before there will be any appreciable decrease in the cost of footwear. Hides are a by-product of the beef industry. Therefore, it would be in utter defiance of economic conditions to expect cheaper leather when the world's demand for beef for food has not increased as rapidly as the population, nor as rapidly as the demand for leather. Ultimately the tariff reductions will bring benefits to the consumer, but it will take time.

Berkeley Sipes and wife were pleasant callers at the News office while in town Monday.
