Randolpo's Sarcasm,

old John Randolph, of Roanoke, once rose in his seat in the Senate and said: "Mr. President, is it not and said: a shame that the noble bulldogs of the administration should be wasting their precious time in worrying the rats of the opposition?" Calls for order came thick and fast, whereupon he, pointing his long, skinny finger at them with the utmost scorn, screamed: "Rats, did I say? Mice—mice!"—Philadelphia

Loud Clothes.

The charlotte-russe spat, hanging over the instep like an inverted cuff, has not been received with favor by our young men of fashion, largely because it interferes with the ever-popular crease in the trousers. When modified so as to be worn with link cuff buttons this objection is likely to be overcome, when we shall look for a great vogue in this novelty in men's dress.

A BANKER'S NERVE Broken by Coffee and Restored by; Postum.

A banker needs perfect control of the nerves and a clear, quick, accurate brain. A prominent banker of Chattanooga tells how he keeps himself in condition:

"Up to 17 years of age I was not allowed to drink coffee, but as soon as I got out into the world I began to use it and grew very fond of it. For ome years I noticed no bad effects from its use, but in time it began to affect me unfavorably. My hands trembled, the muscles of my face twitched, my mental processes seemed slow, and in other ways my system sot out of order. These conditions grew so bad at last that I had to give

up coffee altogether.
"My attention having been drawn Postum, I began its use on leaving off the coffee, and it gives me pleasure to testify to its value. I find it a deliclous beverage; like it just as well as I did coffee, and during the years that I have used Postum I have been free from the distressing symptoms that accompanied the use of codes. The nervousness has entirely disappeared, and I am as steady of hand as a boy of 25, though I am more than b2 years old. I owe all this to Pos-"There's a Reason." Bad Lands Good Now. Of later years, the bad lands have settled into a placid serenity dis-turbed b few visitors save those in quest of fossil bones. These "bone hunters" are parties of paleontolo-gists and students sent by colleges to collect for their museums, and every season see one or more "outfits" in the region. They go well provided with food, water and tools and camp for many weeks while they delve into the rocks for bones The collections have gone to many museums here and abroad and represent a great variety of remarkable extinct animals of Tertiary times. The scientific side of the Big Bad Lands is fairly familiar to paleontologic and geologic investigators, b for the sight-seeing layman thregion is still a virgin field.—N I Darron in Scribber's.
