## Say Now, "I Will Try These Foods Shot from Guns"

Order one package, either Puffed Wheat or Puffed Rice. Then you will know the whole story.

Hear what your folks say when they taste the gigantic grains. See if they ask for more.

Do this tomorrow—order the package now. Do it to learn just how much you are missing.

Hosts of housewives have already done this, and been glad that we told them to do it.

And their folks have been glad.

For no other cereal foods can compare with them. None are even half so good.

The result is this: Those folks last month served seventeen million dishes of these delightful foods.

Can you doubt that you are going to like them as well as the rest of the world?

One package will tell.

### Puffed Wheat—10c

These are the foods invented by Prof. Anderson, and this is his curious process:

The whole wheat or rice kernels are put into sealed guns. Then the guns are revolved for sixty minutes in a heat of 550 degrees.

That fierce heat turns the moisture in the grain to steam, and the pressure becomes tremendous.

### Puffed Rice—15c

Then the guns are unsealed, and the steam explodes. Instantly every starch granule is blasted into a myriad particles.

The kernels of grain are expanded eight times. Yet the coats are unbroken, the shapes are unaltered. We have simply the magnified grain.

One package will tell you why people delight in them. Order it now.
