## SENATOR J. M. DIX N TAKES HAND.

Barrill Dares Dr. Cook To Make Affidavit That He Ascended Mt. McKinley While Both Face The Audience - Meeting Adopts A Resolution Declaring Belief In Story Told By Barrill.

ing addressed by Dr. Frederick A. Cook, discoverer of the North Pole, adopted a resolution expressing confidence in the verseity of Barrill and Printz, the guides who made affiday its that Cook did not climb Mount

The meeting started with an dress by Dr. Cook, in which he tacked his enciates for disputing claims to baying climbed Mount Kinley, and declared he would pr they had spent money to obtain the affidavits against him. Attorno Crutchfield, representing the guides questioned Cook after his address and then the fireworks started. Crutchheid challenged the veracity of Cook's statement

H. Durston, editor of the Annconda Standard, offered a resolution asking that the meeting declare a ple of Montana, in all matters about which Dr. Cook made claims. Senator Joseph N. Dixon, of Montana, urged that fair play be accorded all parties to the controversy. No one accepted the Durson resolution and

Barrill, the guide who accompanied Dr. Cook up Mount Mc. Kinley was called on, and on taking the platform declared that Dr. Cook's statements that they reached the top of Mount McKinley were incorrect. Dr. Cook replied by asserting to Barrill's face that the latter's state-

ments were false. The excitement at this point was intense. Barrill demanded to know why Cook did not make an affidavit to the effect that he had scaled Mount

The chattenge had no sooner been issued than it was accepted by the Doctor, and an affidavit was made by the explorer on the platform in the presence of the audience. In it Dr. Cook declared that he ascended Cook declared that he ascended more than a year since. This old Mount McKinley: that Barrill was with him at the time, and that the muchinery from the Laurilla mills records of his ascent work left on records of his ascent were left on the summit of the peak.

The dispute then waxed warmer, Barrill's attorney, and friends de-nouncing Cook's statements, while friends of the Doctor contended for HE CANNOT COURT

Attorney Wagner then presented

"We, the people of Hamilton and Ravallo Counties, assembled, after An Aged Bigamist Has Lost Track patiently listening to the charges and countercharges exchanged by the parties to the Mount McKinley troversy, do declare our firm veracity of Edward Barrill and Frederick Printz.

This was carried by a large ma-jority, and the meeting was closed amid great excitement. After the meeting Dr Cook said he did not care to discuss the result at present

Says He Is "Pennsy" Robber. Philadelphia (Special).-Claiming that he is the bandt who, on Augus 31, single-handed held up and robbed the Pennsylvania Railroad express train in Lewistown Narrows, a few miles west of Harrisburg, a man giving his name as Thomas O'Brien, 38 years old, surrendered to the police here. He is locked up in the City Hall pending an investigation. The police are inclined to be skeptical as to the truth of O'Brien's state He says he has been living in the Tenderloin here for two weeks and is "flat broke."

#### STRIKE MAY WIPE **OUT TWO TOWNS**

Tin Mils.

Over Five Thousand Employes At Bridgeport And Martins Ferry, O., Refuse To Return To Work-Mills To Be Moved To Other Localities In An Effort To Break Up Unionism,

Pittsburg (Special) .- The American Sheet and Tin Plate Company Hamilton, Mont. (Special) .- After part of the United States Steel Cora stormy session lasting until the early hours of morning, a large meetmachinery from certain plants to others, perhaps 100 miles distant, putting into action the threat of sometime ago to wipe out the last trace of unionism in its ills scattered through the The great tin mills at Bridge port, O., and at Martins Ferry, are being boarded up and t ,500 employes left without work, while the expensive machinery is being brought into Pennsylvania and installed in plants long since abandoned and formerly marked for the scrap heap.

These two Ohio plants have admittedly been the strongholds in unionism of the strike which has raged in the American Steel and Wire Company's plants since the night of June 30 last. The worken there have been holding out the longest, but it was not decided until ome days ago to board the mills up entirely and take the machinery to other towns. The work of shifting the machinery was begun, and the hopes of more than 1,500 families these two towns of a return to ork under any scale have been extinguished. Local officials at the abandoned Ohio plants are quoted as saying that the mills will not be reopened inside of four years.

The Etna Standard plant, at Bridgeport, O., which is being dismantled, has 20 mills, employing 2,500 men when running. Much of the machinery is being transported to the smaller tin mills at Morgantown, W. Va., which is but a 10-mill affair and employs but 1,200 men. This will be enlarged to employ 3,000 men. The Laughlin plant, at Martins Ferry, O., which has 23 mills and employs 3,000 mcn, is being moved to South Councilsville, Pa., to an old plant which has not been running since 1905, and which was officially marked for destruction and its present six-null espacity, with 800 men, to be increased to 30 mills and to employ perhaps 4,000 men.

## COMMERCIAL

Weekly Review of Trade and

Market Reports.

R. G. Dun & Co.'s Weekly Review of Trade says:

of Trade says:

Overshadowing all other developments of the week is the advance in the Bank of England rate of discount to 5 per cent. As the advance to 6 per cent. about three years ago was, as it were, the raising of a storm signal, so the present advance is, as is said by Sir Felix Schuster, a sign of trade revival. Of course, there are special reasons, such as England's desire to protect her gold supply and the banking caution against the danger of overspeculation, but, in the large, the advance is a development of prosperity. In is a development of prosperity. In the United States every report of the week ranges from moderate improve. ment to extraordinary buoyaney.
The advices from the leading cities are uniformly favorable, with especially brilliant reports from the Western centers. As against these ac-cumulated and still accumulating evi-dences of trade expansion the two factors that speak for conservatism are the advancing prices and the danger that speculation may make such demands on the money market as prematurely to consume the free

capital of the world required to a nance a new era of prosperity.

Plans under consideration or already agreed upon for enlarging the capacity of producing plants teatify to the very heavy volume of new husiness in tree and business in iron and steel and fur-ther indicate that there is some pressure to secure an adequate supply of raw material.

Bradstreet's says: Trade and industrial develop-ments are largely favorable. Con-tinued cool weather continues to furnish a marked stimulus to de-

furnish a marked stimulus to de-mand for heavy wearing apparel, dry goods, clothing and shoes, and also benefits demand for hardware, gro-ceries, lumber and building materials at retail in most markets. Demand quickened, both for steam sizes and for household supplies.
