IN CONSTANT TORTURE.

How a Severe Case of Kidney Disease Was Conquered.

Mrs. Sherman Youngs, Schoharie, N. Y., says: "Doan's Kidney Pills saved my life after years of suffering that ran me down to such a degree of weakness that I could do no work, and the pains I suffered would knock me into spasms. I was dizzy, worn and sleepless, my back ached terribly, I had rheumatism and was nervous and all unstrung. I thought I tried every known medicine, but it was not until I began using Doan's Kidney Pills that I began to get help. The pains slowly disappeared, the kidney secretions cleared up and in a few weeks my strength returned so that I could work about the house again. It is three years since then and Doan's Kidney Pills have kept me well."

Remember the name—Doan's. Sold by all dealers. 50 cents a box. Foster-Milburn Co., Buffalo, N. Y.

Editorial Omniscience.

"Father," said the small boy of an editor, "is Jupiter the great god?"

"I don't know, my son," was the truthful answer. Presently he was interrupted again.

"Father, are there any sea serpents?"

"I don't know, my son."

"The little fellow was manifestly cast down, but presently rallied and again approached the great source of information."

"Father, what does the North Pole look like?"

"At last, in desperation, he inquired with withering emphasis:

"Father, how did you get to be an editor?"—Concordia Kansan.

Not Literary.

"The late Frederick Burton was the world's foremost authority on the American Indian," said a Yale ethnologist. "Burton was almost alone in his field. There are, you know, so few students of Indian lore."

"He said to me once, with a vexed laugh, that he found the Indian with people as a Boston critic found it to discuss poetry with the girl he took to dinner."

"The girl was very pretty. Leaning her dimpled elbows on the table she said to the critic:

"And what is your lecture to be about, professor?"

"I shall lecture on Keats," he replied.

"Oh, professor," she gushed, "what are Keats?"—Washington Star.

NEWS OF PENNSYLVANIA

For Celebration.

Gettysburg.—The Retail Merchant's Association of Gettysburg, organized for the betterment of the town and mutual protection, has tendered its aid to the Fiftieth Anniversary Commission appointed by Governor Stuart.

When the commission was appointed by the Chief Executive no representative from Gettysburg was named, and the business men of the town felt they would not have the opportunity to extend the assistance of every citizen to the celebration of a success unless a person or recognized body here were given such authority.

The anniversary will take place July 1, 2 and 3, 1913, and the commission was appointed by Governor Stuart through the efforts of a committee of Gettysburg citizens appointed at a town meeting, in compliance with a request from this committee, Governor Stuart recommended that such a commission be authorized by act of Assembly and the act was passed at the last session of the State Legislature, the appointment of the commission being made soon afterward. Action was taken thus far in advance in order that all the States of the Union could take formal action regarding the celebration, and their part in it, in ample time to prepare for the event.

The Retail Merchant's Association, though in existence only about eight months, has accomplished much for its town. Better train service has been secured, the signature of the burgess was obtained on an ordinance granting a trolley franchise, which the town wants badly, and many other steps taken to make Gettysburg more of a convention town than it was.

Edmund P. Miller is president of the association, and among its most active members are E. P. Wisotzky, chief of the police department; H. T. Weaver, William H. Tipton and J. A. Mumper.

Blow Postal Safe.

Washington.—Robbers blew open the safe in the postoffice at Carmichaels, Green County, fifteen miles southeast of here, made a similar but unsuccessful effort with the vault of the Carmichaels bank, terrorizing the town for an hour, and got away with about \$5,000 in stamps and money without leaving a clue to their identity.

The robbery was perpetrated at 2 o'clock A. M. The postoffice and bank stand side by side. Entrance was gained to the postoffice through a rear door. From the postoffice a hole was opened in the bank, there no opening in the bank, there no opening in the bank.

Charges of nitro-glycerine were placed under the vaults in both places and discharged simultaneously. The postoffice safe was wrecked, but the explosive in the bank was poorly placed and failed to shatter the vault door.

Residents of the town aroused by the noise of the explosion poured into the main street, where the bank and postoffice are located. They were confronted by three masked men, each with two revolvers. The crowd of half-dressed residents were coolly told to keep quiet and attempt no violence.

A fourth man then gathered up all the valuables in the postoffice. Postmaster George M. Ritchey, who had sold a piece of property, had placed the money, about \$4,000, in the safe with the stamps and Government money. The entire amount was carried away. The trail of the robbers was followed to the railroad track and lost.

Chickens Answer Bell.

Polefort.—After being bothered for a long time by not knowing whether he was feeding his own or his neighbors' stock, Rev. J. B. Randolph, a colored divine of Darby township, has solved the question by training his chicken and ducks to answer a large call bell, which brings them scurrying from all quarters to be fed. None of the fowls of any of his neighbors knows the bell signal, which he rings at 11 o'clock.

He learned the feed signal in less than a week's time, and now they begin to run at the first sound of it.

Postoffice Dynamited.

York.—The postoffice and general store conducted by William H. Epley, at Newberrytown, this county, was dynamited and robbed at 2 o'clock A. M. So great was the force of the explosion that part of the safe door was blown through the ceiling. Postmaster Epley chased the robbers, two in number, and fired several ineffectual shots after them. Three hundred dollars in cash and \$100 worth of stamps were taken. Many stamps mutilated by the explosion, were left behind by the robbers.

Wage Increase For Puddlers.

Lebanon.—The Lebanon Valley Iron Company has posted notices increasing the wages of puddlers from \$4 to \$4.50. Four hundred men are affected.

Standard Cuts Crude Oil Prices.

Pittsburg.—Crude oil prices were cut 5 cents by the Standard Oil Company. The quotations follow: Pennsylvania, \$1.43; Mercer black, 90 cents; Newcastle, 87 cents; Corning, 79 cents; Cabell, 97 cents.

Guard Officers.

In general orders issued by the adjutant general's office notice is given that two National Guard officers were dropped "as unfit to discharge duties" of their offices. They were Captain William A. Francis, late of Company C, Ninth Regiment, a Luzerne County organization, and Captain John P. Burns, late of Company I, Eighteenth Regiment, which belongs in the Pittsburgh district. The men had failed to make settlement of accounts and recourse had to be had to their bondsmen.

COMMERCIAL

Weekly Review of Trade and Market Reports.

R. G. Dun & Co.'s Weekly Review of Trade says: It was hardly to be expected that the industrial and trade revival would continue all the time at the recent high rate of speed. Some slowing up, if only for a breathing spell, was natural, and this apparently is what is occurring, although it makes no material impression upon the great volume of transactions.

The approach of the holiday season, and the time for settlements and taking of stock, incident to the ending of the year, are in considerable part responsible for the slightly more quiet aspect of business. The railroad strike in the Northwest is an unpleasant and unfortunate circumstance, and its immediate effects are chiefly felt in the flour trade.

No uneasiness is felt regarding the dull non-manifest in some branches of iron and steel, as it is recognized that recovery from past depression has been phenomenally rapid. Moreover, mills and furnaces have enough orders on their books to assure full activity for months to come and producers generally scan specifications on future business closely.

AGONIZING ITCHING.

Eczema For a Year—Got No Relief Even at Skin Hospital—In Despair Until Cuticura Cured Him.

"I was troubled by a severe itching and dry, scurfy skin on my ankles, feet, arms and scalp. Scratching made it worse. Thousands of small red pimples formed and these caused intense itching. I was advised to go to the hospital for diseases of the skin. I did so, the chief surgeon saying: 'I never saw such a bad case of eczema.' But I got little or no relief. Then I tried many so-called remedies, but I became so bad that I almost gave up in despair. After suffering agonies for twelve months, I was relieved of the almost unbearable itching after two or three applications of Cuticura Ointment. I continued its use, combined with Cuticura Soap and Pills, and I was completely cured. Henry Scoble, Cross St., Little Rock, Ark., Oct. 8 and 19, 1907. Cuticura & Chem. The Uses of A College. Whatever critics may say to the contrary, it never was and probably never will be the purpose of the standard college to train young men for business. Colleges do not ever train men for professions. There are professional schools for that purpose, and in the days when no such schools existed medicine was taught in the offices of physicians and law in the offices of lawyers, just as business was and still is taught in places of business. Colleges were not instituted to make physicians or lawyers. Neither were they instituted to train men for business.

Schools for special training have multiplied rapidly the world over. Even business schools are not lacking, although the business school which shall be in fact a post-graduate one to a regular academic course has not yet arrived. Meanwhile the commercial college or business school is doing excellent work. There is no reason why it should not be expanded as the professional and technical schools have been.

Meanwhile let the idealist still cherish his dream of a college devoted to the cultivation of a lofty ethical standard, the propagation of knowledge, the fostering of the arts and the dissemination of the spirit of fraternity.—Boston Globe.
