Rev. Clifford Hayes, who will graduate from the Gettysburg Theological Seminary in June, preached in the Lutheran church in this place last Sunday morning and evening, and at Big Cove Taney church at 2 o'clock Sunday afternoon. His congregations were much pleased. He will preach here again in two weeks.

A bad fire broke out in Huntingdon early last Friday morning in which two churches, two lumber yards and many stables were completely destroyed. The loss is about \$25,000. The fire was among the largest in that city for some years, and had not the wind been favorable a much greater loss would have resulted.

Do you want to be postmaster at Pleasant Ridge? There will be a Civil Service examination of applicants at Sipes Mill post office, on the 23rd of April, 1910. The salary last year was \$126. Application forms and full information can be secured from the postmaster at Pleasant Ridge.

Again let it be stated that no one can carry a penny of his money up to the cemetery with him. The wise thing to do is for everyone to see to it that some wise use is made of his money while here, rather than to let some one else make unwise use of some of it after he has been placed under the sod.—**Ernie Times.**

H. H. HERTZLER

Tells of His Trip After Leaving Pittsburg. Spent a Few Days in Chicago; Thence to Nebraska.

Inland, Neb., March 25.—I left Pittsburg on the 22nd of February over the Wabash railroad, and in going west passed through seven tunnel tunnels within a distance of fifty miles. Along the road up to Toledo I passed through the Ohio oil fields, and saw lots of gas wells burning. From Toledo to Chicago I saw some very poor land—full of swamps and sloughs. However, when we neared Chicago, the appearance of the country changed, and we saw some fine country. I stayed in Chicago several days, and had a very pleasant visit with my cousin, G. W. Kepner, whom I had not seen for 53 years. From Chicago, I went to Sioux City, Iowa, over the Chicago, Milwaukee & St. Paul railroad, thence across the Missouri river and on to Dakota City, where I visited my nephew, S. Heikes. I saw on the train quite a number of Indians—the first I had seen for many years. They looked very well, and outside the distinctive marks of their race, there was nothing to distinguish them from other people. I next went to Wakefield, Wayne county to see my sister-in-law, Mrs. I. Heikes, where I spent several days with her and her children. I next went to my nephew, Luther Heikes's, where we had a family reunion of some twenty members, and had a most enjoyable time. I am now in the great Corn Belt. Thousands and thousands of bushels are lying in piles in the open, waiting for the top to be reached in the constantly increasing price of that cereal. My nephew raised 10,000 bushels last season. I next went down to Winnebago on the Indian Reservation, where I have a cousin by the name of S. Dering, whom I had not seen for fifty years. Here I saw Indians by the hundreds. Winnebago contains about five hundred people, and is less than two years old. It contains elevators full of wheat and the corn bins contain not less than 50,000 bushels.

After staying two days at Winnebago, I went to Lincoln, where I saw among many other interesting things, the residence of William Jennings Bryan. He has a nice home. From Lincoln, I went to the home of my son George, who lives at Inland, Clay county. This is the finest county I have seen in my trip of 2,000 miles. The country is as level as a floor. Here is where you find Pennsylvanians—the Ramseys, the Bowmans, the Polsgroves, the Sheetses, the Lamps, the Campbells, the Fixens, the Bowerses, and many others, whose names are familiar to the people in the East. I tell you, I feel quite at home here. I was up at Hastings in Adams county the other day. It is a nice place, and the land surrounding readily sells for \$150 to \$200 an acre. The people are hustlers. Stock raising is the principal industry. Hogs sell for \$10 a hundred lbs. Cattle, \$7.50; corn, 55 cents a bushel; oats, 35; eggs, 18; butter, 25, and horses sell from \$100 to \$200. Farming pays, here. A tenant farmer that amounts to anything at all, can easily make \$2000 to the good each year.

A Western Pennsylvania Editor's Trouble

The editor of a newspaper in the western part of Pennsylvania who has been regularly publishing the "Timely Topics" sent out in the Press Bulletin of the Division of Zoology of the Pennsylvania Department of Agriculture, wrote to Professor H. A. Surface, State Zoologist, that he has "troubles of his own" in the case of one of the best bearing peach trees in his fruit lot. The young peaches are shaken from the tree with each wind that blows. He attributed the cause of the dropping to a condition which can be best described as "declining." Gum exudes from the trees. Having been told to dig for worms, or borers, he did so, and located one or more each time.

State Zoologist Surface wrote, in regard to the trouble, as follows:

"The peach tree which you describe appears to have been injured by borers. The best thing to do for such pests is to remove them whenever they are present. Do this by means of a knife or wire. If there is gum which has brown specks like sawdust, mixed in it, it is due to the effects of the borer. If, however, the gum does not have such saw dust like material, you may know that the borer is not the cause of its production. Gum may exude from a tree from one of several causes.

"An old tree that is injured needs very much to be stimulated. You can do this by cutting it back well and fertilizing and cultivating it. You should give a dressing of wood ashes and ground bone or acid phosphate rock, with some barnyard manure added. You can buy a 'complete' fertilizer of any dealer in fertilizing material, and thus give it a ration more nearly balanced. If possible, loosen the soil around it early in the spring, and, if the weather is dry, water it occasionally. It may possibly have San Jose Scale on its branches, and this can be determined only by examination with a microscope. If you wish to send specimens to me for examination, I shall be glad to receive them and to reply promptly."

Look Here, Ladies!

Pittsburg has a divorce suit that was caused by a phonograph. The wife alleges, in her bill of complaint, that her husband kept the machine going all night and that it nearly drove her crazy with its ceaseless music. We are told "music hath charms," but evidently they are not to be found in that Pittsburg phonograph.—**Scranton Truth.**

RARE BARGAINS!

On account of my eyes I am compelled to quit the Tailoring business. And for the next Thirty Days I will offer my entire stock of Merchant Tailoring goods at bargains. No shop worn goods. All good styles.

Thanking you for past patronage, I am, yours respectfully,
