## AN APPEAL TO PUBLIC-SPIRITED PERSONS FOR ASSISTANCE IN CORRECTING SOME ERRONEOUS POPULAR OPINIONS.

### THE UNITED STATES CENSUS, APRIL 15, 1910.

The enumeration of the population during a census of the United States always presents numerous difficulties; chiefly, the apprehension of a large element that their answers to the enumerators' questions will cause in-creased faxation, legal entanglements, or injurious consequences to their

persons and property. In order to quiet such unfounded fears, which would, unless removed, materially affect the coming census, April 15, next, the Census Bureau has prepared the subjoined brief statement relative to the decennial census, its origin, purpose, and uses. It should furnish complete assurance to those concerned that informa-

tion given the enumerators is held by the Census Bureau in the strictest confidence, with reference to the identity of the informants, as required by the policy of the Bureau and commanded by the law of the United States. It is, therefore, earnestly hoped that Clergymen, Priests, Physicians, School-Teachers, Employers, and other public-spirited citizens who come in contact with large numbers of people will concerne to the Concerne Bu-

contact with large numbers of people will co-operate with the Census Bu-reau by telling persons who are believed to entertain erroneous opinions of the census the real facts, urging them to give full replies to the enumerators. Teachers are particularly requested to speak of the census to the school children and ask them to tell their parents about it. For further particulars, or such other printed census information as

there is on the subject, please address the Supervisor of your Census District Very truly,

E. DANA DURAND, Director, Bureau of the Census,

### OFFICIAL STATEMENT BY THE DIRECTOR OF THE CENSUS.

On April 15, in the present year, 1910, the census of the United States begins. It occurs every ten years. It is the basis of the distribution among the States of representation in

National House of Representatives. It is also the means by which the United States Government ascertains the

the increase in the population, agriculture, industries, and resources of the Nation.

It is required by the Constitution and by act of Congress.

### CENSUS FOR STATISTICAL PURPOSES ONLY.

The information sought will be used solely for general statistical purposes. It will neither be published nor used in any other way to disclose facts regarding any individual or enterprise.

The consus is not, never has been, and can not be employed to obtain information that can be used in any way in the assessment of property for purposes of taxation or the collection of taxes. National, State, or local; for deportation proceedings; extradition measures; Army or Navy conscription; compulsory school attendance; child-labor law prosecutions; quarantine regulations; or in any way to affect the life, liberty, or property of any person.

It has nothing whatever to do with the detection, arrest, prosecution, or punishment of any person, for any suspected, or actual, violation of a law, whether of a city, or State, or the National Government, or of a foreign nation.

### CENSUS INQUIRIES DEFINED BY CONGRESS.

The census inquiries are defined by act of Congress. The questions on the schedules are framed by the Director of the Census in conformity with that act. They apply to all persons living in the United States on April 15, next, the "Census Day." The same questions are asked about each person. All persons must answer all the questions.

### THE QUESTIONS REGARDING PERSONS.

The census law, with reference to population, requires that the enum-erator's questions shall, for each inhabitant, call for:

Have Juid?

Lydia E. Pinkham's Vegetable Compound? We can furnish positive proof that it has made many remarkable cures after all other means had failed.

Women who are suffering with some form of female illness should consider this.

As such evidence read these two unsolicited testimonial letters. We guarantee they are genuine and honest statements of facts.

Cresson, Pa .- "Five years ago I had a bad fall, and hurt myself inwardly. I was under a doctor's care for nine weeks, and when I stopped I grew worse again. 1 sent for a bottle of Lydia E. Pinkham's Vegetable Compound, took it as directed, and now I am a stout, hearty weman."-Mrs. Ella E. Aikey, Cresson, Pa.

Baird, Wash.-"A year ago I was sick with kidney and bladder troubles and female weakness. The doctors gave me up. All they could do was to just let me go as easily as possible. I was advised by friends to take Lydia E. Pinkham's Vegetable Compound and Blood Purifier. I am completely cured of my ills, and I am nearly sixty years old."- Mrs. Sarah Leighton, Baird, Wash.

Evidence like the above is abundant showing that the derangements of the female organism which breed all kinds of miserable feelings and which ordinary practice does not cure, are the very disorders that give way to Lydia E. Pinkham's Vegetable Compound.

Women who are afflicted with similar troubles, after reading two such letters as the above, should be encouraged to try this wonderfully helpful remedy.

For 30 years Lydia E. Pinkham's Vegetable Compound has been the standard remedy for female ills. No sick woman does justice to herself who will not trywthis famous medicine. Made exclusively from roots and herbs, and has thousands of cures to its credit. Mrs. Pinkham invites all sick women
