Michael Black, of this place, has gone into the chicken raising business. He is hatching his peeps in an incubator, and one day last week, had nearly a hundred little fellows to "come out."

If the News this week should seem to be a little more interesting than usual, it may be attributed to the fact that the Editor is "away down south in the fields of cotton," and all hands around the office take turns in holding down the editor's chair.

A clergyman was much surprised one day at receiving a bas ket of potatoes through the generosity of an old lady in his parish. The madam's message stated that she had heard him say in his discourse on the previous a year, returned home. Sunday that some common taters with him, so she had sent him some good ones.

A Storekeeper Says:

"A lady came into my store lately and said:

"I have been using a New Perfection Oil Cook-Stove all winter in my apartment. I want one now for my summer home. I think these oil stoves are wonderful. If only women knew what a

these oil stoves are wonderful, comfort they are, they would all have one. I spoke about my stove to a lot of my friends, and they were astonished. They thought that there was smell and smoke from an oil stove, and that it heated aroom just like any other stove. I told them of my experience, and one after another they got one, and now, not one of them would give hers up for five times its cost."

The lady who said this hed thought

The lady who said this had thought an oil stove was all right for quickly heating milk for a baby, or boiling a kettle of water, or to make coffee quickly in the morning, but she never dreamed of using it for difficult or heavy cooking. Now—she knows.

Do you really appreciate what a New Perfection Oil Cook-Stove means to you? No more coal to carry, no more coming to the dinner table so tired out that you can't est. Just light a Perfection Stove and immediately the heat from an intense blue flame shoots up to the bottom of pot, kettle or oven. But the room isn't heated. There is no smoke, no smell, no cutaide heat, no drudgery in the kitchen where one of these stoves is used.
