### A WOMAN'S GREAT IDEA

is how to make herself attractive. But, without health, it is hard for her to be lovely in face, form or temper. A weak, sickly woman will be nervous and irritable. Constipation and Kidney poisons show in pimples, blotches, skin eruptions and a wretched com plexion. But Electric Bitters always prove a godsend to women who want health, beauty and friends. They regulate Stomach, Liver and Kidneys, purify the blood; give strong nerves, bright eyes, pure breath, smooth, velvety skin, lovely complexion, good health. Try them. 50c. at Trout's drug store.

# Airship and Country Residences.

Charleston News and Courier.

It was noted sometime ago that many of the handsomest residences in Philadelphia are a drug on the real estate market. Wealthy people now have their country estate. They go to the cities for the short social season. but instead of maintaining expensive establishments live at the hotels. As a result, there is no demand for the great residences of a few years || ago. The tendency of people is, of course, to reside in the country if possible. They only go to the city because their business is there, and because they enjoy social intercourse. The advent of the automobile has made it possible to live in the country, get into town every day for business, or come in to the theatre. However, this has only been possible in sections where there are good roads.

If the aeroplane fulfills present promises it will be as common in a few years as the automobile is now. The condition of the roads will not then affect passenger transportation at all, however much it will be necessary to consider the state of the weather. It is quite possible that the development of aerial pavigation will solve the great problem of the urban movement. People will insist on living in the country if they can do so comfortably and conveniently.

### An Excess of Virtue,

The Binghampton Press says: "Moralists in Chicago-for they have them, even there-are point ing to the head of a \$200,000,000 bank as a model for all young men who go into business with an ambition to come out near the top. This bank president is, no doubt, a worthy gentleman, but a glance at his accomplishments fills one with deep and abiding

He has never lost a day from sickness; he has never taken a va cation that did not have business inside; he does not drink; he does not smoke; he does not play bridge; he does not play golf; he has no favorite author; he has no hobby but banking; he has no country residence; he does not even take exercise; he works nine hours a day. If that is the type of man who is held up as a model for the young, Heaven help the young! Excess in any of these diversions might mar a business career, but it would be the excess and not the diversion which work ed the evil. The man of one idea may reach the top, as this gentle man has done, but flat failure is preferable to success which costs as much as that. Men are something more than financial machines."

### A DREADFUL WOUND

from a knife, gun, tin can, rusty nail, fireworks, or of any other nature, demands prompt treat ment with Bucklen's Arnica Saive to prevent blood poison or pany and the Rexall Store selling gangrene. It's the quickest, sur est healer for all such wounds as also for Burns, Boils, Sores, Skin Eruptions. Eczema, Chapped

# Hints About Babies.

Never bathe a baby immediatey after it has fed. Two hours at east should elapse before a bath. When a child is fretful give it a

ittle water to drink. Just as often as not it is simply thirsty. A lump of ice tied in a muslin pag will soothe gums swollen from teething and is welcome to

most babies. Ill nature or angry outbursts on the part of a mother will unfailingly react on the baby, who will suffer from indigestion, colic and general tretfulness.

When a child suffers from earache syringe the ear with water or so and keep a bag of hot salt which that black eye had been ac over the back of the ear. Never drop hot oil or any other sub stance except water into the ear. Keep the child very warm and quiet. These earaches, so frequent in childhood, are generally due to congestion from a cold.

Babies should preferably sleep on their sides. When sleeping on their backs the food is apt to rise in their throats and choke

# Busy Boys Best Asset.

A good way to keep the boys at home is to get them some tools and let them have a corner of the wood shed or buggy house for a

Give them some wood and let them make little useful things for the farm. After while they can make gates and other things needed about the farm.

Some farmers have a portable forge and do their own repair work. Here the boys can learn a few lessons in iron. Mony invested in either iron or wood working tools will pay big interest where there are boys on the

Don't be afraid of their cutting a tew feet of lumber. Every body has to begin a trade and why not let the boys begin during spare time and wet days. If you are not a mechanic perhaps the boys will follow suit if they are not trained while young.

Remember that "idle hands are the devil's work shop," so give the boys something to do.

# Children

Listen to this opinion from David Starr Jordon:

"There is nothing in all the world so important as children, nothing so interesting. If you ever wish to go in for some philauthropy, if you ever wish to be of any real use in the world, do ter at this writing. something for children. If you children. We can dress the poor, | tend the Sunday School Convenbury the dead, but there is al. from Shanes, Sunday school. ways a chance that we can save a child. If the great army of philanthropists ever exterminate sin and pestilence, ever work out our race's salvation, it will be because bors, for their kind assistance a little child has led them."- through the illness and death of

# The Refinement of Humor.

not for it in the newspapers or joke books. Get you, instead, a report of the convention held at the capital of our nation by the United States Brewer's Associafriends. Mr. Mellott began to tion. From the proceedings you wonder what had happened, but will learn that while "the prohibithen it occurred to him that the tion movement has been riding at day before had been his 51st high tide the sale or beer has increased 90,000,000 gallons a year and the sale of spirits 11,-000,000 gallons." You will discover that though the people of ax, wife, daughters and son; Mrs the United States are becoming more temperate, "the consumption of Alcohol increases just as steadily as the growth of temper ance. Then you may wonder why, this being the case, brewers continue to inveigh against prohibition. The supposition has been that the more business they can do the better they will be satisfied.

That aside, however, as being mercenary suggestion, let us consider where prohibition gets a knockout blow in the association's annual report. This deightful document tells us that:

a conspiracy against the prohibi tionist. The bees become intoxicated with the distillation of the honeysuckle; the wasps grow dizzy in the drowsy clover patch and even the ants wobble after they have feasted upon overripe fruit which has started a natural fermentation.

Could anything be more convincing? Can you beat it for the refinement of humor? Go to the bee, the wasp and the ant, thou guzzle, get wisdom and get sous-

### KEEP THE KING AT HOME.

ATTORNEY AT LAW, Office on Square,

Many Women who are Splendid Cooks

dread having to prepare an elaborate dinner because they are not sufficiently strong to stand over an intensely hot coal range. This is especially true in summer. Every woman takes pride in the table she sets, but often it is done at tremendous cost to her own vitality through the weakening effect of cooking on a coal range in a hot kitchen.

It is no longer necessary to wear yourself out preparing a fine dinner. Even in the heat of summer you can cook a large dinner without being

found during the season as follows:

# New Perfection Oil Cook-stove

Gives no outside heat, no smell, no smoke. It will cook the biggest dinner without heating the kitchen or the cook. It is immediately lighted and immediately extinguished. It can be changed from a slow to a quick fire by turning a handle. There's no drudgery connected with it, no coal to carry, no wood to chop. You don't have to wait fifteen or twenty minutes till its fire gets going. Apply a light and it's ready. By simply turning the wick up or down you get a slow or an intense heat on the bottom of the pot, pan, kettle or oven, and nowhere else. It has a Cabinet Top with shelf for keeping plates and food hot, drop shelves for coffee, teapot or saucepan, and even a rack for towels. It saves time, worry, health and temper. It does all a woman needs and more than she expects. Made with 1, 2, and 3 burners; the 2 and 3-burner sizes can be had with or without

### No. Not One.

There is no woman so strong that does not, at times, need a tonic. Rexall Celery and Iron tonic reaches the spot. Like the stitch in time" a bottle of this great nerve food will catch up the broken strand of health, when further neglect would mean a spell of sickness, nervous pros tration, and a ruined constitution. 16, 17; 27. 28, 29. 30 and July 1. For sale at Seylar's-The Rexall Store, McConnellsburg.

# Science in Farming.

The farmers of Pennsylvania are showing their faith in agricultural education by sending several hundreds of their sons to Pennsylvania State College. The growth of this school in this state institution has been remarkable. The criticism made of some state agricultural schools that they train boys wholly away from the farm will not apply to Pennsyl vania. One hundred and seventy of the four hundred and seventy nine students enrolled in the School of Agriculture last year ral life, while a considerable per centage of the remaining number, who are taking the four years' college courses, expect to engage in some department of

practical farming. The Two Years' Course in Agriculture attracts young men who have not been able to prepare for sibility for accidents. a four years' course, and it fits men for practical work only and not for professional life. A book let has been prepared for free distribution that describes the work offered in this course, and it presents some fine illustrations that are descriptive of the work in the School of Agriculture. Students are shown engaged in hvestock judging, horticultural work and other practicum. An excellent picture of the students engaged in military drill is shown on the last cover page. This attractive booklet may be secured without charge by sending a post- happened. It tells the truth, irrespecal card request addressed to live of party, and for that reason it School of Agriculture and Experi has achieved a position with the pubment Station, State College, Centre county, Pa. Every young man who wants to know the science of agriculture and its useful application, and who has not had the advantage of school preparation for a four year's college course, should take advantage of this Two Years' Course in The Pennaylvania State College.
