### Caught Napping.

Mr. Henry Anderson, one of 'od township's quietest and best atizens, went out last Thursday to build some fence for his neighor Grover Peck, about a mile rom home. It got so warm about nine o'clock, he concluded to go nome and wait until the afternoon, when he hoped it might be cooler. When he came in sight of his louse he was surprised to see a large crowd of people. The house was full and the yard was full, and still more coming. Just then it dawned on his mind that it was his 75th birthday. After reaching home and exchanging greetlugs with the company, and receiving many hearty congratulations, the women got busy and in a short time the tables were set, and dinner announced. To say that it was a good dinner, would be to state it mildly, and the fact two hours were spent in serving it, leaves no doubt but there was plenty of it. After dinner the company was seated in the yard and Photographer Seville took a picture of the group. Among other nice and useful gifts, Mr. Auderson received 110 postcards. About four o'clock the guests be gan to shake hands with Mr. and Mrs. Anderson and wish that their lives might be spared to

Among those present were: Mr. and Mrs. Henry Anderson, Mrs P. Shidleman, Helen, Dewey, and Wm Scheidleman: Mary Horton, Harris- 66 burg: Mr and Mrs J C. Waverly Special

"Perfect Inbrication with-out carbon deposit." Waverly Oil Works Co.

Letter to Albert Hohman,

McConnellsburg, Pa. Dear Sir: Two men on opposite sides of the same street sell sausages, one at 10c lb., the other at 5. Which sells the more sau-

sages, think you? The answer is: It depends on the street. There are plenty of streets in the world where 5c. ausages go like the wind.

Devoe is an honest paint; there are eight honest paints, 200 adulterated and short measure; Devoe is the best of the eight. Devoe has more strength than the other seven. The painter adds generally a quart of oil to Devoe; he still has a stronger paint than any other one of the seven

The seven are sold at one price \$1.75 a gallon; a common price of second-rate paint is \$1 50. It takes 8 gallons Devoe to paint a small house, and 12 of average paint; 8 gallons cost less than 12; he price is more than offset by ess galions.

It costs \$2 to \$4 a day to get paint on; a day is a gallon; \$8 to \$16 more to paint the more-gal lons paint; \$8 to \$16 less for painting the less-gallons paint.

The difference in first cost of the two jobs is \$14 to \$22, and which wears best do you think? It's the less-gallons paint because of its strength.

There are plenty of people to buy those 5c sausages.

Overcrowding of the chickens is

strong bid for trouble Have a driveway right through your barn. It will prove valuable in many ways, especially in the matter of keep-

ing it clean. Nothing better for growing swine than good pasturage, and there is no more economical method of raising

The Connecticut Experiment Sta tion recommends that for the best

results in hatching, eggs not over five days old be used. The work of raising chickens has only begun when you get the downy

things out of the shell.

Dip the sheep right after clipping them and then again about ten days

after to be sure and kill those that hatch after the first dipping. An excellent feed for all kinds of young stock is fine cut clover hay, cooked and steeped in boiling water

and mixed with salt, bran and corn To have finely colored fruit it is necessary to have plenty of light. A dressing of wood ashes, or potash, around the base of the trees, will also help considerably to improve the

### Farm Success.

Success on the farm depends very much more on the man than on the land, Some men will make a nice home and farm out of a very unpromising tract of land, while some others, with a naturally nice situation, can make nothing of it. Examples of each can usually be found in every neighborhood.

### Threshing Seed Peas.

Try threshing your seed peas with an old flail willed to you by your grandfather. Don't get mad when the immature ones fall to thresh out; just feed them to the cows. If you have a large acreage adjust the threshing machine and use that.

### Not Room Enough.

While riding on an electric car, during his first visit to the city, a farmer passed the yard of a monument com-pany, where gravestones and monuments were displayed. Turning to his host, he remarked in an awe-stricken METHODIST DAY.

Lakemont Park the Place; Thursday, July 28, the Date.

The annual Methodist Day will be held at Lakemont park, Thursday, July 28. The program is rapidly making. Bishop Lewis, who has just returned from China and who succeeded last week in impressing menied men of New York city and other centres to finance a great university at Foo chow, China, will speak in the afternoon. This will be a great treat, for Bishop Lewis has been in the very centre of some of the mightiest achievements in educa tion, relief and for Christianity of this century.

Dr. R. M. Moore, of Brooklyn, will preach in the morning. Noted orator.

The preparations for the day in the line of music are upon a scale that will make it attractive, and by parties that insure a fine schedule.

It is very gratifying to the general committee that the Pennsyl vania Railroad company will run a special train from Grampian, starting at 6:30 a. m., arriving in Altoona at 9:27; return by regu lar trains. From this point and throughout the Tyrone division, and on the main line from Har risburg to Greensburg, excur sion tickets (at two cents a mile), will be sold July 27 and 28 good to return until July 30, inclusive. This will bring a great crowd. Excursion rates have not been given for eight years. This ar burg, and Norman O. Huber, rangement meets the wishes of a host of people at distant points.

A Storekeeper Says:

"A lady came into my store lately and said: "I have been using a New Perfection Oil Cook-Stove all winter

in my apartment. I want one now for my summer home. I think these oil stoves are wonderful, comfort they are, they would all have one. I spoke about my stove to a lot of my friends, and they were astonished. They thought that there was smell and smoke from an oil stove, and that it heated around the time. It make the time to the that it heated aroom just like any other stove. I told them of my experience,

and one after another they got one, and now, not one of them would give hers up for five times its cost." The lady who said this had thought an oil stove was all right for quickly heating milk for a baby, or boiling a kettle of water, or to make coffee quickly in the morning, but she never dreamed of using it for difficult or heavy cooking. Now—she knows.

Do you really appreciate what a New Perfection Oil Cook-Stove means to you? No more coal to carry, no more coming to the dinner table so tired out that you can't eat. Just light a Perfection Stove and immediately the heat from an intense blue flame shoots up to the bottom of pot, kettle or oven. But the room isn't heated. There is no amoke, no smell, no outside heat, no drudgery in the kitchen where one of these stoves is used.
