TIT FOR TAT.

Colloquy in a Railway Station Ending in a Draw.

An Irishman was sitting in a depot smoking when a woman came, and sitting down beside him, remarked: "Sir, if you were a gentleman you would not smoke here."

"Well, mum," returned the Irishman, "as he puffed away at his pipe, 'if you wuz me wife I'd take it.'"

Justice and Lucre.

Judge Giles Baker, of a Pennsylvania county, was likewise cashier of his home bank.

"Why, Judge," said the man, "I've known you to sentence men to be hanged on no better evidence than this."

"Very likely," replied the Judge. "But when it comes to letting go of cold cash we have to be mighty careful."

Some Thoughts on Sheep and Goats. Sheep live higher, but more is expected of them.

It's a great distinction to be a sheep, but it wouldn't be, only for the goats.

None except sheep get into society. None except goats know what a parcel of foolishness society is.

There are sheep who wonder if it's worth all it costs. Goats would be fairly contented if it wasn't for their wives all the time trying to be sheep.

No Assistance Needed.

Lucinda stood in the presence of two famous surgeons who had just assured her that her present condition demanded an operation and that unless it was performed within a short time she would in all probability die.

"I'm jes as much obliged to you gen'mans as I can be," she assured them, "but ef de deah Lord has done made up his min' to call me home, I think he kin translate me widout no assistance."

A Work of Supererogation. Henry dializes being bathed and argues with his mother over every square inch of his four-year-old anatomy.

One night, when his patience was especially tried by what he considered wholly unnecessary work, he exclaimed: "Oh, mamma, couldn't you skip my stomach? Nobody ever sees my stomach!"

SUMMER IS HERE.

Try Following a Few Rules to Keep Cool While It Lasts.

Now that summer is here that the weather man had promised it to be warmer, that the heavy clothing has been put away, and that all doubt of winter's return is passed, it is a good thing to remember a few rules for keeping cool, especially while the hot and oppressive weather lasts.

Don't put too much faith in cold baths. They set the body in a glow avoided when the thermometer is around 90 degrees.

Don't forget to take a little time to rest during the day.

Don't cut out all exercise because it is hot. Take it in the early morning or after the sun goes down, or even a walk just before bedtime.

Don't run for street cars or trains. It is safer to start in time unless we are courting heat prostration.

Don't do any work that is unnecessary.

Don't drink too many iced drinks. They spoil the digestion and complexion and only make you warmer in the end.

It is better to have your drinks cold without being actually iced.

These are just a few of the homely things that we all know quite well and yet we all forget to put into practice when the hot days are upon us.

Gum and Sweet Juice on Stone Fruits.

A request for information as to the wax like gum which appears on peaches, and the assembling of ants at the ends of the twigs of cherry trees, was answered by Prof. H. A. Surface, State Zoologist of Pennsylvania, as follows:

"The appearance of wax like drops, like gum on peaches, is caused by the Curculio, of which there are two species. However, they may be caused, also, by any thing that punctures the skin.

Of course, the Curculio is the greatest offender. It is to be prevented by spraying with one or two pounds of arsenate of lead in half strength Bordeaux mixture, the latter being made by using one and one half pounds of bluestone, and three pounds of lime, in fifty gallons of water.

"The ants, as a rule, do not injure cherry twigs. They are probably licking up the sweet juice which is to be found there. Oftentimes, when ants are seen going up and down trees, they are visiting insects, such as scale insects and plant lice, that are to be seen on leaf or bark. The ants themselves do not inflict the injury, but they indicate the presence of insects which are injurious. Thus the real culprits injuring your cherry trees are plant lice, which are found beneath the leaves, and which give out a sweet liquid called honey dew, upon which the ants feed. It is this honey dew which is sticky and gummy and soils the leaves. To prevent it and prevent injury by plant lice, you should spray with one pound of Whale Oil Soap in four or five gallons of water before the leaves curl, and shortly after they come from the buds. This is the proper time of year to spray. It is too late to spray after the leaves curl, as the Aphids can not then be reached."

THESE PIES OF BOYHOOD.

How delicious were the pies of boyhood. No pies now ever taste so good. What's changed, the pies? No. It's you. You've lost the strong, healthy stomach, the vigorous liver, the active kidneys, the regular bowels of boyhood.

Your digestion is poor and you blame the food. What's needed? A complete toning up by Electric Bitter's of all organs of digestion—stomach, liver, kidneys, bowels. Try them. They'll restore your boyhood appetite and appreciation of food and fairly saturate your body with new health, strength and vigor. 50c at Trout's drug store.

Cook in Comfort. You no longer need wear yourself out with the weakening heat of an intensely hot kitchen. You can cook in comfort.

Here is a stove that gives no outside heat. All its heat is concentrated at the burners. An intense blue flame (hotter than either white or red) is thrown upwards but not around. All the heat is utilized in cooking—none in outside heating.

New Perfection Oil Cook-stove

entirely removes the discomfort of cooking. Apply a match and immediately the stove is ready. Instantly an intense heat is projected upwards against the pot, pan, kettle or boiler, and yet there is no surrounding heat—no smell—no smoke.

Cautionary Note: Be sure you get this stove that has the name-plate reads "New Perfection."
