It's the Jar More than the Recipe

Peer Preserves How to Can Peaches

Handsome fresh fruits make handsome preserved fruits, only when they're canned whole—without either cutting or crushing.

The jar that has a mouth wide enough to admit all our best domestic fruits—peaches, pears, etc.—whole is the "Atlas E-Z Seal."

Therefore, the best results in preserving are possible only when you use the Atlas E-Z Seal Jar.

Buy these jars of your dealer before the fruit season comes on and be ready to preserve appearance as well as quality.

The Atlas E-Z Seal Jar is extra quality glass: smooth on top and an instant sealer.

The Farmer and His Banker

Our bank never fails to give as good service to the farmer as it gives to any business man. As a matter of fact few banks could exist in this day and age of the world without the co-operation of the farmers. Often a farmer can make money by borrowing. Do not hesitate to call on us when you want money. We welcome a responsible borrower quite as heartily as a substantial depositor. It will pay every farmer to carry a checking account with us. Why not come in and talk it over with us to-day? Accounts may be opened by mail and monies deposited or withdrawn in this way with equal facility. We make a specialty of serving the farmer.

We Pay 3 Per Cent. Interest.
