never forget to tell my friends what Lydia E. Pinkham's Vegetable Compound has done for me during this trying period. Complete restoration to health means so much to me that for the sake of other suffering women I am willing to make my trouble public so you may publish this letter."—Mrs. CHAS. BARCLAY, R.F.D., Graniteville, Vt.

No other medicine for woman's ills has received such wide-spread and unqualified endorsement. No other medicine we know of has such a record of cures of female ills as has Lydia E. Pinkham's Vegetable Compound.

For more than 30 years it has been curing female complaints such as inflammation, ulceration, local weak-nesses, fibroid tumors, irregularities, periodic pains, backache, indigestion and nervous prostration, and it is unequalled for carrying women safely and nervous prostation, and it is unequalled for carrying women safely through the period of change of life. It costs but little to try Lydia E. Finkham's Vegetable Compound, and, as Mrs. Barclaysays, it is "worth moun-tains of gold" to suffering women.

A WIRELESS FROM AN AEROPLANE

Another Chapter Recorded in Aerial Achievement.

ONE MILE OFF AND 500 FEET UP

The Wonderful Feat Performed at Sheepshead Bay-Operator's Ingenious Device Makes It Possible to Send Wireless Telegrams While His Hand Is On the Steering Wheel-Wireless Sputters While the Plane Is Only a Speck In the Sky.

New York (Special) .- "Buzz, buzz, buzz, zizz," spoke the small voice of the coherer into the ear of the wireless operator stationed on the roof of the grand stand at Sheephead Bay race track. A mile away and 500 feet up Aviator Mc Curdy was a speek against the sky. The operator began to piece into sense the sputtering of the wireless. This is what he read:

"Another chapter in aerial achieve ment is recorded in the sending of a wire less message from an aeroplane.
(Signed) "McCURDY."

(Signed)
Thus became a reality the first wireless message from an aviator in flight to a

receiving station on earth.

J. D. A. McCurdy, a pupil of Glenn H.
Curtiss, was both aviator and sender, and
Harry M. Horton, formerly a sergean in the Spanish-American War, acting un der the supervision of Major Samuel Re ber, of the United States Signal Corps was receiving operator. Horton had test ed his apparatus thoroughly and was sure that it was tuned to receive any message properly sent.

McCurdy had attached a key to his

steering wheel, and the atennae of his sending apparatus depended below him from the chassis of his biplane. He is not an expert sender, but Horton, at the other end, said he heard the message dis tinetly as soon as it was put into the air Attempts to repeat it were received rather disconnectedly owing to McCurdy's in

NOT A LIFE LOST.

West Virginia Proud of Its Record for Last Year.

Bluefield, W. Va. (Special) .- One hun dred million tons of coal mined in West Virginia without the loss of a single life by dust or gas explosions is the record made by this State in the 17 months end ed with June 30 last. This statement it made by Charles Conner, assistant chief State mine inspector, who declares the record never has been equaled in any mining community. Incidentally, he de clares that West Virginia now occupies second place in the list of coal producing

In the year ended last June the mine of West Virginia thus far reporting produced 54,348,000 tons, and 54 additional shafts are yet to be heard from. When all reports are in it is estimated that the coal output of the State will be ap proximately 60,000,000 tons. This wil be an increase of 14,000,000 tons over the year ended in 1909.

Greater Vigilance on the part of the State Mine Department is given the credit for the decrease in fatalities among those who work under ground. Since January, 1909, practically no additional laws governing mining have been placed on the statute books of the State.

EXPOSED BY A WOMAN.

A Titian-Haired Blonde Was the De tective.

New York (Special) .- That a titian haired woman, hired as a detective by Standard Oil interests, revealed the secret plans of Fritz Augustus Heinze, the cop-per king, and thus caused the financial panic of 1908, was alleged by Mrs. Lik-lian Habert F. Hobart French. Heinze, according to Mrs. French, who is suing him for \$25,000 worth of copper stock she alleger she "loaned" him, proved an easy victize of the woman sleuth, who furnished her employers such valuable information that they were able to break the pool in United Copper, and force Heinze, Morse and their associates to the wall.

Mrs. French was very bitter against Heinze. His references to her as "that woman," and the intimation that he considered her suit "one brought for black mailing purposes," have riled her through and through. She asserted that she in tended to have satisfaction, and would "follow Heinze to the ends of the earth" in order to square their accounts should she lose her present suit.

Baby's Head Size of Egg.

Duqupin, Ill. (Special) .- The stork has just visited the home of Mr. and Mrs. Charles Wallace, who reside on a farm near Buckner, east of this city, and left with them one of the timest of daugh ters. The little miss weighs but one and a half pounds and is scarcely 12 inches in height. The baby's head is not larger than an average hen egg, while its fingers are so small they can be completely covered by a match. The physician in at tendance says that while the child is probably the smallest known to the Southern Illinois medical fraternity, it is in apparently perfect health and is expected to live.

Churches In Canada Unite. Victoria, B. C. (Special) .- The Cana dian General Methodist Conference, in session here, by an overwhelming majority declared in favor of a basis of church union whereby the Methodists Presbyferians and Congregationalists in the Dominion may unite under one de nomination to be known as the "Union Church." The union has already been agreed upon by the other two churches

Fed, He Burned Barn.

York, Pa. (Special) .- A tramp who had been treated to an early morning breakfast and who had been shown every breakfast and who had been shown every courtesy rewarded his friends by burning a barn estimated to be worth about \$6,000, the property of Mrs. W. H. Banis ter, of Los Angeles. The property was managed by Fred Small, of this city, and tenanted by Charles McConnell. The straw and other farm products were burn ad. The property is located just north west of the city, but too far away from water protection to be saved. The samp, who was hunted, made his escape

IN AGONY WITH ECZEMA

"No tongue can tell how I suffered for five years with itching and bleeding eczema, until I was cured by the Cuticura Remedies, and I am so grateful I want the world to know, for what helped me will help others. My body and face were covered with sores. One day it would seem to be better, and then break out again with the most terrible pain and itching. I have been sick several times, but never in my life did I experience such awful suffering as with this eczema. I had made up my mind that death was near at hand, and I longed for that time when I would be at rest. I had tried many different doctors and medicines without success, and my mother brought me the Cuticura Remedies, insisting that I try them. I began to feel better after the first bath with Cuticura Soap, and one application of Cuticura Ointment.

"I continued with the Cuticura Soap and Cuticura Ointment, and have taken four bottles of Cuticura Resolvent, and consider myself well. This was nine years ago and I have had no return of the trouble since. Any person having any doubt about this wonderful cure by the Cuticura Remedies can write to my address. Senator Smoot of Utah tells a story on the late E. H. Harriman, which sounds somewhat familiar. He says that when the Salt Lake cut-off was completed Mr. Harriman took a large party of big railroad men out to it.

They had their pictures taken at the right spot scenically. Mr. Harriman stood at one end of the group. When the pictures were printed and the photographer brought them around the railroad men examined them. "Why," shouted on y of the guests,

where's Mr. Harriman?' "Do you mean that little chap that stood at the end?" asked the photographer. "Why, I cut him off."
