### LONG TRIP IN AUTOMOBILE

Pitchers Overall and Brown to Make Journey From Chicago to Pacific Coast.

Excitement of the world's series baseball games is not going to suffice for Pitchers Brown and Overall after the National league season is over. They are going to seek adventures outside of baseball playing. They plan to make a trip from Chicago to Visalia, Cal., in an automobile owned by Overall immediately after the world's series games are over. So far only the two are going, but before they start two more may be added to the party. Definite plans have not been made for the ride, but as soon as

the baseball season is finished they will complete arrangements and also map out the route. It will be a trip of 3,000 or more

miles. How long it will take the two pitchers they do not know. The machine is the property of Overall and it

## CONFIDENCE MAKES A PLAYER

So Says Herman Schaefer, Veteran Leader of the Washington American League Team.

### (BY HERMAN SCHAEFER.)

Copyright, 1916, by Joseph B. Bowles,) Confidence is everything in baseball, and confidence in one's self is what makes a ball player. Somehow or other no matter how the managers of teams thought about it I always believed I was a fair player and capable of holding my own. I guess that is the way I got my start.

I learned the game on the prairies around Chicago and played with some of the fastest of the independent teams. I loved to play baseball, and wanted to become a professional. Several of my friends got into the game and made good money, more than I could see at my trade.

I determined to start out professionally and inside of two weeks had a job. Somehow or other I had a hard time trying to prove that I was a good ball player.

During that stage I think it was only my confidence in myself and my refusal to get discouraged and go home that kept me going along. The team ! was with wanted to let me out and along came Jimmy Ryan, who was handling the Colorado Springs team. and he made a deal for me. He was as confident that I could play ball as I was myself, and when we got together I started to playing. I remember 1 hit about 700 every time we played the team that let me go. Ryan boosted me to friends of his in the big league and came back home to Chicago in fast company. Again it was the same story, I thought I was good enough but no one else would believe it until I got with Detroit. There I found another team and another manager I could play with

Pottsville. - At a hearing before Justice Freiler Frank Tucci, of Morea, was committed to the county jail to await trial on the charge of sausing the death of Foreman Angelo Ensick on September 16th. Captain Adams, who conducted the prosecution, stated that at the proper time he would prove that the defendant sent two "Black Hand" letters to Ensick and that furthermore both letters were written by Tucci's wife. To prove the latter assertion he produced a time book that was kept by Tucci's wife. A comparison of the letters and figures in the time book and the letters and figures on the "Black Hand" letter were found

Hoover is the son of a prominent merchant of Atlantic. He shot his wife during a domestic quarrel, and, following the death of the young woman later in a Cleveland hospital. he was tried and convicted in Meadville. His counsel obtained a change of venue on the ground that a fair trial was not received in Crawford county on account of popular prejudice, and a second trial in Erie county again convicted Hoover. A third trial was asked for, but the Court refused to entertain the petition.

Pottstown.-An unusual result of a corporal punishment case occurred in the local school, when Alfred Ozter was given an old - fashioned spanking by his teacher, Miss Anna Blake. Miss Blake took Alfred, who is 10 years old, over her knee and adm'nistered the thrashing. He carried matches in his hip pocket and these were ignited when the ruler came down upon him. The first intimation Miss Blake had of this was when she smelled sulphurous odors. and about this time Alfred's trougers were ablaze. Some water was secured and the fire extinguished. The boy was burned considerably.

Queer questions come over the telephone to the newspaper offices. Here was one that the man who chanced to answer the phone had put up to him the other day:

newspaper man, who put in several years at Sunday school, "Who'd in Well," observed the man at the

### Attack "Loaded Ball."

Herman Schaefer.

In New York bowling circles controversy has been renewed with re-Grand Rapids-were heavy losers on gard to the advisability of prohibiting the use of the loaded ball. About two years ago the New York Bowling association let down the bars with

regard to the lead-cored sphere, but a committee which has been considering the matter for the past two weeks has now recommended the rescinding of the present rule.

"For a while the eastern devotees of the game were content with mat-

ters as they stood," says the committee, "but experience seems to show that the loaded ball in the hands of crack players is not conducive to the best interests of the game any more than rutty alleys or steam-dried pins. With the official competitive season

just beginning and the beginning of schedules in nearly 100 leagues and on the mound for the St. Paul club last tournaments in Greater New York season, and who later drifted to the alone, the subject should be acted on at once.'

#### Friction With Players.

Every first-division manager in the American league has had friction with and if the leader of the new champions has had any trouble he has maintained such sphinx-like silence that no one has been able to find out anything about it. Manager Jennings

of the Detroit Tigers had a little span with Ty Cobb. Manager Donovan had a few love words with Harry Lord and now Manager Stallings of the New York Highlanders has had a few lively rounds w'th Hal Chase.

#### Talks of Fight.

## **Temporary Heat Quickly**

Did you ever stop to think of the many ways in which a perfect oil heater is of value? If you want to sleep with your window open in winter, you can get sufficient heat from an oil heater while you undress at night, and then turn it off. Apply a match

in the morning, when you get out of bed, and you have heat while you dress. Those who have to eat an early breakfast before the stove is radiating

heat can get immediate warmth from an oil heater, and then turn it off. The girl who practices on the piano

in a cold room in the morning can have warmth from an oil heater while she plays, and then turn it off.

The member of the family who has to walk the floor on a cold winter's night with a restless baby can get temporary heat with an oil heater, and then turn it off. The

is invaluable in its capacity of quickly giving heat. Apply a match and it is im-mediately at work. It will burn for nine hours without refilling. It is safe, smokeless and odorless. It has a damper top and a cool handle. An indicator always shows the amount of oil in the font. It has an **automatic-locking flame spreader** which prevents the wick from being turned high enough to smoke, and is easy to remove and drop back so that the wick can be cleaned in an instant. The burner body or gallery cannot become wedged, and can be quickly unscrewed for rewicking. Finished in japan or nickel, strong, durable, well-made, built for service, and ye light and ornamental.
