#### increase of Sanatoria and Hospitals for Consumptives is Most Gratifying.

The growth of the crusade against uberculosis in the United States is shown to good advantage in the two directories that have been issued by the National Association for the Study and Prevention of Tuberculosis and the one in preparation. The first tuperculosis directory published in 1904. the tuberculosis committee of the New York Charity Organization Society and the National Association listed 133 sanatoria and hospitals for consumptives in the United States, for some of which preliminary provision only has been made. The combined capacity of these institutions was only \$,000 beds. Thirty-two special dis pensaries and thirty-nine anti-tubercu losis organizations summed up practically all of the fighting force enumerated in the first directory. The second directory was prepared by the National Association for the study and Prevention of Tuberculosis and pub ished under the auspices of the Russell Sage Foundation in August, 1908. This directory listed 240 sanatoria and hospitals, an increase of 107 from the former directory; 158 dispensaries, an increase of 126; and 195 associations. an increase of 156. The number of hospital beds listed in 1908 was 14,014. The new directory that will be ismed soon, will list over 400 sanatoria and hospitals with a bed capacity of pearly 25,000; more than 300 special tuberculosis dispensaries; and fully 450 anti-tuberculosis associations and committees. Since the first directory

was issued in 1904, the increase in the number of agencies fighting consumption analogates nearly 500 per essnit. The National Association for the Study and Prevention of Tuberculosis

would like to get in touch with all agencies engaged in the fight against tuberculosis. In order that they may be listed in the new directory.

Father O'Leary's Facetious Rejoinder to John Philpot Curran an Example of Real Wit.

One day the famous John Philpot Curran, who was also very partial to the said corned mutton, did me the honor to meet him. To enjoy the society of such men was an intellectual treat. They were great friends and seemed to have a mutual respect for each other's talent, and, as it may easly be imagined, O'Leary versus Curran was no bad match.

One day after dinner Curran said to him: "Reverend father, I wish you were St. Peter."

"And why, counselor, would you wish that I were St. Peter?" asked O'Lears.

"Because, reverend father, in that case," said Curran, "you would have the keys of heaven, and you could let me in."

"By my honor and conscience, coun selor," replied the divine, "It would be better for you that I had the keys of the other place, then I could let you out.

Curran enjoyed the joke, which he admitted had a good deal of justice in it .- From Kelly's Reminiscences.

AN INTOLERABLE ITCHING

"Just about two years ago, some form of humor appeared on my scalp. The beginning was a slight litching but it grew steadily worse until, when I combed my hair, the scalp became raw and the ends of the comb-teeth would be wet with blood. Most of the time there was an intolerable itching, in a painful, burning way, very much as a bad, raw burn, if deep, will itch and smart when first beginning to heal. Combing my hair was positive My hair was long and tantorture. gled terribly because of the blood and scabs. This continued growing worse and over half my hair fell out. I was in despair, really afraid of becoming totally bald. "Sometimes the pain was so great

that, when partially awake, I would scratch the worst places so that my finger-tips would be bloody. I could not sleep well and, after being asleep a short time, that awful stinging pain -would commence and then I would wake up nearly wild with the torture. A neighbor said it must be salt rheum. Having used Cuticura Soap merely as a toilet soap before, I now decided to order a set of the Cuticura Remedies -Cuticura Soap, Ointment and Pills. I used them according to directions for perhaps six weeks, then left off as the disease seemed to be eradi cated, but toward spring, eighteen months ago, there was a slight return of the 'scalp humor. I commenced the Cuticura treatment at once, so had very little trouble. On my scalp I used about one half a cake of Cuticura Soap and half a box of Cuticura Ointment in all. The first time I took six or seven bottles of Cuticura Pills and the last time three bottles-neither an expensive or tedious treatment. Since then I have had no scalp trouble of any kind. Standing up, with my hair unbound, it comes to my knees and had it not been for Cuticura I should doubtless be wholly bald.
