

ROUNDING UP THE LEADERS

Mexican Jail Full of Political Prisoners.

MEN TRUSTED BY GENERAL MEDARDO.

Several Of Them Now Under Arrest—Juan Vaca Captured By Secret Service Officers—He Is Said To Have Planned Attacks Upon Parral and Other Towns—Two Bandits Killed In A Fierce Hand-to-Hand Conflict.

Mexico City (Special).—The government is rapidly rounding up the leaders and political leaders of the revolutionary movement. In many towns the jails are overcrowded with the political prisoners. One of the most important captures is Juan B. Vaca, who is alleged to have laid the plans for the attacks on Parral and other places in that region. Vaca has been brought here and placed in prison. He is said to have been one of Madero's right-hand men, and to have laid plans for attacks on towns all over the republic, but in person supervised the planning of the raid on Parral.

After the plans miscarried and the rebels were thoroughly whipped, Vaca fled southward through Durango up to the capital of the State of Jalisco, where he was captured by secret service men.

Rafael Quiroz Cardenas, another important suspect, and J. Socorro Cervantes, a scarcely less valuable capture, have arrived under guard from Jiquipa.

El Paladín, an anti-re-electionist organ, currently reported to have been financed by Madero and his supporters, has been closed by order of the court. Ramon Alvarez Soto, editor and proprietor of the sheet, has been held under charges of fomenting trouble through his newspaper and is now in Belem.

Two bandits were shot dead in a fierce hand-to-hand battle with the employes of the Hacienda Santa Rosa, near Puebla. Ten mounted bandits, heavily armed, attacked the hacienda about midnight, and the manager of the ranch immediately armed his employes and led them in the defense. So effective was their fire that the bandits were forced to flee, leaving two of their number dead on the field.

INSANE OVER TOLSTOI.

Boston Woman Quit Home, Going To Chicago.

Chicago (Special).—Deranged by the death of Tolstol and laboring under delusions that unknown persons in Chicago owe her millions of dollars, Mrs. Matilda Hahn, of Boston, is in the detention hospital here. Dispatches from Boston say she left home after writing an incoherent letter to her husband in which she discussed at great length the death of Tolstol.

Wireless On Warships In War.

Washington, D. C. (Special).—A new idea has been worked out in the use of the wireless telegraph on the ships of the Navy, according to the annual report of the chief of the equipment bureau, and a portable apparatus has been devised that will enable the long-distance aerial wires to be taken down in battle and replaced by a short wire running up to the yardarm connected to a set of instruments carried by the operator behind the armor inside the upper-deck. The shore wireless stations of the Navy have been very much improved and communication is now had nightly between Colon and Key West.

Never Had a Bonnet.

Denver, Col. (Special).—Mrs. David Goldstein, wife of a wealthy jewel dealer of this city, is probably the only woman in the United States who has gone on record as never having owned a hat. This was her testimony Friday in a suit for separate maintenance. Attorneys for the husband declared this was due to Mrs. Goldstein's religious belief, but the woman herself said it was because her husband would not spend the money, although she declares he is worth in the neighborhood of \$150,000 and has an income of \$10,000 a year.

Killed By Flying House.

Grand Rapids, Mich. (Special).—A steel-cased house containing dynamite exploded at the plant of the Alabastine Company, southwest of the city. One piece of the building was hurled 200 feet and struck George Munsee, a laborer, killing him instantly. Munsee was 60 years old and leaves a family. No cause is assigned for the explosion.

Cupid Worked Hard.

New York (Special).—If busy times in the Cupid Bureau at the City Hall may be taken as an indication of prosperity, Manhattan and the Bronx may be regarded as decidedly on the up-grade. Tabulations just completed for the 11 months of the year 1910 ending with November show that 31,565 marriage licenses were issued during that period, against 31,507 for the entire year of 1909. In December, 1909, 2,806 licenses were issued.

DIAZ BEGINS EIGHTH TERM

Seemingly a Happy Termination of Recent Turmoil.

Mexico City (Special).—"It is gratifying to me to say that my heart is full of faith in the progress of the people, who like the Mexican has known how to conquer by its own efforts a place among the lovers of toil, after having proved its valor in patriotic defense of country and that never, as today, could I declare that Mexico belongs definitely to the group of nations assured of stability, because against the firm guarantee of peace which we possess, no influence, tending toward its dissolution can now or ever be able to prevail.

"As to the relations between Mexico and the United States and other friendly nations, never have they been more cordial."

The above is the authorized message of President Diaz to all nations on the day of his inauguration for the eighth time as chief executive of the Mexican nation.

Relief When Over.

Peaceably and seemingly as a happy termination of the turmoil through which the nation has just passed, the ceremonies attending the taking of the oath of fealty by General Diaz and Ramon Corral, recently re-elected to the presidency and vice-presidency, respectively, were conducted Thursday.

There was no discordant note, and if the occasion was shorn of some of its brilliant features of former years by reason of recent disturbances, there was no lack of dignified ceremonial. Notwithstanding a realization that the possibility of any attempt by foes of the Diaz administration to interfere with the inauguration was remote, there was a feeling of relief apparent when the event was concluded.

No Cabinet Changes.

There will be no change in the personnel of the cabinet. In accordance with custom each of the ministers submitted his resignation to the chief executive through the Minister of Foreign Relations. Each was asked, however, to retain his portfolio. Following is the cabinet as re-appointed:

Minister of foreign relations, Enrique C. Creel.

Minister of justice, Justino Fernandez.

Minister of public instruction and arts, Justo Sierra.

Minister of fomento, Oligarcho Molina.

Minister of communications and public works, Leandro Fernandez.

Minister of hacienda and public credit, Jose Ives Limantour.

Minister of war and marine, Gen. Manuel Gonzales Cosio.

A HUMAN SACRIFICE.

Mrs. Shunk Killed Herself So She Might Not Infect Others.

Washington, D. C. (Special).—As a humane sacrifice Mrs. Lena A. Shunk, wife of Alonzo W. Shunk, a clerk in the office of the adjutant general of the War Department, deliberately killed herself at her home here by inhaling illuminating gas.

Mrs. Shunk, who was 36 years old, was afflicted with tuberculosis. Every possible means to cure the malady had been resorted to without success. The woman had been to many health resorts and on several occasions had met with difficulty in obtaining accommodations because of her condition. This greatly worried her.

When her husband returned home late Thursday he found his wife seated with a tube in her mouth. Letters to her doctors and her husband revealed the motive for her suicide—the fear that she would be the means of spreading tuberculosis infection to others.

KILLED HIS BROTHER.

Was Trying To Protect Him Against a Moose.

Montreal, Que. (Special).—In a desperate effort to protect his brother, Fred. Drexel Rodgers, of Philadelphia, from the charge of a wounded bull moose, W. T. Rodgers fired several shots from his rifle, one of which killed the young man.

Mr. Rodgers, grief-stricken over the accident, passed through here en route to Philadelphia. The fatal shooting occurred on the shore of Coulonge Lake.

The body was brought down to Ottawa by Mr. Rodgers and sent to Philadelphia. Fred. Drexel Rodgers was 28 years old.

E. Stoneman, also of Columbus, was killed.

POISONED BY RAT BITES.

A Two-Year-Old Child Dying From the Infection.

Washington, D. C. (Special).—With fourteen rat bites on her body, Liebe Lewis, the 2-year-old daughter of M. Lewis, of this city, is dying of blood poisoning. A short time since Mrs. Lewis was awakened by the child's cries. Lighting the gas the mother saw a rat disappear. A physician was summoned, and the wounds were cauterized, but the child did not escape infection.

MISS TAFT AS THE DEBUTANTE

Brilliant Coming-Out Party at the White House.

FLORAL DISPLAY WAS BEAUTIFUL.

Two Thousand Guests Form the Official Circle, and Residential Society Calls To Make Their Bow To the Daughter of the President—Mr. Taft In the Receiving Line—Ladies Who Served At the Refreshment Table Wore Fetching Gowns—Brilliant Scene.

Washington, D. C. (Special).—The White House was the center of attraction to society Thursday afternoon when about 2,000 guests from official, diplomatic and residential society were invited to the coming-out party of Miss Helen Taft, the young and attractive daughter of the President and Mrs. Taft. Miss Taft is the fourth of the White House debutantes, Nellie Grant being the first.

Toward the historic mansion of the guests a long line of carriages and automobiles was tending as the sun went down in the clouds of the West and the lights on the avenue and those that outlined the esplanades and gateways of the White House came into view. The November weather furnished just the contrast that was needed for the warmth and brightness of the interior, where the gay music of the Marine Band was heard floating through the upper corridors when the incoming guests laid aside their wraps in the dressing-rooms below.

The receiving line was formed at the door of the East Room and passed from the entrance to the south windows, where the President and Mrs. Taft with their daughter stood. Never was a debutante more liberally showered with bouquets and floral designs of every sort and conceit. The large gold-covered piano, which was one of the first things the guests saw as they entered the room, was piled with bouquets of roses, lilies, orchids and chrysanthemums. American Beauty roses filled the huge vases of Haveline ware, the gift of the French government to the White House some years ago.

In all the state apartments there was the same luxury of flowers and fragrance.

BITTEN BY A FISH.

Vessel Carries All Sail To Port To Save Man's Life.

Boston (Special).—Favored by a gale of wind, Captain Nelson, of the fishing schooner Reliance, was able to land Thoms Key, a member of his crew here, before the sailor bled to death from a wound made by the bite of a fish. While the Reliance was on the George Banks, an angel-fish, a species of shark, which had been caught in a trawl, bit Key's right hand, the sharp teeth almost severing it at the wrist.

Captain Nelson set sail for Boston, and when a physician went aboard at "T" wharf, Key was in a state of collapse, due to loss of blood. The fisherman will recover.

JAIL FOR BIG DEFAULTER.

Man Who Took Million and Half Gets Moderate Sentence.

Louisville, Ky. (Special).—August Ropke entered a plea of guilty to five counts of the indictment charging him with embezzlement of the funds of the Fidelity Trust Company. The total of his defaultations was \$1,490,000. The amount was reduced by recoveries to \$1,190,000. Ropke was given a sentence of from ten to eighteen years in the Penitentiary, this penalty covering all his offenses. Ropke was secretary of the company's banking department.

Hatpins Stir Philadelphia.

Philadelphia (Special).—In an effort to curtail the long hatpin evil in this city an ordinance was introduced in Council providing that no person upon the public streets or on conveyances shall be permitted to wear a hatpin the exposed point of which extends more than one-half inch beyond the crown of the hat. A fine of \$50 for each offense is provided. Councilman Schumacher, who introduced the proposed measure, declared that the lives of persons on street cars and pedestrians on crowded streets are imperiled.

(Special).—Trying to repair an electric bell with a piece of wire, without noticing a dynamite cap attached, Adam Hoffman lost the tips of two fingers and the thumb of his right hand when the cap exploded. Orange, N. J. (Special).—The railroad station of the Lackawanna Railroad was robbed of nearly \$700 by someone who evidently knew the combination of the safe. The night station agent, who was on duty until midnight, may be able to aid the detectives in locating the robber.

Resembles Thaw Case.

Vincennes, Ind. (Special).—With many features like the Thaw trial, the Menlo Moore murder trial began here Tuesday. Moore, a local theatrical man, is charged with the murder of Edward C. Gibson, October 3. Moore fired five bullets into Gibson as the latter stood in the Union Depot. His defense will be the unwritten law and insanity. Mrs. Moore probably will take the stand in defense of her husband, and, like Evelyn Thaw, bare her life to the jury.

PENSIONS BY STEEL TRUST

From Fund Not Contributed to By Employes.

New York (Special).—Judge Elbert H. Gary announced Monday that, beginning January 1, 1911, the United States Steel Corporation will pay three classes of old-age pensions to those of its employes who have served with the parent company or its subsidiaries for 20 years or more. The income for these pensions will be derived from the United States Steel Corporation and Carnegie joint fund, to which no employes contribute, and the division into classes will be as follows:

First—Pensions by compulsory retirement, granted to employes who have been 20 years or longer in the service and have reached the age of 70 years for men and 60 years for women.

Second—Pensions by retirement at request, granted to employes who have been 20 years or longer in the service and have reached the age of 60 years for men and 50 years for women.

Third—Pensions for permanent incapacity, granted to employes who have been 20 years or more in the service and have become permanently and totally incapacitated through no fault of their own.

No pension of more than \$1,200 will be allowed and none of less than \$12 a month. Between these extremes 1 per cent. of the regular monthly pay received during the last 10 years of service will be allowed for each year of total service. For instance: An employe who has been 25 years in the service and for the last 10 years has received a regular monthly wage of \$60 a month will receive a pension allowance of \$15 a month.

The United States Steel Corporation has a pension fund of \$8,000,000, and the Carnegie fund, established in 1901 by Andrew Carnegie, amounts to \$4,000,000, so that the joint principal available will be \$12,000,000. This fund is entirely separate from the voluntary accident relief plan, put into effect on May 1, 1910, which provides for injured employes and the families of those killed in the service of the corporation.

DEATH TOLL OF HUNTERS.

Hundred and Thirteen Killed In Twenty-Three States.

Chicago (Special).—The hunting season of 1910, which just closed, cost 113 lives, according to statistics from 23 States collected by the Tribune. This is considerably more than were killed during any previous season of which there is a record. The loss of life in 1909 was 87, in 1908 it was 87, in 1907, 82, and in 1906, 74.

The number of injured this season, however, is less than a year ago, only 81 having been hurt this year, against 104 for the season of 1909. It is likely the death list this year will be considerably increased later by reason of the fatal termination in the cases of many of the injured.

"Mistaken for a deer" and "shot by a companion" continues to lead as the reason for the shooting of hunters. Michigan heads the list, with 27 killed.

Milestones In a Great Life.

Mary Baker, born July 16, 1821, in Bow, N. H.

Married George Washington Glover about Christmas, 1843, at Tilton, N. H., and went to live in Wilmington, N. C.

Mr. Glover died in 1844 and his widow returned to Tilton, N. H., where her only son, named for his father, was born the same year.

Married Dr. Daniel Patterson, a dentist, in 1853, and 12 years later secured a divorce.

Went to Portland, Maine, in 1862 to consult Dr. Phineas Quimby, a mesmerist and faith healer. He cured her and she began studying his doctrines.

"Discovered" Christian Science in 1866 and practiced healing in Lynn.

In 1874 published first edition of "Science and Health."

In 1877 married Asa G. Eddy, who died five years later.

Began preaching in 1878. Founded First Church of Christ Scientist in 1879. Established her Metaphysical College in Boston in 1881.

Moved to Concord, N. H., in 1889.

Returned to Boston in 1908. Sued by her son and an adopted son in 1907, the suit being compromised in 1909.

Died in Boston, December 3, 1910.

Boston (Special).—Mrs. Mary Baker G. Eddy, founder and head of the Christian Science Church, is dead of pneumonia.

She passed away at 10.45 o'clock Saturday night in her mansion at Chestnut Hill, but the news of her death was suppressed until Sunday morning, when an official announcement was made by Alfred G. Farlow, chairman of the Christian Science Publication Committee.

She died while asleep, and the only physician who has seen her body, Dr. George L. West, medical examiner, says that she did not suffer any pain.

Gathered about her bedside when the end came were six followers of her religion—men and women who had been her companions for years. A few minutes before the life cord gently snapped she talked with them. She told them that she was tired, but felt no pain, and said nothing to indicate that she realized that death was near.

For nine days Mrs. Eddy had been ill, but faith in the doctrine which she has preached to millions in every part of the globe kept from her the knowledge that an illness had come which prayer could not heal.

Day after day she became worse, but she kept bravely at her duties, and two days before her death took her daily drive through the wooded country about Chestnut Hill, which she loved so well.

HIS LIFE WISH GRATIFIED.

John Smyth Dies Before Reaching His Seventeenth Birthday.

New York (Special).—For the reason that both his brother and his sister had died just as each was approaching the age of 17, John Smyth, a young resident of the upper East Side, had frequently expressed that he would never live to celebrate his own seventeenth birthday. He was nearing what he considered this crucial age, when Saturday he fell eight stories through the elevator shaft of a new building at Broadway and Ninety-second street, and died as the last rites of the church were being administered to him.

State Business Up To Date.

For the first time in several years there are no accounts in the State Treasury more than thirty days overdue and the financial business of the Commonwealth is being conducted like a bank. This is the result of the energetic methods of State Treasurer Charles F. Wright, who was appointed by Governor Stuart to the office, and has brought the business thoroughly up to date.

Among the last of the accounts collected were a number for money due the Commonwealth by townships and boroughs for highway construction, some of them dating back years and which have been the subject of considerable correspondence. In a number of instances it has been necessary to hold up money to the credit of counties, but collections have been made.

Delaney has issued orders to deputy factory inspectors to call attention of mercantile establishments to the provisions of the State law relative to the hours of work of employes during the holiday season, so that "the law will be kept intact" and at the same time "meet the extraordinary demands of the holiday season."

He likewise directs the deputies to cooperate with the educational authorities in reporting names of all minors of school age who are dismissed from employment after the holiday season.

PRESIDENT VAIL'S BOLD MOVE MARKS EPOCH IN FINANCE.

"Accuracy" Reduced Western Union's Surplus \$13,000,000.—"Publicity" Inspired Such Confidence That Its Stock Went Up.

Are the great financiers of the country beginning to see a new light? Time was, until recently in fact, when the men at the
