It will pay you to get reliable spraying apparatus. The cheapest and smallest that should suit you, is a barrel sprayer. You should have at least two sections or twenty-five feet of hose. It is a mistake to get hose two short. You should have an eight foot extension rod with a shut off, a "Y" attachment, two nozzles, etc. A reliable manufacturer will fit you up all right, but if you should need further suggestions, we shall be glad to give them."

Wants to Help Some One.

For thirty years J. F. Boyer, of Fertile, Mo., needed help and couldn't find it. That's why he wants to help some one now. Suffering so long himself he feels for all distress from Backache, Nervousness. Loss of Appetite, Lassitude and Kidney disorders. He shows that Electric Bitters work wonders for such troubles. "Five bottles," he writes, "wholly cured me and now I am well and the system. In buying Hall's hearty." It's also positively gua Catarrh Cure be sure you get the ranteed for Liver Trouble, Dyspepsia, Blood Disorders, Female Complaints and Malaria. Try them. 50c. at Trout's drug store.

> We are having ideal holiday weather. The sleighing is fine and the air crisp and cold. Our merchants are especially well stocked with holiday goods, and they are kept on the jump now from morning until night waiting on their throng of customers doing Christmas shopping.

A large buzzard with a sheep bell wired around its neck was found dead in a field by hunters near the Frederick, (Md.,) reservoir. The bird had been dead but a short time and was evidently choked by the wire. It is sup H. C. McGowan. of Burnt posed to be one of the famous bell buzzards that for several years have frequently been heard in that locality.

That Cold Room

on the side of the house where winter blasts strike hardest always has a lower temperature than the rest of the house. There are times when it is necessary to raise the temperature quickly or to keep the temperature up for a long period. That can't be done by the regular method of heating without great trouble and overheating the rest of the house. The only reliable method of heating such a room alone by other means is to use a

DERFECTION OIL HEATEN

Absolutely smokeless and odorless which can be kept at full or low heat for a short or long time. Four quarts of oil will give a glowing heat for nine hours, without smoke or smell.

An indicator always shows the amount of oil in the font. Piller-cap does not screw on; but is put in like a cork in a bottle, and is attached by a chain and cannot get lost.

An automatic-locking flame spreader prevents the

wick from being turned high enough to smoke, and is easy to remove and drop back so that it can be cleaned in an instant.

The burner body or gallery cannot become wedged, and can be unscrewed in an instant for rewicking. Finished in japan or nickel, strong, durable, well-made, built for service, and yet light and ornamental. Has a cool handle.

State's Acreage of Wheat.

An stimate that the area set out in winter weat this fall in Pennsylvania is at least eight per cent above the acreage sown in 1909 has been made to the United States Department of Agriculture of officials of the State Department of Agriculture. Last fail the farmers of Pennsylvania devoted 1,545,000 acres in round numbers to the cultivation of wheat, and A. L. Martin, deputy secretary of agriculture, after a study of reports made to the department from the counties of the state, estimates that the increase is approximately eight per cent. It is also stated in the re ports to the government that the appearance of the wheat virtually in every county is good, many localties showing a marked improvement over last year. This is attributed to more careful selection of the seed bed, which has been engaging attention lately, and which the state, by means of farmers' schools and institutes, has been encouraging. The early snow is considered by officials in touch with the agricultural interests as being an excellent thing, as it will protect the wheat against the cold weather.
