The "popular" writer who bewatts hat he assumes to be the fact that ne "old-fashioned" mother is no more liable to defeat his own purpose if hat be inculcating in children the ighest possible regard for their paents. It is a danger which even the antitative theory of literature or pace rates cannot justify.

The mother of the past, of course ras different from the mother of the resent, as different on the whole as he conditions of life then and now. at since her daughter is the mother the present there must be some ints of similarity. All the good in ar mothers and grandmothers cerinly could not have vanished. It ill be paying scant tribute to those ar, good women who have laid down heir precepts and examples and sered on to say so. And, of course. his writer does not mean to do that, et he comes very near doing what he es not intend.

The fallacy of the whole sentimennotion that because things and eople are not like they used to be they are not as good, lies in the pat fact that they cannot be alike, and they were it would simply be beause of the present generation being o much inferior to the past that it s unable to do no more than stand

CHANGE BASKET-BALL RULES | PLAN HOCKEY FOR MAROONS

Adds or Alters Nearly Dozen New Clauses in Code.

Nearly a dozen new clauses, either added to or altering the code of westand strongly indorsed by the Western Intercollegiate Basket-Ball association committee at its recent meeting in Chienco.

Primarily, it was demonstrated that ern rules experts had made good because of their presence in the recent guides, but further changes were deemed necessary. Some of the most important follow:

Only four, instead of five, personal the sport. fouls will be allowed any player durfeet of the spot indicated by the ganize the sport in the conference." referee, it shall go to the opposing passing the ball as well as in trying for a goal; the home team shall be penalized if the crowd becomes unruly

and interferes with play. Various factors were responsible for these new and altered regulations and they were formulated after reports had been received from officials, playyour nuscles; give you a sharper appetite ers, coaches and even well-informed spectators. The fundamental aim was to climinate roughness to the greatest possible degree, and a new deparsupporters.

In the election of officers Dr. J. E. Raycroft of the University of Chicago was re-elected president and Dr. L. J. Cooke of Minnesota chosen secretary-treasurer.

As one of the newest innovations of the game it was definitely decided to adopt a numbering system, similar to that in use in track athletics. Doctor Cooke was appointed a committee of one to draft a feasible scheme, whereby each athlete will be numbered and more easily distinguishable to specta-

tors, players and officials alike. Thus far only tentative schedules have been arranged by the various members of the "Big Eight" circle, but practically all the dates have been filled and final confirmation will not be far in the future.

Racing Clings to Life.

That horse racing in the metropolitan district is not yet dead, despite the strict enforcement of the anti-betting law, and that there will be contests between the thoroughbreds over the beautiful course at Sheepshead bay for at least three seasons to come, is indicated by the Coney Island Jockey club's call for nominations for the Futurity of 1913.

The Futurity-the blue ribbon event of the American turf-is for two-yearolds and at 80 feet short of six furlongs. The estimated value of the stake for 1913 is given at \$30,000. This amount is made up mostly from the subscriptions of nominators of horses for the event. The Coney Island Jockey club adds \$5,000 to the subscription.

McGraw Gets Big Salary.

McGraw's intimate friends say that his stipend under his new contract with New York will amount to \$18,000 per annum-partly as recognition of too-confident promoter.

Western Intercollegiate Committee May Become One of Minor Sports at University of Chicago-Objections in Way.

Hockey may become one of the minor sports at the University of Chlern basket-ball rules, were accepted cage. Interest has been aroused among a group of men who see the opportunity of the Midway for an excellent team.

Several objections have stood in the way of the success of the new sport. previous regulations devised by west- In the first place, the weather has been uncertain in the winter and skaters have never been assured a date or the time to practice, and there have never been many men before this year who have taken an interest in

"If there are a number of men who ing a game, and no warning shall be desire the sport," Coach Stagg said. given when the limit is reached-four "we could have a team. While this is true, Minnesota's team in the Chicago bouts. extracting Fletcher's plans from that the fighter's chance to escape injury is Drake, Ames and Morningside colfar brighter.

KEELER IS MAN OF SCIENCE

Player, Who for Years Was Popular in New York, Will Be with Toronto During Coming Year.

"Billy" Keeler is ticketed to play the outfield for Joe Kelley's Toronto

team next year. "Willie," the pride of Gotham, and considered by all critics to be one of the most scientific hitters baseball has ever produced, will attempt to add a few more links to his lengthy chain of

years in the national game. In company with Keeler at Toronto will be "Bill" Bradley, formerly with Cleveland, and "Tim" Jordan of the Brooklyn club.

The mere mention of Keeler's name always is sufficient to bring out some dope in regard to his hitting prowess. He is one of the four players in the history of baseball who batted in excess of 300 for 14 or more years. Pop Anson set the record in this respect with 15 years in the select circle. Dan Brouthers and Hans Wagner just equaled Keeler's record.

Glancing over the pages of history one can find only two men who had a higher batting average for his active terms in baseball than Keeler. Jesse Burkett heads the list with a grand average of .374 9-10 for ten years. Ed Delahanty, considered the mightlest slugger of them all, ranked second with a grand average of .387. Then came "Little Willie" with .369 5-7.

Only ten men, since the first base-

Willie Keeler. ball game was played ages ago, have for ten consecutive years. These men and the number of consecutive years they remained in the select circle are: Pop Anson, 15; Dan Brouthers, 14; Willie Keeler, 14; Hans Wagner, 14; Ed Delahanty, 12; "Billy" Hamilton, 1; Nap Lajole, 11; Joe Kelley, 11; Hugh Duffy, 10, and Jesse Burkett, 10.

BOXING CONGRESS IN FRANCE

French National Federation Plans an International Affair in Paris March 10 to 15.

The first international boxing congress ever held will take place at Paris, beginning March 10, and ending March 15. The French National Federation of Boxing Clubs will conduct the event, and M. Capdeville, the manager of the congress, has just sent out invitations to the boxing club managers of America, France, England and other countries to attend the affair.

The congress will be held for the purcose of discussing many important questions and making several muchneeded international agreements.

Chief among them is one whereby it is proposed to standardize the weights in each class, so that a boxer will be a bantamweight or a heavyweight, as the case may be, in all countries. This matter is at present the cause of a great deal of confusion.

The program also calls for the forming of an international set of rules for the conduct of professional, as well as amateur boxing, and for the creation of an international boxing

union. Other topics to be discussed are French boxing, English boxing, rules for regulation of boxing in France, the making of professional boxing matches, boxing from a medical standpoint, the history of the sport, refereeing and bexing as an educational sport.

Looking Up Runners.

Thure Johansen, the Swedish "pro" Marathoner, returned to this country recently, where he intends to take part in a number of races. "Ernie Hiertberg, a well-known American trainer, who is in charge of the Swedish athletes in their preparation for the 1912 Olympic games, is a big hit over there," said Johansen. "He travels the entire country, looking the athletes over. Three days in one town is about his limit, but in that time he has been able to get a line on some promising runners."

Gophers Try Wrestling. Visits to St. Pani and Minneapolis by Hackenschmidt and Gotch not only

have stirred the local mat show promoters, but have resulted in stimulating interest in wrestling at the University of Minnesota. Prof. Simpson, ulations for boxing. Why shouldn't the coach, has a squad of 35 Gophers these rules be tried out in Chicago? in the gym nearly every afternoon Philadelphia's coroner says a fight- wrestling in the preliminary pracleges have big squads, it is reported,

ARE YOUR KIDNEYS WELL?

The kidney secretions tell if disease is lurking in the system. Too frequent or scanty urination, discolored urine, lack of control at night tell of

Corp., Boston, for free 32-page book on the care and treatment of skin and scalp troubles.

Children's Food.

Certain little suggestions are always to be followed when planning the diet of the little ones. To keep healthy little stomachs in the nursery never serve hot stewed fruit to the children Plenty of stewed fruit and baked ap ples they should eat, but they must invariably be cooked the day before Examine carefully every bottle of and dished up cold. The nursery po- CASTORIA, a safe and sure remedy for tatoes should always be baked or infants and children, and see that it boiled in their jackets. Stewed and Bears the fried potatoes or potatoes bolled without their skins supply starch, with a loss of all the wholesome potash salts In Use For Over 30 Years. that the skin gives out during the process of cooking into the white part of the vegetable.

Needed Assistance.

A poor old cast-down hobo started to knock the paint off of a back door the other morning, and when he tear fully told the lady who appeared that he had a sick wife at home and a fozen hungry kids, she gave him couple of home-made biscuits. Daintly the hobo handled them, and once

more he glanced up wistfully. "What's the matter," indignantly demanded the housewife, "aren't you satisfied with the biscuits?"

"Yes, dear lady," replied the trampful one, "but I thought perhaps you would be so kind as to loan me a nutcracker for a few minutes."

A Deadly Error.

Dr. W. B. Cannon of Harvard, discussing anti-vivisection literature at a dinner in New York, said with a smile:

"This literature, in part at least, is as flagrantly erroneous as the medical department conducted by a young college girl in a weekly paper. A sample reply in this department ran:

"Bereaved.-The reply given last week was a mistake. It should have been ten drops of laudanum, not teacups of laudanum. Yes, we advocate cremation rather than the old-fashloned burial."

The Inevitable.

"You don't resent that successful candidate's proud and haughty manner?"

"None," rejoined Farmer Corntossel The fact that he's in politics is all the guarantee I want that sooner or later he'll meet with some kind of a terrible finish."

Doesn't Seem Natural. "Here's a new kind of magazine

story."

"In what way?" "A village storekeeper is introduced who doesn't say, 'Dog my cats!"
