

Hood's Sarsaparilla

Eradicates scrofula and all other humors, cures all their effects, makes the blood rich and abundant, strengthens all the vital organs. Take it.

Get it today in usual liquid form or chocolate tablets called Sarsatabs.

Use the old reliable

Hale's Honey

Of Horehound and Tar For Coughs and Colds

KIDNEY TROUBLE Is a deceptive disease—thousands have it and don't know it. If you want good results you can make no mistake by using Dr. Kilmor's Sarsaparilla, the great kidney remedy. At drugists in fifty-cent and dollar sizes. Sample bottle by mail free, also pamphlet telling you how to find out if you have kidney trouble. Address, Dr. Kilmor & Co., Binghamton, N. Y.

ADVICE TO THE AGED Age brings infirmities, such as sluggish bowels, weak kidneys and torpid liver.

Tutt's Pills have a specific effect on these organs, stimulating the bowels, giving natural action, and imparting vigor to the whole system.

COULDN'T BE VERY WELL.

Mrs. Stockton Bonds—Stockton, that stenographer of yours is whistling! Is she in the habit of whistling when alone?

Stockton Bonds—I don't know. I was never with her when she was alone!

Different Now, of Course. Civil service reform has given us a splendid army of civil servants. It wasn't always so.

The speaker, Mayor Whitlock of Toledo smiled.

"When I was writing my first short stories, I remembered, 'we had civil servants of a different stamp. An elderly resident of my native Urbana sought out back in those days, his congressman."

"Congressman," he said, "I supported you at the polls, and now I expect you to get my boy a good civil service job."

"All right, friend," the congressman answered, "what can your boy do?"

"Do?" snorted the other. "What can he do? By eternal, man, if he could do anything, do you think I'd be bothering you?"

Motherly Advice. Margery was playing school with her dolls. The class in physiology was reciting.

"Now, children," she said, "what are your hands for?"

"To keep clean," was the prompt reply.

"Yes," repeated the little teacher, "hands were given us so we could keep them clean, and 'member, too," she added, "we must keep our feet clean, 'cause there might be an accident."—Metropolitan Magazine.

Of Course. "I see that the inmates of a New York lunatic asylum are going to issue a weekly paper."

"Yes, and I'll bet every fool outside will think he could edit it better than it is edited by the lunatic inmates."

CHEATED FOR YEARS. prejudice Will Cheat Us Often if We Let It.

You will be astonished to find how largely you are influenced in every way by unreasoning prejudice. In many cases you will also find that the prejudice has swindled you, or rather, made you swindle yourself. A case in illustration:

"I have been a constant user of Grape-Nuts for nearly three years," says a correspondent, "and I am happy to say that I am well pleased with the result of the experiment, for such it has been.

"Seeing your advertisement in almost all of the periodicals, for a long time I looked upon it as a hoax. But after years of suffering with gaseous and bitter eructations from my stomach, together with more or less loss of appetite and flesh, I concluded to try Grape-Nuts food for a little time and note the result.

"I found it delicious, and it was not long till I began to experience the beneficial effects. My stomach resumed its normal state, the eructations and bitterness ceased and I have gained all my lost weight back.

"I am so well satisfied with the result that so long as I may live and retain my reason Grape-Nuts shall constitute quite a portion of my daily food."

LIVE STATE CAPITAL NEWS

Notes That Are of Interest to Pennsylvanians.

Brief Mention of Matters as They Occur at Harrisburg, Official and Otherwise.

Harrisburg Correspondence.

"Eve" Gets Bath in Public.

"Eve at her bath" was the main attraction on Capitol Hill Thursday morning.

Not that the chief product of George Barnard's chisel and mallet came to life and pranced about in the fountain or took a dip in the icy Susquehanna, but on the contrary when the lady whose nudity has caused widespread discussion was removed from her case she was found to be fully dressed, not in the latest Parisian cut or up-to-date American gown, but in a mantle of nature's own making, ice.

To the consternation of several hundred spectators who had gathered in anticipation of a first visit to the work of art, the workmen held an informal conference, hurried into the Capitol basement and returned with buckets of boiling hot water and good strong brooms. Bucket after bucket was poured on the "lady," but it required in addition, the forceful blinks of the men who exercise with cakes of marble to finally remove the coating that had been inadvertently applied since Eve's arrival on the Capitol Hill lawn.

News of the unveiling spread rapidly, but the curious were doomed to disappointment, for as soon as Eve's cold clothing was removed, she was securely wrapped in heavy canvas.

Await Tender Appointments.

Governor Tener will make appointments of members of his staff this week. While there are many names mentioned, it is declared at the Capitol that no one has been named either to go or to stay or to be added to the list.

It is believed a railroad commissioner will be named soon to succeed John Y. Boyd. Judge James W. Shull, of Perry County, and William Harrison Allen, of Warren, are considered to be close in the running and one of them will likely be named.

Executive Controller Todd was officially sworn in Thursday and he and Assistant Controller McDevitt began work. They will have their offices on the second floor of the Capitol.

Bell Talks Office.

Secretary of the Commonwealth Robert McAfee and Attorney General John C. Bell took the oath of office Thursday. Both were sworn in in the office of the Secretary, the oath being administered by John Kendle, head of the Department.

Mr. Bell stated that he had asked Deputy Attorney General J. E. B. Cunningham and W. M. Hargest to remain. It is understood that Mr. Cunningham will stay for the present and that no changes will be made in the department for a while. Chief Clerk George D. Thorn, of the State Department, will be retained by Mr. McAfee.

Probe Gambling at Fair.

Auditor-General A. E. Sisson held a five-hour hearing on the protest against paying any of the State appropriation for county fairs to the fair held at West Chester. He heard both sides discuss the presence of a "wheel" at the fair, but did not make any decision and intimated that he might talk it over with the Attorney-General.

Dr. Martin L. Ross, of near West Chester, made the complaint about the wheel and officers of the association claimed that it had been driven off the grounds. A number of letters were also read protesting against any gambling devices at the fair grounds and the controversy waxed warm.

One Legal Holiday Less.

Senator Tustin, of Philadelphia, introduced a bill in the Senate reducing the number of holidays in the short month of February from three to two.

The amendments to the Constitution adopted last Spring abolished the Spring elections in February, but did not affect the act of Assembly which provides that the third Tuesday in February shall be a legal holiday. Unless this act of Assembly is speedily passed, this day will remain a legal holiday and interfere with the banking interests of the State.

Series Elect Officers.

The Pennsylvania Legislative Correspondents' Association elected Walter J. Christy, "Pittsburg Gazette-Times," as president; Charles R. Michael, "Philadelphia Times," vice-president; A. Boyd Hamilton, "Harrisburg Telegraph," secretary, and Chas. B. Stevens, "Scranton Times," treasurer. There are thirty-two reporters engaged in Legislative work this year.

Plays Hangman; Dies On Rope.

Chicago (Special).—Albert Deercant, 16 years old, was killed while playing hangman with his younger brothers in a barn. Albert was standing on a barrel that was open at the top and had around his neck the nose of a rope which was attached to a rafter. The barrel tipped and the boy dropped. He died before his brothers could rescue him.

BENEFICENT WORK FOR CRIPPLED CHILDREN

EDUCATION IN THE OPEN AIR

THE photograph reproduced above shows one phase of the work that is being conducted under the auspices of the Crippled Children's Driving Society of New York. During the summer the members of the organization—these being for the most part society women—visit hospital and institutions for crippled little ones and take the latter driving. About 18 months ago it was suggested that the ministrations of the society be extended into the winter. The interest was enlisted of Mrs. Parsons, whose work in connection with public school farm plots is well known to the public, with the result that a portion of De Witt Clinton park was made ready for the reception of the unfortunate children. A board floor, a capacious wind-break, a supply of camp chairs and tables constituted the chief features of these preparations, the idea of Mrs. Parsons being that freedom from uncomfortable draughts, unobstructed sunshine and a sight of moving clouds were valuable factors in the curative and educational influences of the enterprise. There are 24 children on the winter roll of the society, ranging from four to fourteen years of age. These are fitted out with garments that enable them to "keep the field" in all weathers. The boys retain their shirts, trousers, shoes and stockings; the girls take off their dresses. Then they are helped into a sleeping bag, the lower end of which is thickly stuffed with hay. Outside the bag are two blankets, so arranged that they can be buckled around the body up to the neck. The exterior of the bag is next drawn up and buttoned around the neck. Then a heavy lamb-swool lined coat with a fur collar and wristlets of the same material is donned, and together with a knitted cap that can be drawn down over the ears, enables the youngster to defy the coldest weather. So clad, the children eat, sleep and attend school in the open air all the winter. In the photograph the lady to the left is Mrs. Parsons.

ASPHALT IS IN FAVOR

London Engineer Recommends It for Macadam Roads.

Points Out Its Advantages Over Coal-Tar Spraying and Resists Weather—Is More Durable and Economical.

London.—Cecil Nathan, an engineer who gives especial attention to road making, expresses the belief that Cuban asphalt is destined to take the place of tar as a binder of macadam roads. He defines the "essential desiderata" of a satisfactory road as "smooth appearance and even surface following the camber of the road, which must be sanitary, dustless, noiseless and nonslippery." Mr. Nathan also stipulates that the ideal road must not only have these qualities, but be reasonable in initial cost and above all in maintenance.

Many of the present generation will remember the phrase, "Electricity is only in its infancy," says Mr. Nathan. "Well, today the road board is in its infancy, and I have no doubt that it will grow into as fine and healthy a child as electricity did. Like other infants, the road board is just beginning to speak, and the first word that it has been taught, is 'tar.' Now I hope it will very soon grow up and learn words of two syllables, such as 'asphalt,' and then be able to expound to road engineers the real meaning of this much misunderstood word.

"This is the tar age, and as an indirect palliative, tar is serving its purpose today as a temporary expedient; but something much more permanent than the primitive methods of tar spraying or even tar macadam is required for the future, and I maintain that permanency will be obtained only from the adoption as waterproof road crust binders of either Lake Trinidad asphalt or Cuban asphalt, but preferably Cuban asphalt, owing to its having a higher melting point and its ability to withstand the rotting effects of water.

"Although this country may congratulate itself on being ahead of the continent in the matter of roads, it still has a good deal to learn from America, where asphaltum base oils are used on a very large scale with good results as a palliative for spraying on roads in preference to crude or refined tar, such as is in general use here.

"Furthermore, in America asphaltums are now nearly always employed as binders in constructing macadam roads, and naturally this has thoroughly demonstrated and proved that asphaltums are far more economical for this purpose. Such roads, even on steep gradients, provide a surface

Free Lunch for Hoboes.

East Liverpool, Ohio.—A lunch room for hoboes who happen to be caught in the city over night may be installed by Mayor Samuel Crawford in the city hall.

Whistler Picture Brings \$200.

London.—A Whistler picture, "Le Villain," was sold at Christie's rooms for \$200 and Landseer's "Why Does a Donkey Like Thistles?" for \$275.

Society Takes Up Rouge.

Paris.—A year ago fashionable society women were blanching their faces. It was considered the worst possible form to make up like an actress. Today facial makeup has become the rage and every society woman makes a liberal use of the rouge pot, a black pencil and face cream.

Ban on Ground Game Lifted.

London.—Rabbits and hares need no longer be skinned from dinner menus as suspected plague-carriers.

Dr. G. D. McCleary, medical officer of health of Hampstead, replying to a question at a meeting of the National Health society at Barnes street, W., whether it was safe to eat rabbits or hares, said danger, in his opinion, no longer existed.

He thought the cooking would destroy the bacillus, and that people need not be in the least afraid.

RODENTS HOARD MUCH GOLD

Office Boy of Chicago Jewelry House Solves Mystery of Disappearance of Valuables.

Chicago.—A piece of gold chain three inches long sticking out of a hole in the floor solved a big mystery in a downtown wholesale jewelry house. The manager for the company had been missing watches for three months. He suspected that some employe was taking them, but there was no clue. More watches disappeared, the manager's worries increased. He called his chief aids one by one into his private office and whispered to them that he would give \$100 to the person who discovered the culprit. A month passed. The thief was not arrested. More watches and other jewelry were missing. Two detectives were hired and ostensibly put to work among the help. The officers watched every move of every person in the place, but they got no hint of the identity of the robber. Watches, lockets, rings and gems kept going.

The manager called his whole force together and told his troubles in a five-minute speech, winding up by urging everybody to extra vigilance and advising the culprit to fold his tent and silently steal away. Nothing doing. Jewelry went out of sight with increasing speed.

Finally an office boy sighted the chain and the hole in the floor. He pulled on the chain and the watch popped up through the hole. A great light broke in on the whole force when he reported his find. A carpenter was called in and the floor was ripped up. From the recesses were recovered 17 watches, seven lockets, 14 bracelets, 19 stickpins, 27 rings, four hatpins and 13 boxes of wire. Further search revealed a hole in the bottom of a case in which timepieces and other jewelry were kept. Rats had been at work for months carrying off the stock of the concern. The hole in the floor was not large enough to let a watch through flat, but the rodents had head enough to work them round sideways and thus accomplish their purpose.

What they proposed to do with the gems nobody had an idea. There were only occasional marks of teeth on any of the stolen stuff, and they were made in dragging it away. Only a student of animal life can say why a rat, with a fine appetite for all varieties of cheese, should waste his time lugging away gold, silver and iron.

Teach Fathers to Attend Babies.

Boston.—A new and novel plan has been set on foot by the Boston association for the Care of the Baby and its Food. The father as well as the mother is to be given careful instruction as to what is for the best interests in the upbringing of the child.

GIVES ATHLETICS BIG BOOM

Gen. Wingate Reports 50 Per Cent. Improvement in United States Public Schools.

New York.—That the introduction of systematic athletics in the public schools in the United States has resulted in a 50 per cent. improvement not only in physique, but in ethics, discipline and mental alertness is the assertion of Gen. George W. Wingate, president of the New York Public Schools Athletic league, in his annual report just given to the public. He says in part:

"The day of experiments in this matter of athletics has now long passed. It has now become established upon such a firm foundation in both the schools and the public estimation that the future is assured.

"With every year the standard of athletic ability in our public schools becomes higher and records which were considered wonderful when made are surpassed. Accompanying

this is a marked improvement in carriage of the person, alertness of mind and body and the general air of strength and health resulting from the athletic exercises which the children have pursued. Gratifying as this is from the physical side, the improvement on the side of ethics, school discipline and esprit du corps is even greater.

"The New York Public School Athletic league, formed in 1903, is now the largest athletic organization in the world. Its success has caused the formation of similar leagues in sixteen of the great cities of the country and more are constantly adopting its methods. One hundred thousand school children took active part in the league's competitions in the last year. For example, 32,750 children participated in jumping contests, while 14,500 boys competed in 'chinning' and 8,000 in class running. Thirty thousand were entered in the various field-day games, at which 3,700 medals and 150 banners were awarded."

Woman's Danger Periods Made Safe

By Lydia E. Pinkham's Vegetable Compound

The Change of Life is the most critical period of a woman's existence, and neglect of health at this time invites disease.

Women everywhere should remember that there is no other remedy known to medicine that will so successfully carry women through this trying period as Lydia E. Pinkham's Vegetable Compound, made from native roots and herbs. Here is proof:

Natick, Mass.—"I cannot express what I went through during the Change of Life before I tried Lydia E. Pinkham's Vegetable Compound. I was in such a nervous condition I could not keep still. My limbs were cold, I had creepy sensations and could not sleep nights. I was finally told by two physicians that I had a tumor.

"I read one day of the wonderful cures made by Lydia E. Pinkham's Vegetable Compound and decided to try it, and it has made me a well woman. My neighbors and friends declare it has worked a miracle for me. Lydia E. Pinkham's Vegetable Compound is worth its weight in gold for women during this period of life. If it will help others who may publish this letter."—Mrs. Nathan B. Groaton, 51 No. Main St., Natick, Mass.

ANOTHER SIMILAR CASE.

Cornwallville, N. Y.—"I have been taking Lydia E. Pinkham's Vegetable Compound for some time for Change of Life, nervousness, and a fibroid growth.

"Two doctors advised me to go to the hospital, but one day while I was away visiting, I met a woman who told me to take Lydia E. Pinkham's Vegetable Compound. I did so and I know it helped me wonderfully. I am very thankful that I was told to try Lydia E. Pinkham's Vegetable Compound."—Mrs. Wm. Boughton, Cornwallville, N. Y., Greene Co.

The makers of Lydia E. Pinkham's Vegetable Compound have thousands of such letters as those above—they tell the truth, else they could not have been obtained for love or money. This medicine is no stranger—it has stood the test for years.

For 50 years Lydia E. Pinkham's Vegetable Compound has been the standard remedy for female ills. No sick woman does justice to herself who will not try this famous medicine. Made exclusively from roots and herbs, and has thousands of cures to its credit.

Mrs. Pinkham invites all sick women to write her for advice. She has guided thousands to health free of charge. Address Mrs. Pinkham, Lynn, Mass.

MEALING WITH HIS DRINK.

Young at the Business. General Howard was a third guest at a dinner given by a boy patriotic club. "You eat very well, my boy," said the general to a young trencherman. "If you love your flag as well as your dinner you'll make a good patriot."

"Yes, sir," said the boy. "But I've been practicing eating twelve years and I ain't owned a gun but six months."—Success Magazine.

A Sample Quip.

"Thomas W. Lawson's Thanksgiving proclamation was a very good piece of oratorical writing," said a Boston banker. "Lawson is always full of quips."

"Not long ago I attended the funeral of a millionaire financier—one of those real 'high financiers' whose low methods Lawson loves to turn the light on.

"I arrived at the funeral a little late. I took a seat beside Lawson and whispered:

"How far has the service gone?"

"Lawson, nodding towards the clergyman in the pulpit, whispered back:

"Just opened for the defense."

For HEADACHE—BICK'S CAPSICIN.

Whether from Colds, Heat, Stomach or Nervous Troubles, a capsule will relieve you. It's highly pleasant, takes no time to operate. Try it. 10c, 25c, and 50 cents at drug stores.

Hiding a tallow dip under a bushel

does not make it an are light.

Don't part with your illusions When they are gone you may still list, but you have ceased to live—Mark Twain.

These candy tablets do just as much as salts or calomel. But Cascarets never clog the bowels. They never create a continuous need, as harsh cathartics do. Take one just as soon as the trouble appears, and in an hour its over.

Each packet box, 10 cents—at drug stores. Each tablet of the genuine is marked C.C.C.

Two Cruises to the WEST INDIES

Two delightful cruises leaving New York February 25 and March 28, 1911
