**Another Effort for the Lincoln Way.**

Congressman Lafean, of the York-Adams district, introduced into the House a few days ago a bill providing for the construction of the Lincoln Way between Washington and Gettysburg. The bill provides for a road 200 feet wide and its cost is not to exceed \$3,000,000, and to be a national tribute of affection to Abraham Lincoln. The road would have an appropriate architectural entrance in Washington and at Gettysburg and the president is authorized to appoint a commission to have charge of the construction.

Senator Oliver has agreed to introduce the same bill into the Senate.
