LIVE NEWS OF THE

Nazareth.-Robert E. Bachman, of Nazageth, who was under indictment to answer a charge of murder in caus-Ing the death of May Irene Smith, aged five years, on April 28, 1908, has been released from jail on noile pros proceedings made before Judge Scott, at Easton. - Bachman was adjudged insane a few months after the crime and committed to the Norristown insane asylum. He is now discharged from that institution, having completely recovered his normal mental condition. The prisoner furnished bonds in the sum of \$2000 to keep the peace. The dead girl was a niece of Bachman. While at a meeting of a religious sect commonly known as the "holy rollers," at his home Bachman, in a frenzy of religlous fervor, strangled the girl to donth.

Clifton Heights .- At the risk of her own life, Mary Kelly, aged eleven years, of Clifton Heights, saved from terrible injury her two little sisters, Katherine and Elizabeth, aged 7 and 3 years, by throwing them off a sled while they were coasting. The three children were coasting on Campbell's Hill, and going down at terrific speed, Mary lost control of the sled. See Ing that she would crash into a barbed wire fence which crossed a ravine, by great presence of mind Mary threw her two sisters off the sled. but before she could get off the coaster herself she crashed into the barbed wire fence and fell into the deep ravine and was severely injured.

Newcastle. - Two children were cremated, the mother scriously burned and three other children slightly hurt by being dropped from a secondstory window, when fire destroyed the home of Peter Eckland, in South Newcastle. The dead children are Arthur, aged 4, and Margaret, aged 3 months. The children dropped from the window by the mother are Helen, aged 11; Albert, aged 9, and Joseph, aged 7. Mrs. Eckland sustained burns about the body and was Injured when she leaped from the window

Media. - Aston Township, Delaware county, which has had many cases of diphtheria and scarlet fever in the past two years, is without a Board of Health, all the members of that body realgning with one exception, because of a grievance against the State Board for failure to prosecute a man alleged to have broken quarantine in the neighboring township of Aston. Two houses are under quarantine in Aston and Health Officer James L. Killen is continuing with his duties.

Scranton. - John J. Connors, of Minooka, now serving six months in jail on his confession to tampering with election returns in Lackawanna township, took all responsibility for the stuffing of the ballot box in the Sixth ward of Taylor borough in the June primaries last year. On his teslimeny Robert Gilgalion, M. J. Glynn, James Gilgallon and James Malarkey demanded acquittal. This they se-

Altoona.-Very little interest was taken upon the part of the citizens of Juniata, a suburb, in the proposition to borrow \$10,000 to extend the borough's water system. Out of a poputation of over 5000 only 144 citizens voted, 99 favoring and 45 op-

Reading .- Lancing a pimple on his thumb proved fatal to William L. Hafer, a well-known Civil War veteran. Blood poisoning set in and he died after intense agony. Deceased was about 63 years of age, and served through the Civil War, escaping without a scratch.

Easton,-Mrs. F. A. March, Sr. wife of the eminent philologist of Lafayette College, who some time ago fell and fractured his hip, was strickan with apoplexy, and is in a critical condition. Worry over her husband's injury is said by the physicians to have brought on the attack.

Chester.-During the hearing given Lee Johnsens before Justice Gallowny at Prospect Park, on the sharge of attacking his 9-year-old step-daughter, there was much anger shown by the spectators. Fearing that the man would be attacked, Phompson and Stinson, two constables, hurried Johnsens to the county tail at Media. Justice Gailoway committed Johnsens in default of \$1000

York. - Edwin, W. Laucks, for many years considered one of York's most conservative business men, conceyed to George E. Neff, this city, as trustee, all of his real estate in Blair and York counties, this State, and in Harford and Baltlmore countles; Md. The liabilities of Mr. Laucks are placed at \$200,000; and his real estate is estimated to be worth \$143;-

Catasauque.- Earl Zeerfass, aged 7, and William, his brother, aged 10, while coasting ran against a Lehigh Valley transit car. William was thrown under and cut about the head. Earl got under the rear truck and was instantly killed.

Oil City-Two chicken thieves attempted to kill W. B. Lyon, a Cranberry township farmer, when he interrupted them at work in his henhouse. Both the robbers opened fire with revolvers, but none of the shots

took effect. York .- Milton Myers, 66 years old, and living near Yorkana, was found dead near his buggy in the barn vard. He had just returned from purchasing food for his cattle.

It is estimated that English interests now have \$50,000,000 worth of contracts for constructing railroads in Chill and Bolivia.

Ferrets were added to the list of s obthited imports by proclamation e' the governor general of Australia on October 27, 1910.

ACCIDENTS OF VETERAN CAR PILOT

Lewis Strang

Lewis Strang was recently asked if | until it hung across the track. It he ever had any narrow escapes and caught me in the throat and I was amilingly answered, "No." But when thrown from the seat of my machine. asked why he replied in that way said pellation of "narrow escapes."

"The first accident I remember," said Strang, "was in 1904, when I hit ing about eighty-five miles an hour, an elevated post on Third avenue in ran full tilt into a telegraph pole, New York. I wrecked the car, but breaking the pole and splintering the escaped without injury. Two years lat- machine, but I was only cut in the er at Elkwood Park, in a midsummer calf of the leg and my front teeth dammeet, I went through the fence on the aged. inside of the track. I wrecked the car in this accident, but again escaped without injury.

"I went through the fence at the Parkway turn in the 1966 Brighton of cuts from spilntered spars, I escap-Beach twenty-four hour race. This ed injury. GOPHERS WILL LOSE WALKER

Minnesota Tackle Announces He Will Leave Minnesota and Enter Some Eastern College,

Jim Walker, star tackle of the University of Minnesota football team for the last two years, all western tackle for two years and all-American for 1910, has very probably played his last game of football for the Gophers. Walker, according to the report, will leave Minnesots and enter some big eastern university, likely Yale.

Walker has made an enviable record on the football field with the Gophers. He was the unanimous choice for all-western tackle in both 1909 and 1910, and his ability was further recognized during the season recently closed. Walter Camp picked him for

Jim Walker.

his all-American eleven, the highest 1911, honor in football. Walker's loss to Minnesota would be a severe one and his presence on any line of any eastern university would add great strength to the fortunate team.

Cy Young's First Rubdown. Cy Young had his first rubdown for \$20,000. last season, his twenty-first year in the big lengues. He didn't believe in the new fangled ways, but gave in the night before he was to try for his five hundredth victory in Wash gton

in July. "I thought I would have to give Young more attention than any other player," sald Doc Schmeider, Nap trainer, "and I was surprised when he sald he didn't care for my services. asked him every day for a month before he told me he had never had

a rub. Doc, I want to win my five hundredth victory tomorrow, he said, and I wish you would put me in the best possible shape,' I never worked harder in my life. He won the game, and after it said he never felt better in his life. I'm going to have a rubdown every day before I pitch after this,' he said. He kept me pretty busy from then on."

Mike Donlin is the latest to apply for membership in the Come Backs. Fred Lake will try his hand as a scout for the Boston National league

Grover Land is being touted as the first catcher on the Cleveland Naps this year.

Topsy Hartsel played on the 1902, 1905 and 1910 pennant winners of the Athleties.

Charley Hall, the Boston Americans' pitcher, is playing winter ball out in California.

Tommy Burns is training to see if that injured knee is strong enough for two more bouts.

Politeness will be one of the courses taught along with track athletics at the University of Chicago bereafter. Jeff Pfeffer, the Cub pitcher, who is

wintering at Dorchester, Mass., is keeping in condition by playing golf. George Tebeau will spend \$15,000 rease its seating especity to 14,000.

working his pitchers it rotation in for the use of the department of geol-

"King" Cole says he has discovered a new twist to put on the borsehide. "King" intends retaining that windup maneuver. Foul tips are sometimes expensive.

half a lap on a thirteen lap track in bour, 25 minutes, 41 seconds. \$30,000 could not buy Bender.

IRA DAVENPORT IS HONORED!

James E. Sullivan Picks Marcon Star as Greatest 440-Yard Runner In United States.

An all-American college track team has been selected by James E. Sullivan, secretary and treasurer of the Amateur Athletic Union. Like the all-American football teams, the selection has no official significance and is merely Mr. Sullivan's rating of some of the best college athletes in each of the ordinary track and field activities, ira Davenport of the University of Chicago is placed in a class by himself in the 440-yard run.

Fourteen men are named and it is notable that seven of them are from colleges on the western side of the Alleghenies.

The team chosen is as follows: 110-Yard Run-F. L. Ramsdell, University of Pennsylvania.

220-Yard Run-R. C. Craig, University of Michigan. 440-Yard Run-I. N. Davenport, University of Chicago. 880-Yard Run-G H. Whiteley,

Princeton 120-Yard Hurdle-W. A. Edwards, University of California, 229 Yard Hurdle-C. P. Gardner,

One-Mile Run-A. F. Baker, Oberlin. Two-Mile Run-T. S. Berna, Cornell. Running Broad Jump- J. Wasson, Notre Dame.

Running High Jump-K. W. Burdick, iniversity of Pennsylvania. Pole Vault-L. S. Scott, Leland

Stanford University. Putting 16-Pound Shot-J. Harner, Jr., University of Michigan,

CERTAIN OF LARGE STADIUM

Chicago University Students Exper Two Athletic Buildings as Result of Gift.

Material athletic expansion at the University of Chicago may be one of the early results of John D. Rockefeller's gift of \$10,000,000 to the Maroon institution. Members of the department of physical culture admit that the long-wished-for stadium and a new gymnasium for the women students might follow the oil king's generosity. The matter will be considered by the university board of trustees.

Under the terms of Mr. Rockefeller's donation the university authorities will be allowed to construct build ings for the use of any existing department, while all new departments are to be made possible by other gifts. Although the trustees assert that building expansion is not probable in the near future owing to the university's wish to give the first installments of the \$10,000,000 for endowment purposes, the ultimate erection of the needed buildings is assured. The officials stated that they would reach no decision on the building question until inter.

If the members of the board decide to take advantage of Mr. Rockefeller's permission, the Midway school will have the costliest and most complete department of athletics in the country. The physical culture experts be-Here that the additional buildings are pecessities.

President Harry Pratt Judson names on bis Kansas City ball park to in- the studium and the women's gymnasium as two of the four most needed Manager Hal Chase of the New Scatures of the university's material York Highlanders says he intends growth, the other two being a building ogy and geography and an astronomical observatory on the campus for the use of the students

The location of the prospective stadium has not been fixed. Coach Stagg is modest in expressing his views, but he has stated his wish that it be located on the ground owned by the university on the south side of the Midway Plaisance, between Ellis and Lexington avenues. If the university should remove one flat building from this land a block and a half would be available for the purpose

Football Game Nets \$3,000.

Income from football at lows the past season was something like \$7,000. Expenses were \$4,000, leaving net proceeds about \$3,000 for the season. The income of one year ago was \$12,000, a larger figure due to the fact that the schedule of that year brought more John Svanberg of Sweden in a fifteen- and bigger games to Iowa field.

Wants Maybury for Coach.

At the meeting of the student board Matty McIntire, who will play ball of control at the University of Washfor the White Sox in 1911, once was ington, Manager Zednick, through his refused in trade for Chief Bender of assistant. Herbert Seeler, recommendthe Athletics. Matty was sold to ed the appointment of James H. May-Comiskey for \$2,500, but it is said bury for coach of the varsity track team.

ALCOHOL IS SUBTLE POISON

Its Action at First Fills Person With Serene Self-Complacency, Ending Fatally.

A quart of Madeira wine consists of two pounds and a little over four sonces of water, two ounces of gummy and tartareous matter, a little over two ounces of an oily, resinous substance, and a little over two ounces of alcohol. Take out the alcohol, and the remainder of the Madeira wine is a nauseous mess, which no one would think of drinking. Take the alcohol out of beer, and it is a sour slop, which no sane man would dream of taking into his stomach, says the Toledo Blade. Whisky consists of nearly equal parts of water and impure alcohol, the latter containing fusil oil and some essential oils derived from the grain, which give it flavor. It is the alcohol which produces intoxication, if imbibed in sufficient quantity. There is nothing else in any intoxicant which would commend it to the palate of any man.

Now, the scientific verdict as to alcohol is that it is a poison-no more, no less-and, as a poison, its action is first upon the nerve centers. Its action is generally at first to fill the person with a serene and perfect self-complacency. His feelings and faculties are rendered more intense from the stimulation of the nerves by the polson. With most persons this is shown by increased vivacity, and a tendency to talk much more than is usual.

As intoxication progresses, the senses gradually become hazy, a soft humming seems to fill the pauses in the conversation, a filmy haze obscures the vision, the victim finds it difficult to preserve his equilibrium; next, objects appear double, or flit confused before the eyes; the drunkard becomes boistefous, ridiculous; articulation becomes difficult, and he finally falls to the ground insensible -that is, he is "dead drunk."

From this state, after a period of deep slumber, he awakes exhausted, feverish, sick and giddy, with throbbing head, ringing ears and bloodshot

The poison first affects the lobes of the brain, and the other nerve centers of the cerebro-spinal system are successfully brought under the influence of the poison, until, in the state commonly known as "dead drunk," the only ones that are not paralyzed are those known as the automatic centers, which regulate and keep up breathing and the circulation. Enough alcohol can be taken, however, to paralyze these, in which case the deep sleep of drunkenness becomes a stupor which passes into death.

There is a parallel between apoplexy and intoxication. To be drunk is simply apoplectic. Such is the action of alcohol upon the nervous system, and its action upon other parts of the body is no less injurious.

When an alcoholic drink is taken into the stomach, the alcohol is rapidly absorbed through the coats of that organ, passes directly into the circulation, and is carried with the blood to every part of the system

That which goes to the brain produces successively the symptoms enumerated above; that carried to the lungs begins to be expelled with the expired breath of these organs. Experiments have been tried in which wine was administered in capsules, so that not one particle touched the interior of the mouth or throat; yet in two or three minutes the odor of alcohol was noted on the breath showing that in that short time it had been absorbed, passed into the blood and was being expelled by the lungs.

The blood leaded with alcohol, in passing through the liver, sets up an irritation which frequently causes an incurable disease to that very important organ-cirrhosis of the liver, better known as "hobnail liver." The kidneys are stimulated and irritated and long indulgence in the drinking babit leads to incurable diseases in them. The skin is also affected, and does its part in expelling the alcoholfrom the system. In point of fact all the excretory organs set at work as soon as the alcohol gots into the system. In the endeavor to rid the body of the poison. The liver, kidneys, lungs and skin are all over-stimulated in this effort.

We hope we may have made it clear in this brief statement of the action of alcohol that it is absolutely and entirely a poison. It is in no sense a food. It injures the brain, the nerves, over-excites the heart, irritates the stomach, liver and kidneys; never does any good, but always harm

There is a vast amount of ignorance among the people as to the real nature of alcohol. It is the fewer number of our people, even at this date, who are coavineed that sicohol is a poison; and this ignorance of the masses is one of the bulwarks of the traffic. We need more education, especially in the family, in the church and in the common schools, as to the real nature and effect of this potent poison. When the masses of the people understand its true nature, a tremendous impulse will be given to the effort to pulverize the rum power

A Coroner's Comment on "Drink" Evidence. In summing up a case, quite recent

ly, where the jury afterwards found a verdict of "death from suicide after excessive drinking," the coroner said: "Some people don't like to mention in

a verdict that death was due to excesgive drinking. Although I am not a toetotaler myself, I think it advisable that people should see the folly of drinking. If you hush up the facts there is no lesson from them." We would commend this utterance to the attention of coroners, and to all those among whom there seems to be a conspiracy of stience and a determination to keep the tragic facts from the pub-

Consider how insignificant this will appear in 12 months' time. Apply this rule to little vexations,-Johnson

TAKE A DOSE OF DISO THE BEST MEDICINE OF COUCHS & COLDS W. N. U., BALTIMORE, NO. 7-1911.

WELCOME WORDS TO WOMEN

Women who suffer with disorders peculiar to their sex should write to Dr. Pierce and receive free the advice of a physician of over 40 years' experience -a skilled and successful specialist in the diseases of women. Every letter of this sort has the most careful consideration and is regarded as sacredly confidential. Many sensitively modest women write fully to Dr. Pierce what they would shrink from telling to their local physician. The local physician is pretty sure to say that he cannot do anything without "an examination." Dr. Pierce holds that ese distasteful examinations are generally need-

and that no woman, except in rare cases, should submit to them. Dr. Pierce's treatment will cure you right in the privacy of your own home. His "Favorite Prescription" has cured hundreds of thousands, some of them the worst of cases.

It is the only medicine of its kind that is the product of a regularly graduated physician. The only one good enough that its makers dure to print its every ingredient on its outside wrapper. There's no secrecy. It will bear examination. No alcohol and no habit-forming drugs are found in it. Some unscription. ulous medicine dealers may offer you a substitute. Don't take it. Don't trifle with your health. Write to World's Dispensory Medical Association, Dr. R. V. Pierce, President, Buffalo, N. V., -take the advice received and be well-

and satisfaction. Made in a v of fast color patterns of strong, w resisting materials and backed by our Guarantee. Your dealer can supply you; if not send us his name, your collar size with price in stamps for sample shirt and book of new patterns. The President Shirt Co. 110 W. Fayette Street Baltimore, Md.
