

# THAT AWFUL BACKACHE

Cured by Lydia E. Pinkham's Vegetable Compound

Morton's Gap, Kentucky.—"I suffered two years with female disorders, my health was very bad and I had a continual backache which was simply awful. I could not stand on my feet long enough to cook a meal's victuals without my back nearly killing me, and I would have such dragging sensations I could hardly bear it. I had soreness in each side, could not stand tight clothing, and was irregular. I was completely run down. On advice I took Lydia E. Pinkham's Vegetable Compound and Liver Pills and after enjoying good health, it is now more than two years and I have not had an ache or pain since. I do all my own work, washing and everything, and never have the backache any more. I think your medicine is grand and I advise it to all my neighbors. If you can publish my testimony it will help others. I can publish it.—Mrs. OLLIE GODDARD, Morton's Gap, Kentucky.

Backache is a symptom of organic weakness or derangement. If you have backache don't neglect it. To get permanent relief you must reach the root of the trouble. Nothing we know of will do this so surely as Lydia E. Pinkham's Compound.

Write to Mrs. Pinkham, at Lynn, Mass., for special advice. Our letter will be absolutely confidential, and the advice free.

## ASTONISHED THE "OLD MAN"

His 'rah-rah' Son by No Means the "Dude" He Had Hitherto Seemed to Be.

The new governor of a western state has two sons. One is big and husky like his father, but the other is more slight; and at times he rather vexes his father by his affectation of "rah-rah-boy" clothes and a general air of lassitude and duldness. The two sons and the father were in the library one night and the name of a prizefight referee came into the conversation. The "rah-rah" boy had been sitting by, twiddling his thumbs, but his ears pricked up at the man's name and he drawled: "I rather like that chap. He's all right."

"What do you know about him?" the other brother asked, rather contemptuously. "Oh, he gave me a shade the best of it one night."

"Gave you the best of it?" both father and brother shouted. "Yes; you see I fight under the name of Young Ryan and he counted pretty slow one time when I was down."—Saturday Evening Post.

## CHILDREN AFFECTED

By Mother's Food and Drink.

Many babies have been launched into life with constitutions weakened by disease taken in with their mother's milk. Mothers cannot be too careful as to the food they use while nursing their babies.

The experience of a Kansas City mother is a case in point: "I was a great coffee drinker from a child, and thought I could not do without it. But I found at last it was doing me harm. For years I had been troubled with dizziness, spots before my eyes and pain in my heart, to which was added, two years later, a terrible sour stomach.

The baby was born 7 months ago, and almost from the beginning, it, too, suffered from sour stomach. She was taking it from me!

"My distress I consulted a friend whose experience and she told me to drink good coffee, that coffee did not make good milk. I have since ascertained that it really dries up the milk. I quit coffee and tried tea and hazel cocoa. But they did not agree with me. Then I turned to Postum with the happiest results. It proved to be the very thing I needed. It not only agreed perfectly with baby and myself, but it increased the flow of my milk.

"My husband then quit coffee and Postum and quickly got well of his dyspepsia with which he had been afflicted. I no longer suffer from the dizziness, blind spells, pain in my chest or sour stomach.

"Now we all drink Postum from my second to my seven months' old baby. It has proved to be the best thing we have ever used. We do not give up Postum for the best we ever drank." Name given by Boston Co., Battle Creek, Mich. "The Little Book, 'The Road to Health' is in plain, readable English, and explains the reason for the above letter. A new copy from time to time. They are true, and full of human interest.

## NEW INVENTION OF CURTISS, THE AVIATOR

THE HYDRO-AEROPLANE

GLEN H. CURTISS' achievements with his hydro-aeroplane at San Diego Bay, Cal., have caused a marked sensation in military and aviatorial circles. For the first time in the history of modern flight, the aviator rose from the surface of the water on which his machine rested, made wide, circling sweeps, and then alighted on the bay with the grace and ease of a gull. The hydroplane, which is fastened to the bottom of the aeroplane, consists of a steel, airtight, shallow compartment, seven feet wide and four feet long. A similar but smaller hydroplane is placed under the front control of the aeroplane, outriggers being attached to the lower planes of the latter to prevent the whole arrangement from tilting sideways while rushing through the water. The army and the navy had representatives and assistants present at Mr. Curtiss' flights with the new invention.

## SCIENCE IS LACKING

More Care Taken in Stock Raising Than in Infants.

Physician in Address Before Medical Society Asserts That Babies Are Being Neglected—Birth Rate Decreasing.

Chicago.—Speaking before the Chicago Medical society in the public library the other night, Dr. Isaac A. Abt made a plea for more scientific care of infants, saying that "the human baby is better than a calf, but more science is applied to stock raising than to the care of infants."

Dr. Abt's subject was "Recent Advances in Prevention of Infantile Diseases and Death Rate." He spoke principally of the work of the Chicago milk commission, which recently was reorganized under the name of the Infant Welfare society.

"With the birth rate constantly decreasing we must cope with this greatest of all problems, the conservation of our babies. The country is facing a crisis as never before in the matter of child raising," said the doctor. "Recent advances in scientific cattle and hog raising have been much more rapid than in scientific child raising. The situation should be reversed to give the child a square deal. There is a crying need for education in America along these lines and especially urgent is the need for such a reform in the great cities."

That the general health of the city of Chicago had improved materially during the past week and that 40 fewer cases of pneumonia were reported than during the previous week was the information contained in the bulletin sent out by the city health department. But the bulletin stated that the pneumonia death rate had been high since November and would probably continue so until warm weather came again.

"It is hoped that the repeated and persistent warnings and advice of the department on the dirty air diseases, due always to bad indoor air, are beginning to bear fruit," reads the bulletin. "So long as people will continue to poison themselves with bad air, just so long will pneumonia prevail and the pneumonia death rate be high."

"Sleep with the windows open 12 to 18 inches and half door or transom open. An abundance of the lightest and finest bedding is cheaper than doctor and hospital bills. Don't shut your carriage or limousine up so tight. Demand better air in street, elevated and steam cars. Blow out house, office, factory or store several times a day. Flow yourselves out occasionally by deep breathing three to five minutes before an open window or on a rear porch. When all are away from the home, return to an aired, cold house, rather than a hot, stuffy one. Burglar window stops and a little extra coal will reward you with better health."

Rainbow Sheep or Goat? New York.—One 'Tupperworth' of San Antonio, Tex., has a seven-colored sheep he wants to sell to the city. He has written to Mayor Gaynor saying that he got the sheep in Mexico and its fleece is actually of seven distinct hues.

He has sheared the sheep twice and has the colored wool to prove his story is true.

## BUY FLAXSEED IN ARGENTINA

Minneapolis Mills in Unprecedented Deal for \$1,100,000 Worth—Oil Industry Grows.

Minneapolis, Minn.—The linseed oil mills of Minneapolis have bought in the Buenos Ayres market for shipment to Minneapolis 400,000 bushels of flaxseed, of an approximate value of \$1,100,000, making a transaction without precedent or parallel in the commercial history of the United States.

Located in the center of the greatest flax-producing portion of this country, with the greatest flax-raising state at its doors, the Minneapolis oil industry will bring raw material 15,000 miles to its mills. The seed was bought on future contracts that mature in January and February. In so far as the mills are able to get seed in the United States, they will not import the Argentine purchases, but will sell again in London or Antwerp; but the domestic supply is so low that the prospect is, on men say,

## EARTH AND MARS ARE ALIVE

All Other Worlds Dead and Dried Up, Says Prof. Lowell in Lecture to New Yorkers.

New York.—"Mercury and Venus are already dead and dried up worlds. Mars is rapidly approaching a state of wrinkled old age, and the earth is next in the procession headed toward the extinction of all life," according to Dr. Percival Lowell, head of Lowell observatory, who is in New York for a series of lectures before scientific sources of constant annoyance to an orderly Creator, for he is constantly interfering with the natural course of events.

"With city chimneys always heaving forth smoke and making it rain, man is responsible for more than half the bad weather of which he complains. On Mars the sky is perpetually clear from morning till night and from spring to fall.

"While the water on the earth is slowly, but surely, disappearing through sublimation into the heavens, and sinking into the earth, on Mars the sea have already disappeared, though there appear to have been seas (three ages ago.)"

"Mars is certainly inhabited by some character of organized life," Doctor Lowell said in his opening lecture, "and the Martians have far greater reason to deny that there is life on the earth than we have that they do not exist."

"But there is no life on any other planets besides the earth and Mars, all other members of the solar system being either already dried up, or life, animal or vegetable, cannot exist, or else, like Jupiter, Saturn, Uranus and Neptune, are much too young in world evolution, and therefore much too hot from interior sources, to admit of life of any kind.

"On Mars, the clearing of the atmosphere, which has been going on since the paleozoic era, has reached perfection. Man indeed must be the

## ELECTRICITY AN AID

Marvelous Device Furnishes Plants Stimulants by Wire.

Increase of 30 Per Cent in Electrically Shocked Field Is Not Considered High—Wires Stretch Across Fields.

Birmingham, Eng.—Electric shocks for crops. Sunshine turned on by a switch. Stimulus by wire for plants. In the race for efficiency between science and nature, science has taken another step forward, and the above marvels are already accomplished.

You can now buy an electric apparatus for shocking your crops into growth from a company of which Lionel Lodge is one of the directors. It has come into being as the result of experiments conducted by Sir Oliver Lodge, the famous scientist, who is principal of Birmingham university.

Seven installations have recently been erected in Germany, and there are two in Scotland, and two in England and another now on the high seas on the way to Java, where it will be used to stimulate the growth of sugar cane.

An association of the sugar growers has bought it, and they are going to give it exhaustive trials, though it is realized that the conditions of the climate there are adverse.

The stations in Great Britain, Mr. Lodge said, are more or less experimental, but the German installations have been put up as commercial undertakings.

The principal Scottish station is on a farm at Balmakewan, Kincairdineshire, and in England there is one on a farm at Salford Priors, and the other is at G. R. Newman's nursery, at Britton, near Bristol.

The apparatus consists of an engine

running a special machine, which sends only positive electricity along the wires.

These wires are very thin, and therefore they discharge a lot of electricity into the air. The current is sent along them at very high pressure.

The wires stretch across the field or garden at a height of 20 feet. The escaping current reaches the plants and stimulates their growth.

An increase of 30 per cent in the electrically-shocked crop as compared with one grown under ordinary conditions, is not considered high.

## MINER WEARS \$150,000 LEG

Returned Klondiker Thinks Cork Limb Best Depository for Wealth Accumulated.

New York.—Lured by stories of the discovery of gold in the Klondike, Herbert O. Manley of Washington, who was a street car conductor, drew from a savings bank \$200. After ten years in the wilds of Alaska he has returned, and, according to his intimate friends, should anyone succeed in "pulling his leg" they would find a roll of \$150,000 fresh from the United States treasury.

It would all depend, however, upon which leg is pulled. The man's left leg is of cork and the hollow portion of the calf of the artificial limb is used by Mr. Manley as a safe deposit vault.

Uncle Joe's Check. Col. Henry Carson, sergeant-at-arms of the house of representatives, has the original check given by Speaker Joseph G. Cannon a few years ago to a book agent, and about which an interesting story has been told.

An agent visited the speaker and interested him in an elaborate edition of something which Uncle Joe didn't want, but bought. When the books arrived Uncle Joe examined them and decided at once that something had been put over on him. When the agent came for his money the speaker determined to make him endorse a terse sentiment on books, so he wrote out a check for \$73, the amount due, and on the back of it he inscribed:

"Pay to the order of Mr. Blank, in full payment for an edition which was not worth a d—, and dear at that price, but for the ease and grace with which he put it over your Uncle Joe it was well worth the money."—Human Life.

Denominational Puzzle. The wife of a prominent Unitarian clergyman is still wondering what her cook meant. She was a new cook, and there was every reason to believe she was a good cook. At any rate, she had unquestionably served in good families, and she brought the best of references. Nevertheless, her new mistress did not hesitate to give her a few instructions.

"One thing I want you to remember, Nellie," said she, "is the way we like our oatmeal. Don't let it hard and dry, either."

"Trust me, mum," responded the cook, confidently. "I'll get it right, never fear. I've worked in Unitarian families before."

The Final Settlement. "A verdict for \$10,000 isn't so bad," said the junior partner. "How much shall we give our client?"

"Oh, give him \$50," answered the senior partner. "But hold!"

"Well?"

"Don't be hasty. Promise to give him \$50."

The Chicago fire could have been prevented with one pill of water, but the water was not handy. Keep a bottle of Hamlin's Wizard Oil handy and prevent the fiery pains of inflammation.

Sympathy sometimes means sitting in a car and passing out soft words to lame folk.

Garfield Tea purifies the blood, cleanses the system, clears the complexion, eradicates disease and promotes Good Health.

Some men will do anything for the sake of a little newspaper notoriety.

"As to paying for it, we will have to send the money. I understand, to London," Mr. Warner continued.

"The present London market for Argentine seed is about \$2.30 a bushel and the price of seed in Minneapolis is about \$1.75. We use 15,000 bushels of seed a day in our mill, and as we have an oil trade that must be taken care of we have turned to Argentine seed as a final source of supply against existing scarcity at home.

North and South Dakota and Minnesota ought to raise 25,000,000 bushels of flaxseed in an ordinary season, but they have not done it of late, and even at that the oil industry has grown so large that the home production can hardly keep pace with it."

Brain Like Phonograph. Boston.—"That the human mind is the counterpart of a phonograph record, every impression and every experience being indelibly stamped, remaining available for future reference, was the declaration of Dr. Morton Prince of Boston, psychologist and mental experimenter, in his lecture before the girls of Mount Holyoke college.

## WANTED TO BE AGREEABLE

Farmer's Rather Humorous Explanation for Telling Exceedingly "Tall" Story.

Irving Batcheller once told a story of a farmer on the Connecticut hills. "Pretty steep land for planting, isn't it?" a visitor asked the tiller of the soil.

"Pretty steep," the farmer assented. "I suppose it's quite difficult to plant your corn?"

"Quite difficult," came the echo. The visitor was interested, and would not be put off with short replies.

"Eh—how do you manage to plant on this hill?" he persisted. The farmer gazed at him pityingly.

"We have to shoot it all into the earth with shotguns, stranger," he assured his guest.

The visitor gasped. "Really?" he ejaculated. "Really now? Is that actually true?"

The farmer sighed and turned upon his guest a look of withering scorn. "No, that isn't true," he answered. "I'm trying to make conversation."

## COULD NOT STAND SUFFERING FROM SKIN ERUPTION

"I have been using Cuticura Soap and Cuticura Ointment for the past three months and I am glad to say that they cured me of a most annoying skin eruption. It began by my noticing red blotches appearing on my face and scalp. Although they were rather disfiguring, I did not think anything of them until they began to get scaly and dry and to itch and burn until I could not stand the suffering. Then I began to use a different soap, thinking that my old kind might be hurting me, but that didn't seem to do any good. I went to two different doctors but neither seemed to relieve me any. I lost many nights' sleep in continual scratching, sometimes scratching till I drew the blood on my face and head. Then I started in to use the Cuticura Remedies and in two months I was entirely relieved of that awful pest. I am so delighted over my cure by Cuticura Remedies that I shall be glad to tell anybody about it." (Signed) G. M. Macfarland, 221 West 115th St., New York City, Oct. 5, 1910.

Cuticura Soap (25c) and Cuticura Ointment (50c) are sold throughout the world. Send to Potter Drug & Chem. Corp., sole props., 135 Columbus Ave., Boston, for free book on skin and scalp diseases and their treatment.

## Spring Medicine

Is Needed Now, and the Best Is Hood's Sarsaparilla

Which purifies, enriches and revitalizes the blood as no other does. 40,366 testimonials of cures, in two years. Get it in usual liquid form or tablets called Sarsatabs.

Impure Blood is common in the spring, because of the unhealthful modes of living during the winter, and it is the cause of the loss of appetite and that tired feeling as well as the sores and eruptions that occur at this time. Be sure to take Hood's this spring. Roots, Barks and Herbs—Hood's Sarsaparilla so combines the great curative principles of roots, barks and herbs as to raise them to their highest efficiency for the cure of all spring humors, all blood diseases, and run-down conditions. There is no substitute for Hood's.

## Miss Bangs and Miss Whiton's School for Girls

WITHIN EASY ACCESS of all parts of the city, and of the great libraries and museums. Opportunity given for attendance at public entertainments of educational and artistic value.

THOROUGH AND CONSERVATIVE TRAINING, moral, intellectual and physical, with expert supervision in every department, thus insuring definite and certain results.

FACULTY LAUREL, each teacher a specialist; and pupils assured the individual attention adapted to their respective needs.

PRIMARILY PREPARATORY AND ACADEMIC DEPARTMENTS; also a unique department known as the UPPER HOUSE, for graduiates and special students desiring to spend the winter in New York in a congenial social atmosphere, under the most favorable conditions for culture of social graces and for intelligent advancement. THE UPPER HOUSE is in a large degree free from the ordinary restrictions of a school.

BEST OPPORTUNITIES of New York available for the study of Music, Art, Elocution, Languages and Dancing.

PHYSICAL EXERCISES. Special attention given with the object of promoting health, grace and ease of motion and repose of manner. The gymnastic exercises are in charge of a graduate of a graduate of Cambridge, Mass. SUMMER CAMP in New Hampshire.

THE SUCCESS OF THE SCHOOL has been so pronounced that it has received the highest commendation of the leading educators of the country, as well as of the highest officials of the U. S. Government; Miss Bangs and Miss Whiton refer by permission to the presidents of ten colleges and universities and to President James M. Smith of the University of Chicago, President and Mrs. Roosevelt, and the Chief Justice.

Intervention in love is equivalent to a declaration of war. Mrs. Winslow's Soothing Syrup for Children teething, softens the gums, reduces inflammation, allays pain, cures wind colic, etc. A bottle.

The measure of what we love and admire is the measure of our own worth.—Dobson. Better health is sure to follow the use of the natural Herb Laxative, Gardell Tea. All druggists.

Inconsistency often means those deeds in another which I only half understand. FILES CURED IN 6 TO 14 DAYS. Four drops will return money if FILES DO NOT meet with success. Full particulars on request. Send 10c for book "How to Cure Files." All druggists.

It is sweet to feel by what fine spun threads our affections are drawn together.—Sterne. For COLDS and BRUISES. Hicks' CAPSULE is the best remedy for colds, coughs, croup, whooping cough, and all throat and lung troubles. At druggists, 25c, 50c and \$1.00 per bottle.

Between Orogenarians. "I understand they sentenced him to life imprisonment." "Well, no; it wasn't as bad as that. He got only 99 years!"—Pack. Taylor's Cherokee Remedy of Sweet Gum and Mullen is Nature's great remedy—Cures Coughs, Colds, Croup and Whooping Cough and all throat and lung troubles. At druggists, 25c, 50c and \$1.00 per bottle.

A Religious Innovation. A certain well-brought-up little girl yawmed at the breakfast table last Sunday morning and ventured a polite proposition to her mother. "I really don't feel at all like going to church this morning," she remarked. "Can't we just send cards?"

One Happy Card. "Wireless is a wonderful thing, isn't it? It's going to take the place of everything—telegraph, telephone, thought transference—why, they even transmit newspaper photographs that way."

"Yes, but there's one thing they'll never do with wireless." "What's that?" "Wire-pulling."

## IF YOU HAVE A SICKLY YOUNGSTER TRY THIS FREE

The family with young children that is without sickness in the household and then is rare, and so it is important that the head of the house should know what to do in the little emergencies that arise. A child with a serious ailment needs a doctor. It is true, but in the majority of instances, as my doctor knows, the child suffers from some intestinal trouble, usually constipation.

There is no sense in giving it a pill or a remedy containing an opiate, for it is a flouting of the bowels to be always recurred. Better give it a small dose of a mild, gentle laxative, like Dr. Caldwell's Syrup Pepsin, which, by cleaning out the bowels and strengthening the

little stomach muscles, will immediately correct the trouble. This is not again our opinion but that of Mrs. N. H. Mead of Precept, Kan., whose granddaughter has been taking it successfully and of Mrs. J. K. Whiting of Iowa, Wis., who gives it to her children, and takes it herself. It is sold in fifty cent and one dollar bottles at every drug store, but if you want to test it in your family before you buy it send your address to Dr. Caldwell and he will forward a supply free of charge.

For the free sample address Dr. W. R. Caldwell, 381 Caldwell Building, Monticello, Ill.

## PRESIDENT WORK SHIRT

GUARANTEED REGULAR One good turn deserves another—the 50c Regular President Shirt, now worn by over 2 Million Men, was the first good turn; the second is the Extra Special President Work Shirt at \$1.00—an even more wonderful value for the money. Both are impossible to duplicate in any other make of shirt. Extra strongly made, reinforced, double seamed, double stitched and made in a variety of neat, fast-color, wear proof fabrics. Your dealer can supply you; if not send us his name, your dollar size with price.

THE PRESIDENT SHIRT CO., 110 W. Fayette Street, Baltimore, Md.

## Strong Healthy Women

If a woman is strong and healthy in a womanly way, motherhood means to her but little suffering. The trouble lies in the fact that the many women suffer from weakness and disease of the distinctly feminine organism and are unfitted for motherhood. This can be remedied.

Dr. Pierce's Favorite Prescription Cures the weaknesses and disorders of women. It acts directly on the delicate and important organs concerned in motherhood, making them healthy, strong, vigorous, virile and elastic.

"Favorite Prescription" banishes the indispositions of the period of expectancy and makes baby's advent easy and almost painless. It quickens and vitalizes the feminine organs, and insures a healthy and robust baby. Thousands of women have testified to its marvelous merits.

It Makes Weak Women Strong. It Makes Sick Women Well. Honest druggists do not offer substitutes, and urge them upon you as "just as good." Accept no secret nostrum in place of this non-secret remedy. It contains not a drop of alcohol and not a grain of habit-forming or injurious drugs. Is a pure glyceric extract of healing, native American roots.

CHEAPER THAN INSURANCE. Mexican Mustang Liniment is made of the best oils and penetrates quickly, soothing and healing the affected parts. It makes good all losses occasioned by accidents and is cheaper than any insurance policy. It will take a curb of your horse or cure him of the heaves. It will cure him of cracked heels or greasy heels. No matter how long-standing or deep-seated the pain, this old reliable remedy will kill it. 25c, 50c, \$1 a bottle at Drug & Gen'l Stores.

## BE YOUR OWN BOSS

You can earn \$25.00 every week of your life. We will start you in a splendid new business—no competition. Possibilities unlimited. Very small capital required. This advertisement will not appear again, so be sure and write today.

D. F. Clark, 149 Broadway, New York City

## MOTHER GRAY'S SWEET POWDERS FOR CHILDREN

Relieves Feverishness, Constipation, Colds and cures indigestion, the stomach and bowels. Used by Mothers for 42 years. At all Druggists. Sample mailed FREE.

## DEFIANCE STARCH

Other starches only 15 cents—same price and "DEFIANCE" IS SUPERIOR QUALITY.

## GUARANTEED PRESIDENT WORK SHIRT

REGULAR 50c EXTRA SPECIAL 100c

## BLAIR'S PILLS

Safe, Sure, Effective. 50c. DRUGGISTS, or Dr. H. B. Blair, 110 W. Fayette St., Baltimore, Md.
