A Fierce Night Alarm

is the hoarse, startling cough of a child, suddenly attacked by croup. Often it aroused Lewis Chamblin of Manchester, O., [R. R. No. 2] for their four children were greatly subject to croup. "Sometimes in severe attacks," he wrote "we were afraid they would die, but since we proved what a certain remedy Dr. King's New Discovery is, we have no fear. We rely on it for croup and for coughs, colds or any throat or lung trouble." So do thousands of others. So may you. Asthma, Hay Fever, La Grippe, Whooping Cough, Hemorrhages fly before it. 50c. and \$1.00. Trial bottle free. Sold by Trout's drug store.

The Borough Council recently granted permission to the Union Telephone Company of Pennsylvania, to extend their lines within the said borough limits. When the agreement was presented to Burgess Nesbit for his signature he refused to sign it until they had inserted a clause reserving to the Borough the right to remove any pole or poles which might interfere with the construction of any building or buildings along the line or lines of said company. The clause has been inserted and the agreement properly signed.

None That Stands as High.

Of all the great city dailies there is none that stands as high in the estimation of out of town readers as "The Philadelphia Record," which has built up an enormous circulation outside of Philadelphia as well as within strictly on its merits as a wholesome, wide awake and fearlessly edited family newspaper.

"The Record" occupies a somewhat unique position as a Democratic paper published in the principal citadel of Republicanism and commanding a strong following even among the warmest supporters of opposing parties. The fact is that people of all political faiths, and of no political faith, want the news; they want it accurately presented, in the most readable form, and they want it uncolored by partisan spirit. This they get in "The Record," which confines its editorial opinions to its editorial columns and chronicles the doings just as they happen.

In building the foundations of "The Record's" popularity broad and deep, however, its publishers have not depended solely upon its news appeal. They have made it the leading authority on sporting matters; its market quotations are the recognized standard of buying and selling in all the territory tributary to Philadelphia, and its regular departments devoted to the latest developments in agriculture, every-day science, housekeeping, fashions and woman's interests in general make it all but indispensable in the home and on the farm.

"The Philadelphia Record" is a newspaper that every member of the family wants to read, and that every member of the family profits by reading. It is clean, typographically and morally. There isn't a line in it that the head of the household feels he ought to cut out before passing it along to the women and children.

There is more Catarrh in this section of the country than all other diseases put together, and until the last few years was supposed to be incurable. For a great many years doctors pronounced it a local disease and prescribed local remedies, and by constantly failing to cure with local treatment, pronounced it incurable. Science has proven catarrh to be a constitutional disease and therefore requires constitutional treatment. Hall's Catarrh Cure, manufactured by F. J. Cheney & Co., Toledo, Ohio, is the only constitutional cure on the market. It is taken internally in doses from 10 drops to a teaspoonful. It acts directly on the blood and mucous surface of the system. They offer one hundred dollars for any case it fails to cure. Send for circulars and testimonials.

F. J. CHENEY & Co., Toledo, O. Sold by all Druggists. Price, 75c. per bottle. Take Hall's Family Pills for constipation.

FROM RIDDLESBURG.

The Old Furnace Torn Down and a New One Being Constructed.

MR. EDITOR:—It may be of interest to some of the readers of the NEWS to learn that on the morning of February 24th, the last cast was made in the old Riddlesburg furnace which had been in almost constant operation for a period of forty years. On the morning when the last cast was made, nearly every man about the place cast a small piece of metal to keep as a relic of the old furnace.

Since that morning the old plant has been entirely torn down, and much of the work on the new structure is on the way. When completed, Riddlesburg will have one of the most modern and up to date furnaces in the country. The construction was given out by contract and is to be ready for operation in about six months. There are about 130 men at work on the job now. Nearly all of the men employed when the old furnace was running are employed in the construction of the new one, but the wages is only \$1.30 a day. Wm. F. T. Mellott is moving to the farm which he recently purchased near Saxton. William is an industrious citizen and is bound to succeed in whatever he undertakes.

Prof. H. H. Brumbaugh accompanied Mrs. John Hoopengardner and family home from Sabbath school and dined with the family last Sunday. Mr. Brumbaugh expects to leave in about ten days for Colorado, where he has secured employment. He will be much missed from the church here.

Enclosed find a dollar bill to keep the News coming another year. It is a welcome visitor and we could not get along without its weekly visits.

J. H. HOOPENGARDNER.
