A whist enthusiast wrote and pub lished a book on the game and sent a copy to a famous player for his opinion of it. In about a week the book was returned to him, with the following letter:

"My Dear Sir: - Your favor of the 10th instant, accompanied by your book, was duly received. I have read it very carefully. It seems to be a very good game, but I don't think it is as good a game as whist!"

> COFFEE HEART Very Plain in Some People,

A great many people go on suffering from annoying ailments for a long time before they can get their own consent to give up the indulgence from which their trouble arises. A gentleman in Brooklyn describes

his experience, as follows: "I became satisfied some months ago that I owed the palpitation of the heart from which I suffered almost daily, to the use of coffee, (I had been a coffee drinker for 30 years) but I

found it very hard to give up the beverage. "One day I ran across a very sensible and straightforward presentation of the claims of Postum, and

was so impressed thereby that I concluded to give it a trial. "My experience with it was unsatto be prepared-by thorough boiling i

isfactory till I learned how it ought for not less than 15 or 20 minutes. After I learned that lesson there was no trouble.

"Postum proved to be a most palatable and satisfactory hot beverage, and I have used it ever since.

"The effect on my health has been most salutary. The heart palpitation from which I used to suffer so much. particularly after breakfast, has disappeared and I never have a return of it except when I dine or funch away from home and drink the old kind of coffee because Postum is not served. I find that Postum cheers and invigorates while it produces no harmful stimulation." Name given by Postum Co., Battle Creek, Mich.

Ten days' trial proves an eye opener to many.

GOLDEN TEXT—"For he shall give His angels charge over thee, to keep thee in all thy ways.—Psa. 91:11.

TIME—According to most scholars, this event occurred in the reign of Jehoram (B. C. 504-594, Beecher, 501-849, Hastings).

Mrs. Houghton, however, holds, this the Mrs. Houghton, however, holds that the Syrian king of this story was Hazzel and the king of Israel was Jehu.

PLACE-Dothan, a small town about ten miles north of Samaria, situated on a remarkable isolated bill, surrounded on three sides by hills. Traces of walls may still be seen all around the bill-top. Also Samaria, the capital of the Northern

How did Elisha show himself to be a true patriot? By using for his country his supernatural knowledge, as we should use for our country our lesser knowledge, and all our powers. Assyria was not at the time pressing upon Syria, so that Syria could attack her hereditary enemy to the south. But the plans of Benhadad II, were frustrated over and over. Elisha was then living in Dothan, about ten miles 10rth of Samaria. Dothan was "a small town, of which some ruins and a well still mark the site." The caravan route from beyond Jerdan passes, from the Plain of Esdraelon, close to it. Probtory expeditions lay through this pass, which was narrow and easily defend-Therefore when the Syrians' comed. ing was revealed to Elisha and told by him to King Jehoram, a comparatively

How can we apply to ourselves Elftha's advice, "Beware that thou pass men who cannot get past any gambling resort to save their souls! There are certain stores and hav-lofts and street corners and vacant lots that are more dangerous to boys than pest bouses. There is absolutely no possible safety except in avoiding them." Boys, and men, too, beware!

How did Benhadad plan to circum vent Elisha? Sending spics, and learning that the prophet was living at Dotham, he sent a large body of cavelry and charlots to capture him. To secure such a man was vital. It would at once deprive Jehoram of one who was inspired by the gods and put him at the service of Syria, for it would be assumed that he could be bribed to help

How did Elisha, in the knowledge of his heavenly helpers, meet the Syrians? Our version, the Hebrew, Implies that Elisba and his servant holdly went down from Dothan into the valley, and that the leaders of the on which they were encamped, to parley with the prophet. He prayed; for prayer is the recourse of all the strongest men in the time when they need to be strongest. Prayer is a powerful thing, for God has bound and tied himself thereto. He prayed that blindness might fall upon the Syrlans, and at maria, but a confusion of vision or of mind, so that they were readily deluded. Perhaps only the leaders were

Why did Elisha lead the Syrians ten also to show the isrnellies, how powers one can make bricks without straw. less they were before Jehovah. Elisha made the pompous and confident invaders appear ridiculous, which is the most thorough defeat that can be given to any enemy. Besides, one reason why Elisha had led the Syrians to the capital was that they might be kindly treated, feasted and sent back to Benhadad with coals of fire beaped upon their heads.

What is the great teaching of our lesson for modern people. The reality of the invisible world, and its power to help and comfort. To have no sense of the invisible is the ruln of art, It is the ruin of all life also. Many will believe only what their uninstructed eyes can see.

Christians should be continually upheld by the realization of their angelic helpers. The brave man need not see any celestial form with spear and helmet by his side, yet he may know as he goes out to the battle that the spirits of justice everywhere are sympathizing with him and helping him in unknown ways. The mother may not discern an angel bending over the bed on which her child is laid, but still she may know that there are other watchers by its bed beside herself, spirits whom God has sent to see that none of his little ones take any harm. The soul in its bereavement may not look to see here again the very presence and feature of the friend whom God has taken, yet still may be sure that even now, in such unknown ways as soul may present itself to soul his friend is with him, for encouragement and strength. Pity we cannot now

practice Elisha's plan of ending war. When the comet of October, 1858, appeared, a lecturer made a tour of some country villages in Devonshire with a view to telling the country people some facts about the beautiful object; and among other points he touched upon the calculations which astronomers had made as to the enormous length of the tail of the comet. A countryman treated this part of his lecture with contemptuous incredulity. "I saw the comet myself," said the man, "and its tail was just four feet long; and how are we to believe this man who comes to tell us that it is

Go Astray in Mails and Lady Puts It Up to the Postmaster General.

A Jersey spinster intrusted her false teeth to the mails, and they went astray. Postmaster General Hitchcock received the following appeal from her:

"Dear Sir-I suppose you have received a note from the Camden post master that the upper plates of my teeth have been lost in the mails. They were mailed at Camden on January 1. I should like very much to hear from you. If you are unfortunate enough to have store teeth, you know how inconvenient it is to have to do without them, and I have not had them even a year. I paid \$35 for them, and I cannot afford to get any more just now. So will you kindly do what you can for me, and as quickly as possible?

"P. S.-They were very good teeth. The postmaster general put one of the best inspectors in the service on the job to find the missing ivories.
