

#### Vetoed By Governor.

Two House bills were vetoed by the Governor, both being disapproved on the ground of not being necessury. The Gans hill to make it a misdemeanor for any one in a firstclass city to permit any substance to flow into an inlet, drain or sewer, which would form a deposit tending to obstruct, was vetoed on the ground that the subject is one which can be dealt with by the municipal authorities by ordinance.

The other bill to meet executive disapproval appropriated \$5,000 for quadrennial inspection by the Department of Internal Affairs of boundary line monuments.

# Approved By Governor.

Governor Tener approved nine bills, including the McNichol Senate bill making it a misdomeanor for any person to give any dramatic, theatrical, operatic or vaudeville exhibition or show any fixed or moving pletures of a "Inscivious, sacrilogious. obscene, indecent or immoral nature," under penalty of a fine not exceeding \$1,000 or imprisonment for not more than a year, or both.

Another bill signed was the Mc-Inherney House bill to enable counties to issue bonds and appropriate money to construct and maintain canals in conjunction with other counties, the State or other States or the United States.

#### Bill To Impeach Judges.

The passage by the House of the Shern bill, providing for and regulating investigations when charges are preferred against a judge of any judicial district, has given rise to many rumors and caused more discontent among the members of the House than any other piece of legislation passed thus far in the session. The procedure adopted and the incidents which surround it were not only peculiar, but unique, and gave the new members of the House a lesson in legislative procedure which they may have read of, but have never had the opportunity of seeing put into actual practice.

# Dershem Pension Bill.

At a conference of Senators and Representatives interested in pension bills, it was determined that preference should be shown in the Senate to the bill presented by Mr. Dershem. Union, to grant pensions at the rate of \$5 for those who served for three months; \$6 for those serving less than a year, and \$7 for over two years. The Dershem bill has passed the House and the Gray bill. which provides for pensions for the emergency men who served for less than three months, is booked to pass. There are three pension bills in the Sonate.

DESTRUCTION OF THE BATTLESHIP SAN MARCOS

MARKSMANSHIP of a high degree of excellence was displayed by the gunners of the battleship New Hampshire when they were given the chance to fire the vessel's big gons at the old battleship San Marcos, formeriy the Texas. The out of date warship was smashed to pieces, and the test was considered most satisfactory, both in regard to the gunnery and to the remarkable qualities of "Explosive D," the new explosive, the formula of which has been given to the government by the inventor, Colonel Dunn.

HIS INVOCATION A SUCCESS Actor Finally Got the Gas Man Awakened and Attending to His Duties. DAUGHTER

"Years ago." says Guy Bates Post, the actor, "I appeared in an amateur performance of a play that had a distinct religious flavor. The leading player had studied for the ministry and had a deep and sonorous voice. In one of the scenes the lights were supposed to be turned down and a raging storm simulated. The accompanying lines were:

" 'Oh, Lord, deliver us from the powers of darkness.

The leading man spoke the lines, but darkness didn't follow. He spoke them again, and still the stage was distressingly light. Finally he roared: 'Oh, Lord, deliver us from the power of darkness, and also give that fool

gas man sense enough to turn down the lights.' "The gas lights went down and the

audience roared."-Pittsburg Chronicle-Telegraph.

Baby Teethes on the Table.

"We are called upon to repair all kinds of damages," a furniture dealer the other day said. "But the most puzzling defacement 1 ever snw was that which appeared on a beautiful mahoguny table brought in for refinishing. All around its margin were rows of scratches and small indentations which were hard to explain, an the table was otherwise uninjured.

"What happened to it?" I asked when the owner came.

"Well," she replied, "the baby insisted on cutting his teeth around the edge of it. Of course, it was rather expensive, but we both think there is nothing too good for the baby."
