French Boy Caused Merriment by Taking the Order of the Court Too Literally.

A droll incident is reported as having taken place in one of the provincial appeal courts in France. A boy, about 14, was summoned to give evidence, and his appearance was such as to move the whole court to laughter. He wore a long redingote, peculiar to the Basque country, and immense boots. His trousers, collar and hat were unquestionably those of a man. The court was convulsed, and the president asked the boy how he dared to treat the court in such a manner. The boy seemed as surprised as the president, and taking out the citation from his pocket, read the formula inviting him, "Comparaître dans les affaires de son pere." Millions are born with eczema, and it is the only thing other millions have left when they die. Neglect in infancy and childhood, irritating conditions affecting the skin, ignorance of its real nature, improper remedies and many other causes that might be mentioned have created an eczema which, with varying severity, has afflicted countless numbers during their entire lives. Eczema is a skin disease. It is not regarded as hereditary, nor contaglous, and is impartially distributed among the rich and poor, the high and low. The agonizing itching and burning of the skin, causing loss of sleep, is usually the most distressing symptom and is caused by the bursting of little vesicles filled with an acrid fluid, which burns as with fire the denuded skin. New vesicles form, fill and burst, scales form upon scales, and crusts upon crusts until disfigurement is added to One of the most successful treat-

ments for eczema, whether applied to the youngest infant or the oldest person, is hot baths with Cuticura Soap and gentle anointings of Cuticura ointment. For more than a generation, these pure, sweet and gentle emollients have proved the most efficient agents in the speedy and permanent relief of all forms of eczemas, rashes, itchings and irritations of the skin and scalp. Although Cuticura soap and olntment are sold by druggists and dealers everywhere, in order that those who have suffered long and hopelessly and who have lost faith in everything may make trial of them without charge, a liberal sample of each will be mailed free to any address, together with a 32-page pamphlet, giving a description and treatment of the various forms of eczema, as well as other affections of the skin, scalp, hair and hands-send to "Cuticura," Dept. The man who gives you the wagging, horfzontal, mill hopper shake, and lets slip your hand as if it were greasy or elly, will almost certainly be found to be a selfish, cunning and deceitful man, ready to sell you the moment he can realize a dollar."

Triumph of Courage.

Courage and the "power of the human eye," saved Walter Sergeant, a prosperous rancher, in the Redwood district. San Jose, when he was confronted by a hungry mountain lion the other evening. Sergeant was driving a herd of cows to his home in the foothills when he noticed the big cat stalking him. As it crouched for a spring Sargent furned and fixed the beast with his eye. Man and lion remained as immovable as statues for a few seconds and then the animal turned and trotted away.

No Man is Stronger

Than His Stomach

A strong man is strong all over. No man can be strong who is suffering from weak stomach with its consequent indigestion, or from some other disease of the stomach and its associated organs, which impairs digestion and nutrition. For when the stomach is weak or diseased there is a loss of the nutrition contained in food, which is the source of all physical When a man "doesn't feel just right,"

when he doesn't sleep well, has an uncomfortable feeling in the stomach after eating, is languid, nervous, irritable and despondent, he is losing the nutrition needed to make strength. Such a man should use Dr. Pierce's Golden Medical Discovery. It cures diseases of the stomach and other organs of digestion and nutrition. It enriches the blood, invigorates the liver, strengthens the kidneys, nourishes the nerves, and so GIVES HEALTH AND STRENGTH TO THE WHOLE BODY.
