

Bad BLOOD

"Before I began using Cascarets I had a bad complexion, pimples on my face, and my food was not digested as it should have been. Now I am entirely well, and the pimples have all disappeared from my face. I can truthfully say that Cascarets are just as advertised; I have taken only two boxes of them."

STILL IN HIS POSSESSION

Remarkable Coincidence in Sum of Money That Rastus Had in His Pocket.

Rastus was on trial, charged with stealing seven dollars and eighty-five cents. He pleaded not guilty, and, as he was unable to hire an attorney, the judge appointed Lawyer Clearem as counsel. Clearem put up a strong plea in defense, and Rastus was acquitted.

Clearem and client met a few minutes later outside the court room. "Now, Rastus," said Clearem, "you know the court allows the counsel very little for defending this kind of case. I worked hard for you and got you clear. I'm entitled to much more pay than I'm getting for my valuable services, and you should dig up a good-sized fee. Have you got any money?"

"Yes, boss," replied Rastus, "I done get seven dollars and eighty-five cents."

"The teacher informs me that Mary Anderson Wombat has considerable dramatic talent."

"That's what. Why, that girl can't recite the multiplication table without making the most elegant gestures."

COFFEE CONGESTION

Causes a Variety of Ails.

A happy old lady in Wisconsin says: "During the time I was a coffee drinker I was subject to sick headaches, sometimes lasting 2 or 3 days, totally unfitting me for anything."

"To this affliction was added, some years ago, a trouble with my heart that was very painful, accompanied by a smothering sensation and faintness."

"Dyspepsia, also, came to make life harder to bear. I took all sorts of patent medicines but none of them helped me for any length of time."

"The doctors frequently told me that coffee was not good for me; but without coffee I felt as if I had no breakfast. I finally decided about 2 years ago to abandon the use of coffee entirely, and as I had read a great deal about Postum I concluded to try that for a breakfast beverage."

"I liked the taste of it and was particularly pleased to notice that it did not 'come up' as coffee used to. The bad spells with my heart grew less and less frequent, and finally ceased altogether, and I have not had an attack of sick headache for more than a year. My digestion is good, too, and I am thankful that I am once more a healthy woman. I know my wonderful restoration to health came from getting coffee and using Postum." Name given by the Postum Co., Battle Creek, Mich.

"There's a reason," and it is this: Coffee has a direct action on the liver with some people, and causes partial congestion of that organ preventing the natural outlet of the secretions. This may follow biliousness, salivary glands, headaches, constipation and finally a change of the blood corpuscles and nervous prostration.

HAS HARD TIME BREAKING IN

Major League Stands Have Proved Big Handicap to Recruits From Smaller Clubs.

Artie Hofman, the Cubs' star outfielder, frequently has interesting contributions to make to the baseball literature of the day. Just now Artie writes to remark that it is a mighty hard thing for a young outfielder to make good in the major leagues these days, and says that "no matter how good the recruit may look in the records and when he is with the minors, he is bound to have a hard time showing any fielding form when he breaks in with fast company."

"I played the outfield with minor league teams for some time, and have been with the Cubs for a good many seasons, too," says Hofman, "and during all my experience in baseball the things that strike me as being one of the hardest things in the game for an outfielder to buck up against is the big type of grand stands which they are building around the circuit now."

"Take the National league—there is Pittsburg, Cincinnati, Boston and Philadelphia—in all these cities are big, high grand stands which do not have any effect on the infielders, but hurt the work of the outfielders. With these big, high stands we do not see a fly ball until it has passed out of the grand stand line, when we get some light behind it, and then it is too late for us to know where it is going to fall, and where we shall run to catch it; if an outfielder gets used to the different parks around the circuit, this is not so bad, but when he is just breaking in and is not acquainted with the parks it is liable to 'kill' his game completely."

"There was a good deal of complaint from all the outfielders about this in Philadelphia during the world series; with the crowd on the field they had an especially hard time getting long flies, for they could not see the ball until it was almost on the ground, and then it was too late to chase it any distance, and impossible with a big crowd on the field."

Artie is not suggesting any cure for his evil, but merely telling about it; in fact, there is no cure—unless we are going to have the magnates tearing down all their beautiful big grand stands and making their spectators sit on nothing but little benches which won't interfere with the daylight and make it hard to catch fly balls.

MOORE BETTER THAN "MATTY"

Philadelphia Twirler Is Picked as Star Pitcher of National League by Umpire Klem.

Earl Moore, former Nap, is the best pitcher in the National League, surpassing Christy Mathewson, according to Bill Klem, a National League umpire.

"Matty knows how to pitch better than any other major league pitcher and is still a wonder, but he hasn't the stuff he had four years ago," said Klem. "He is not as strong as he used to be and wins games through the use of his brain more than his brawn. Matty doesn't zip that old fast ball through as he used to. He depends more on the deceptive fade-away."

Earl Moore.

"Perhaps Matty is easily the most valuable pitcher in our league, yet I believe Earl Moore of the Phillies has more stuff on his ball than any other pitcher I worked behind during the summer."

"Really, I never saw a more deceptive ball to judge than Moore's cross-fire. It comes to you at a peculiar angle, and if it's half as hard to hit as it is for an umpire to judge, then I can easily understand why the batters don't fatten their batting averages when Moore is working. His speed is tremendous and his curves fast breaking. There are a lot of great pitchers in the National League, but Moore is the one best bet to me."

To Golf at Columbia. Columbia university has taken up golf for the first time in several years and will enter a team in the Intercollegiate tournament at Baltusore the second week of September. Although Columbia has not been represented in the intercollegiate tournament in a number of years, it has always retained its membership in the association, which is at present made up of Harvard, Yale, Princeton, Williams, Dartmouth and the University of Pennsylvania.

Ireland Defeats Scotland. Irishmen in New York have just learned of the victory of the Emerald Isle in the annual Rugby match between Scotland and Ireland, which took place at Iverleith a few days ago. On account of the match being on their own grounds it was thought by many that the Scotchmen would come out victorious, but the Irish team won by a score of 16 to 10.

The season approaches wherein the baseball scribes swoop down upon the English language and mangle it beyond all hope of recognition.

BIG IRISH FIGHTER BREAKS DOWN

CON O'KELLY

Acting upon the advice of Tommy Ryan, his manager, Con O'Kelly, the big Irish wrestler-fighter who has been registered as one of the leading aspirants of the country for the heavyweight championship, has sailed for his home in Ireland.

Constant training and fighting broke down the big fellow's nervous system and he ran down alarmingly in weight. He was homesick, too, and decided to

take a summer's vacation. He weighed only 200 pounds when he left, although his normal figure is 220. O'Kelly will rest until August and then try to get some bouts in England.

LOOKING TO EAST FOR GAMES

Michigan's Tennis Team Will Play Two Matches With Western Schools—Both With Oberlin.

Michigan's tennis team, as well as the baseball and track teams, will look to the east this spring for its games. With the exception of two matches with Oberlin college, one to be played at Oberlin and the other at Ann Arbor, all of the games scheduled for the Michigan racket experts are to be played in the east. Cornell, Columbia and Union are the three eastern institutions already scheduled, while Captain Norington in giving out the schedule for the season intimated that a game with either Princeton, Swarthmore or New York university would complete the list of games.

The first game of the season will be played on Perry field, Oberlin, furnishing the opposition. The remainder of the schedule, as at present arranged, are to be played away from home, as follows:

- May 6—Oberlin at Ann Arbor.
- May 13—Oberlin at Oberlin.
- May 15—Union college at Schenectady.
- May 17—Columbia at New York.
- May 18—Open.
- May 20—Cornell at Ithaca.

Although there are four veteran members of the Michigan tennis team in college only two of them are eligible, ex-capt. Ledy and Price having exhausted their period of eligibility. However, Captain Norington and Shafroth both are eligible and the chances are good for a strong team, according to Captain Norington, who already is arranging for the tournament which will decide the makeup of the Michigan team.

Sporting Gossip.

Louisville has released James Byrd, Chief Miller and Charles Schneider, pitchers, and Catcher Sewell to Lexington of the Blue Grass league.

Terry Turner's arm seems to be a hopeless case and Manager McGuire has about picked on Herman Bronkie to start the season at third base for the Naps.

Lester Channell is having trouble with the ankle that he broke while with the New York Highlanders; he has been out of the Indianapolis practice work lately.

HILDRETH GOES TO ENGLAND

Big String, including the Great Fitz Herbert, Brooklyn Handicap Winner, to Race Abroad.

The pick of the Hildreth racing stables, including the great Fitz Herbert, winner of last year's Brooklyn handicap, is likely to be shipped to England shortly according to rumors current in New York the other day. S. C. Hildreth, the owner, it is understood, expects to race his thoroughbreds at the Pimlico meeting and then, if the recent decision of the

IN OBEDIENCE TO ORDERS

French Boy Caused Merriment by Taking the Order of the Court Too Literally.

A droll incident is reported as having taken place in one of the provincial appeal courts in France. A boy, about 14, was summoned to give evidence, and his appearance was such as to move the whole court to laughter. He wore a long redingote, peculiar to the Basque country, and immense boots. His trousers, collar and hat were unquestionably those of a man. The court was convulsed, and the president asked the boy how he dared to treat the court in such a manner. The boy seemed as surprised as the president, and taking out the citation from his pocket, read the formula inviting him, "Comparaitre dans les affaires de son pere." (To appear in his father's suit.)

THE ALARMING PREVALENCE OF ECZEMA

Finds Victims Among Every Race, Age and Condition.

Of all the diseases of the skin and scalp which torture and disfigure mankind, three-fourths are eczematous. Millions are born with eczema, and it is the only thing other millions have left when they die. Neglect in infancy and childhood, irritating conditions affecting the skin, ignorance of its real nature, improper remedies and many other causes that might be mentioned have created an eczema which, with varying severity, has afflicted countless numbers during their entire lives. Eczema is a skin disease. It is not regarded as hereditary, nor contagious, and is impartially distributed among the rich and poor, the high and low. The agonizing itching and burning of the skin, causing loss of sleep, is usually the most distressing symptom and is caused by the bursting of little vesicles filled with an acid fluid, which burns as with fire the denuded skin. New vesicles form, fill and burst, scales form upon scales, and crusts upon crusts until disfigurement is added to torture.

One of the most successful treatments for eczema, whether applied to the youngest infant or the oldest person, is hot baths with Cuticura Soap and gentle anointments of Cuticura ointment. For more than a generation, these pure, sweet and gentle emollients have proved the most efficient agents in the speedy and permanent relief of all forms of eczemas, rashes, itching and irritations of the skin and scalp. Although Cuticura soap and ointment are sold by druggists and dealers everywhere, in order that those who have suffered long and hopelessly and who have lost faith in everything may make trial of them without charge, a liberal sample of each will be mailed free to any address, together with a 32-page pamphlet, giving a description and treatment of the various forms of eczema, as well as other affections of the skin, scalp, hair and hands—send to "Cuticura," Dept. W., Boston.

Character Told in Greeting. Joseph Simms, M. D., in "Physiology Illustrated," says: "The man who gives you a warm, cordial, hearty grasp, looks you straight in the face, with a pleasant, open smile, and shakes your hand up and down, withdrawing his after a second earnest gentle pressure, is almost without an exception an honest, earnest and true friend. The man who gives you the vague, horizontal, mill hopper shake, and lets slip your hand as if it were greasy or oily, will almost certainly be found to be a selfish, cunning and deceitful man, ready to sell you the moment he can realize a dollar."

Triumph of Courage. Courage and the "power of the human eye," saved Walter Sergeant, a prosperous rancher, in the Redwood district, San Jose, when he was confronted by a hungry mountain lion the other evening. Sergeant was driving a herd of cows to his home in the foothills when he noticed the big cat stalking him. As it crouched for a spring, Sergeant turned and fixed the beast with his eye. Man and lion remained as immovable as statues for a few seconds and then the animal turned and trotted away.

No Man is Stronger Than His Stomach

A strong man is strong all over. No man can be strong who is suffering from weak stomach with its consequent indigestion, or from some other disease of the stomach and its associated organs, which impairs digestion and nutrition. For when the stomach is weak or diseased there is a loss of the nutrition contained in food, which is the source of all physical strength. When a man "doesn't feel just right," when he doesn't sleep well, has an uncomfortable feeling in the stomach after eating, is languid, nervous, irritable and despondent, he is losing the nutrition needed to make strength.

Such a man should use Dr. Pierce's Golden Medical Discovery. It cures diseases of the stomach and other organs of digestion and nutrition. It enriches the blood, invigorates the liver, strengthens the kidneys, nourishes the nerves, and so GIVES HEALTH AND STRENGTH TO THE WHOLE BODY.
