**Why Do They Eat Fat?**

Why do the Esquimaux, the Laplanders and other people living in the far north, eat fat? Simply because fat is a wonderful creator of heat, and the colder the climate the greater the need of internal warmth. We who live in a more temperate climate cannot eat whale's blubber and tallow candles, but we need fat just the same. We need it in the winter especially, when colds and lung troubles are menacing, not alone for its warmth creating power but for its nutritive value and because its strengthens the system against the ravages of disease.

The value of cod liver oil has long been recognized in the treatment of pulmonary diseases for it feeds the tissue, enriches the blood and gives to all the organs of respiration new strength and recuperative powers. But the oil selected must be absolutely pure—otherwise the digestive system will become deranged and more harm than good will result.

**Cod Liver Oil Emulsion**

(Containing 40 per cent. of the finest Norwegian cod liver oil) is made from fresh cod liver oil by a special process, which, while retaining all the nutritive value of the oil, entirely eliminates the disagreeable taste and odor. The result is a smooth, clear white and palatable emulsion containing besides the finest cod liver oil the following ingredients:

**AROMATIC OILS.** Valuable as a mild digestive stimulant and for their pleasant flavor when in combination with other ingredients.

**CALCIUM HYPOPHOSPHITES.** Used with excellent results in the treatment of chronic phthisis or consumption and in scrofulous affections. Especially valuable in all cases of defective nutrition of the nerve centers.

**SODIUM HYPOPHOSPHITES.** Invaluable in diseases attended by loss of nerve power.

**POTASSIUM HYPOPHOSPHITES.** Possessing tonic, nutritive and reconstructive properties.

All of these ingredients are perfectly blended under the supervision of skilled chemists who devote their entire time and best efforts to the preparation of the famous Rexall Remedies.

Rexall Cod Liver Oil Emulsion is a perfect remedy for Bronchitis, Asthma, Diphtheria, Tonsillitis, Consumption and all pulmonary troubles. It will also be found invaluable as a tissue builder in wasting diseases and as a reconstructive tonic during convalescence.

We do not hesitate to recommend Rexall Cod Liver Oil Emulsion for we have traced every step of its manufacture and we have implicit confidence in its remedial value. If you are not satisfied with your first trial bottle, we will cheerfully refund your money.

Rexall Cod Liver Oil Emulsion is one of the famous Rexall Remedies, sold only at our store.
