PLANT TREES.

timber in this country will be exhaust ed, at the present rate of consumption. the admonition to plant trees becomes eloquent with meaning. There Is great value in trees, says the Kansas ENLARGED TO 433 MEMBERS. City Times. The big lumber fortunes have been made in the main, not in buying and selling lumber, nor even Rearrangement of the Congressional in manufacturing lumber for sale, but in buying vast tracts of timber land ad holding them for the inevitable deances in timber prices incident to he rapidly decreasing supply. Now, a would not profit any man or cor peration to buy large areas of land that could be profitably used for agrifulture, fruit growing or grazing, and tionment of these members to the difset them in trees; but it would be ferent States on the basis of the popprofitable for all who own timber ulation shown by the recent federal lands that could not be profitably used for other purposes to maintain them as permanent forests, using only the matured trees and cutting them and clearing the slash in such a identical with that provided for in the way as to give the best possible pro- Crumpacker bill, passed by the House tection to the immature timber. Also, it would be profitable to every owner of land to plant trees on any part of it that cannot be utilized for other purposes. If this great nation could inspire its landholders with this one purpose for a given time, to the end that all land that should be planted with trees would be so planted, the problem of the future lumber proposed, and defeated after lengthy ed States government. The State supply would be solved.
