The growing wheat throughout the county is reported as looking fine. The weather conditions have been most favorable for its growth, cold and generally disagreeable in regards personal feelings with a great deal of rain, but for the grain fine. Thus what may seem wrong in one direction is right in another. Farmers say they have not seen better prospects for the coming wheat crop. The backward spring has also retarded the fruit buds, another thing in which personal disagreeableness can well be borne and then forgotten, for this has also made the prospects for a fruit crop good.

Do Ghosts Haunt Swamps?

No, Never. It's foolish to fear a fancied evil, when there are real and deadly perils to guard against in swamps and marshes, bayous, and lowlands. These are the malaria germs that cause ague, chills and fever, weakness, aches in the bones and muscles and may induce deadly typhoid. But Electric Bitters destroys and casts out these vicious germs from the blood. "Three bottles drove all the malaria from my system," wrote Wm. Fretwell, of Lucama, N. C., "and I've had fine health ever since." Use this safe, sure remedy only. 50c at Trout's drug store.
