There are 248 paupers to every ten thousand of the population of Great Britain and Ireland.

A well built chimney one hundred feet high will sway from three to four inches in a high wind without any danger of falling.

For summer diarrhoea in children always give Chamberlain's Colic, Cholera and Diarrhoea Remedy and castor oil, and a speedy cure is certain. For sale by all dealers.

At an auction sale of lots in the Orbison addition to Huntingdon last Saturday it took just one hour and thirty minutes to sell 109 lots. The prices averaged about \$80.

Roy C. Cromwell has put a bran-splinter-new hack on the road between this place and Mercersburg, and is prepared to haul passengers with more comfort than ever before.

Sprains require careful treatment. Keep quiet and apply Chamberlain's Liniment freely. It will remove the soreness and quickly restore the parts to a healthy condition. For sale by all dealers.

The twenty-sixth annual reunion of Lutherans of Central Pennsylvania will be held at Lakemont park on July 27. Active preparation on the part of the committee is daily being made in order that the reunion may be the greatest of any yet held.

Right in your busiest season when you have the least time to spare you are most likely to take diarrhoea and lose several days' time, unless you have Chamberlain's Colic, Cholera and Diarrhoea Remedy at hand take a dose on the first appearance of the disease. For sale by all dealers.

Beginning last Saturday every railroad conductor on trains running in Illinois assumes the duties of Sheriff or policeman. All the railroads with tracks within the State are preparing placards promulgating the law just passed by the Legislature, making it unlawful to drink intoxicating liquors or to be intoxicated in or upon railroad passenger cars in use for transportation of passengers or about any railroad station.

For the first time in 200 years, the counties of Jefferson and Berkeley in West Virginia, are "dry" and will remain so for, at least, one year. Jefferson county was swung into the dry column by the refusal of the county court to grant license to any one, although Charlestown, Shepards-town and Harper's Ferry voted wet at the municipal elections. At present there is not a "wet" spot in West Virginia east of Grafton.

The advantage that a rich man has over a poor man in American courts of justice, both in civil and criminal cases, does not lie in the partiality of judges or juries, but in the ability of the rich to secure delays by appeals and technical devices which the poor man cannot get because he hasn't the money to pay lawyers and the expenses involved in fighting his case to the end through the courts from the bottom to the top. Thus the rich will have the advantage over the poor in our courts until our judges bring about a radical reform by putting an end to dilatory motions and technical appeals which do not really touch the merits of the case.

There is a current decision abroad that Providence takes care of drunkards, idiots and children. It is not always true of the idiot or the child and it is very seldom true of the drunken man. If the newspapers were to tell the truth bluntly about all the accidents they record it would soon be apparent to the dustiest reader that the man who permits alcohol to steal his brains is in constant danger while many terrible accidents are due to drink. Over in Clearfield county last Saturday night a man who had a wife and family got into a quarrel with another over the possession of a dissolute woman in the struggle that ensued was precipitated into a body of water and drowned. He was very much under the influence of liquor when the accident occurred. This is merely one in a long line of many happening every month.—Altoona Tribune.

**The Human Frame.**

A physician says that the human frame may be compared to a watch, of which the heart is the mainspring, the stomach the regulator, and what we put in it the key by which the machine is wound up. According to the quantity, quality and proper digestion of what we eat and drink will be the pace of pulse and the action of the system in general. If the machine be disorganized the same expedients are employed for its readjustments as are used by the watchmaker.

**Kill More Than Wild Beasts.**

The number of people killed yearly by wild beasts don't approach the vast number killed by disease germs. No life is safe from their attacks. They're in air, water, dust, even food. But grand protection is afforded by Electric Bitters, which destroy and expel these deadly disease germs from the system. That's why chills, fever and ague, all malaria and many blood diseases yield promptly to this wonderful blood purifier. Try them, and enjoy the glorious health and new strength they'll give you. Money back, if not satisfied. Only 50c at Trout's drug store.
