Attack Like Tigers.

In fighting to keep the blood pure the white corpuscles attack disease germs like tigers. But often germs multiply so fast the little fighters are overcome. Then see pimples, boils, eczema, salt rheum and sores multiply and strength and appetite fail. This condition demands Electric Bitters to regulate stomach, liver and kidneys and to expel poisons from the blood. "They are the best blood purifier," writes C. T. Budahn, of Tracy, Calif., "I have ever found." They make rich, red blood, strong nerves and build up your health. Try them. 50c at Trout's Drug Store.

Mrs. E. H. Kirk and son Howard came into town from their home in Taylor township in their new E. M. F. Thirty last Saturday morning and picked up Editor E. H. Kirk at the Democrat office, and the party made a run down into Bethel township returning to their home Saturday evening.

Dr. R. B. Campbell is wearing a smile 24x36 and practicing the tune of that old familiar song, "A charge &c."—All because a fine little baby girl came to his home last Sunday evening. Set 'em up, Doc, set 'em up!

While hauling lumber last week, Bert McClain fell and fractured some of his ribs.

Little Webster North, who lives with Jesse O. McClain, undertook to walk a sleeper of a new bridge being built near his home. In making the attempt, he slipped and fell through into the water striking the stones at the bottom of the creek. He was picked up unconscious, and remained in that condition for some time. He is improving slowly at present.

Accused of Stealing.

E. E. Chamberlain, of Clinton, Me., boldly accuses Bucklen's Arnica Salve of stealing—the sting from burns or scalds—the pain from sores of all kinds—the distress from boils or piles. "It robs cuts, corns, bruises, sprains and injuries of their terror," he says, "as a healing remedy it's equal don't exist." Only 25c at Trout's Drug Store.

USEFUL—SAFE

All these drugs are carefully selected and scientifically combined in a preparation that has proved to be of splendid service in the treatment of the conditions in which it is indicated. This remedy is neither designed nor intended to act as an abortion agent. In fact, its use will tend to prevent the dangers of abortion when due to unusual uterine sensitiveness.

Resall Vegetable Compound should be found to give splendid service in the treatment of Internal Spasmodic Pain, Hysterical Convulsions, Cramps, Flatulent and Bilious Colic; particularly for those disorders of the generative organs which cause such distressing reflex symptoms, as Painful Menstruation, Ovarian Colic and Uterine Pains, and Pains in the Back and Loins due to excessive sensitiveness of nervous mucous and muscular tissues of the parts affected. Its tendency is to render the monthly periods normal in time and amount; to correct tardy menses, its action being to preserve at the normal the tissues of the female generative organs. Resall Vegetable Compound will be found of value during the period of Pregnancy, and of special value in the relief of the suffering incident to the Change of Life. Of service also in Leucorrhoea, Menstrual Headache and in Constipation. It contains no narcotic or habit-forming drugs.

DIRECTIONS

In order that those who stand in need of Resall Vegetable Compound should receive the full benefit therefrom we draw particular attention to the following advice:—

For Painful Menstruation Resall Vegetable Compound should be taken about one week before the expected monthly period and should be continued throughout the entire period and for one week thereafter. In fact, it would be well, if, in the beginning of treatment, the patient should take the preparation continuously for two or three months. Thereafter, if the painful periods continue in any degree, the treatment should be given as suggested above. Resall Vegetable Compound will give better results either given in, or followed by, a glass of hot water. Its effect is enhanced if the patient should take hot baths at the time expected for the beginning of Menstruation.

For treatment of the "dragging" pains and pains in the back and loins that are so common, particularly to women who have borne children, Resall Vegetable Compound should be taken over periods of several months. These pains are due in most cases to weight of an abnormally heavy uterus dragging upon sensitive ligaments. The effect of the Remedy will be increased in these cases by the regular use of hot douches, taken in a reclining posture. It is important in all these cases that the bowels should be kept regular and free. For this purpose Resall Orderlies may be used.

VEGETABLE COMPOUND

It has been estimated by careful observers among the medical profession that of those who seek the services of a physician fully three-fourths are women. Many of these, of course, stand more or less in need of surgical treatment. Many of them, and probably the majority, will be greatly benefited by medical treatment alone.

Physicians experienced in the treatment of diseases of women have proved that certain remedies produce excellent results in the peculiar troubles from which women suffer.

With scientific understanding of the diseases to be treated and of the action of the drugs most useful in the treatment of these diseases Resall Vegetable Compound has been devised. It is prepared to meet the wants of those women who suffer either from painful menstruation or from troubles incident to the change of life, or who, during pregnancy, stand in need of remedies to preserve the tissues of the generative organs in a normal condition.

HOW VEGETABLE COMPOUND IS MADE

In order that our patients may use this preparation intelligently we here explain just why Resall Vegetable Compound has been made as it is.

Black Haw, Cramp Bark, Squaw Vine and Blue Cohosh are of proven value in lessening irritation and allaying muscular tissues of the uterus. Unicorn Root is efficient as a menstrual stimulant and is of value in painful menstruation accompanied by scanty flow.

Golden Seal is noted for its stimulating effect upon mucous membranes. Together with Cinnamon Bark it is incorporated in Resall Vegetable Compound for the purpose of stimulating the intestinal tract to the expulsion of gases that might intensify the pain attendant upon painful menstruation.

USEFUL—SAFE
