## SOME UTILITY BALL TOSSERS

Manager Fred Tenney of the Boston Nationals, Tells of Some Remarkable All-Round Players.

"Just as a chain is only as strong as its weakest link, so a ball club is only as strong as its substitutes," says Fred Tenney, manager of the Boston Nationals "Therefore, it will be just as necessary to use a careful discrimination in the choice of substitutes as in the selection of the regular men. A few years ago, when baseball was in its infancy, the players could nearly all play the different positions. Today there are comparatively few who can do this.

This is the age of specialization, and nowhere is it more aptly illustrated than on the ball field. Men train themselves for perfection in one position, disregarding all others. Occasionally a man appears who seems able to accommodate bimself to any change of position.

"Such a man was Shoch, of the old Brooklyn club Jimmy Stafford was another rlayer almost a replica of Shoch. When in New York he was played in about every position in the field.

Lowe of Beston, was one of those baseball phenomenons who could play any position on the t-am in first-class style. Starting as a catcher, then going to the outfield he made a great record in the minor leagues. Coming to Boston in 1890 as utility man, he was soon played regularly on account of his heavy batting. He was shifted to second base when Quinn was sold. Here he became one of the greatest in the business. His last year in Boston found him a guardian of third base. Again he ranked with the foremost. While Lowe was at home any where, he could not be used as a utility man, as he was far too strong a regular. During the last few years of playing he was used in the utility role with marked success. His work in that capacity helped Detroit to win many a game.

"Strang was one of the bright lights of the utility men. He reverted to the

TEXT.--God delivered just Lot, vexed with one fill, hy conversation of the wicked, for that righteous man dwelling among them vexed his righteous soul day to day with their unlawful deeds.-? Peter 9.7.

These words bring before us the story of a man who was anxious to be rich. Let us recall the story and see

what his overpowering desires for riches led him into. Lot was assoclated with Abraham from the first move from Ur of the Chaldees. With Abraham he tarried at Haran, and went down into Egypt, and returned from Egypt. But to be perfectly fair, Lot should be considered apart from

Abraham. A face that is comely may suffer by comparison with one that is beautiful. So the character of Lot suffers by comparison with Abraham, and we will take him by himself. That

he was a just man we have on the authority of the New Testament. Crises do not make character, they only reveal it. A crisis came in the affairs of Lot. He and Abraham had grown to such wealth in flocks that they could no longer dwell together. So Abraham took him upon a high eminence and told him to choose any locality where he wished to dwell. And here it is that Lot's character is brought out in its true colors. He thinks he has the chance of his life. No consideration of Abraham enters his mind. He gets where he can look over the land, and then he chooses.

What did he choose? "Then Lot chose him all the plain

of Jordan and Lot journeyed east; and they separated themselves one from the other. Abraham dwelled in the

land of Canaan, and Lot dwelled in the cities of the plain, and pitched his tent toward Sodom."

He chose the well-watered plain in the valley of the Jordan because it was rich and like Egypt. He had never forgotten Egypt, with its great

cities and wealth, out of his heart. He saw that in the plain were cities, centers of commerce, where men were making money fast. The only consideration that entered his mind was his own personal advantage.

You notice that it said that Lot pitched his tent toward Sodom. Why not "within Sodom?" Because he knew perfectly well that Sodom was a wicked city, that the people of that city dishonored the God whom he wished to serve. So he did not feel right about going into the city, but he

would get near it for the material advantage it would mean to him. But let us see what happened. In the fourteenth chapter of Genesis we read that Lot is living in the city, and he has become an important map. "Lot sat in the gate." He had become chief magistrate, an administrator of justice, and one who extended the
