

# QUEER DISEASE IS IN UNITED STATES

Many Here Afflicted With Odd Ailment, Says Prof. Munyon.

GREWSOME CREATURES VERY COMMON, FINDS EXPERT.

Many people in the United States are afflicted with a queer disease, according to a statement yesterday by Professor James M. Munyon. He made the following remarkable and rather gruesome statement:

"Many persons who come and write to my headquarters at 83d and Jefferson sts., Philadelphia, Pa., think they are suffering from a simple stomach trouble, when in reality they are the victims of an entirely different disease—that of tape worm. These tape worms are huge internal parasites, which locate in the upper bowel and consume a large percentage of the nutriment in undigested food. They sometimes grow to a length of forty to sixty feet. One may have a tape worm for years and never know the cause of his or her ill health.

"Persons who are suffering from one of these creatures become nervous, weak and irritable, and tire at the least exertion. The tape worms rob one of attention and vitality and strength, but they are rarely fatal.

"The victim of this disease is apt to believe that he is suffering from chronic stomach trouble, and doctors for years without relief. This is not the fault of the physicians, but of the disease. There is no absolute diagnosis that will positively tell that one is not a victim of tape worm.

"The most common symptom of this trouble is an abnormal appetite. At times the person is ravenously hungry and cannot get enough to eat. At other times the very sight of food is loathsome. There is a gnawing, faint sensation at the pit of the stomach, and the victim has headaches, fits of dizziness and nausea. He cannot sleep at night and often thinks he is suffering from nervous prostration.

"I have a treatment which has had wonderful success in eliminating these great creatures from the system. In the course of its regular action in aiding digestion, and ridding the blood, kidneys and liver of impurities, it has proven fatal to these great worms. If one has a tape worm, this treatment will, in nine cases out of ten, destroy it and pass it away, but if not, the treatment will rebuild the run-down person, who is probably suffering from stomach trouble and a general anemic condition. My doctors report marvelous success here with this treatment. Fully a dozen persons have passed these worms, but they are naturally reticent about discussing them, and of course we cannot violate their confidence by giving their names to the public."

Letters addressed to Professor James M. Munyon, 83d and Jefferson Streets, Philadelphia, Pa., will receive the careful attention as though the patient called in person. Medical advice and consultation absolutely free. Not a penny to pay.

## An Anomalous Parent.

"Father!"  
"Yes, Wilfred."  
"What is reciprocity?"  
"Reciprocity, Wilfred—"  
But pause. Father never told. He slipped over no epigram. He knew not what was reciprocity. No. He was totally different from the average father figuring in this sort of short squib. He just told Wilfred to run along and play, and resumed his reading of the evening paper.

Truly, a refreshing personality—not so?

In Seclusion.  
"Is your mistress at home?"  
"Are you the manure lady?"  
"No, indeed!"  
"Then she ain't at home, mum."

He who fights and runs away doesn't always have to buy a return ticket.

## Cement Talk No. 1

Buyers of Portland cement should remember that there are various brands of Portland cement on the market and that all Portland cement is not the same. Every manufacturer prints on the sacks the name of the brand and the trade mark. If you find the trade mark printed above and the name Universal on the cement sacks, you may know it is the best Portland cement possible to make. Good concrete depends on good workmanship and good materials. Care and experience make for good workmanship. Good sand and gravel or crushed stone are obtainable quite cheaply. With these you may feel absolutely safe, if you use Universal Portland Cement. It is always uniform, of good color, great strength and works easily. If you need cement, use Universal. Most dealers handle Universal. If yours does not, write us.

## BROOKLYN TO LEAD SECOND DIVISION

Manager Bill Dahlen.

Now that Rucker, Barger, Bell and Scanlon are pitching good ball for Brooklyn, Manager Dahlen is confident that his team will lead the second division at the close of the season.

## DOYLE LOOKS LIKE VETERAN

Chicago Cub's Playing at Third Base Clinches Position for Him—Made an Excellent Start.

Jimmy Doyle, as the baseball season creeps along, is steadily carving for himself into the position of permanent third baseman on the Chicago team. With every game his work improves, and he is succeeding exceedingly well in working with Tinker. Daily he is lessening Heinie Zimmerman's prospects of regaining the job at the far corner when Johnny Evers returns to the team.

His work in the field and at the plate is taking on the aspect of a vet-

Jimmy Doyle.

eran, as he is rapidly gaining in knowledge and experience.

For the present Manager Chance has no idea of taking him off the infield when Evers returns.

The possibility of Doyle being removed is when he begins to have a slump. There seems to be little chance of that taking place, as Doyle is determined to reach the height of his ambition. That is to become the permanent player of a major league club.

He has made an excellent start and says he is to make a noble fight to keep it up.

No strong objections can be made on his work up to date, with the probable exceptions to a little poor fielding. That probably was due to a streak of nervousness a youngster usually possesses when given his first chance to prove he is capable of competing in major league company. This nervousness is rapidly wearing away, as has been shown by his work in his recent games.

## GANZEL FAMILY IS FAMOUS

John, Charles, Jr., and George Attend Family Reunion at Their Home in Kalamazoo, Mich.

After twenty-five years the Ganzel family held a family reunion at home in Kalamazoo recently. The Ganzel family have made their names famous in baseball. John Ganzel is manager and one-third owner of the Rochester team in the Eastern league and was at one time manager of the Cincinnati squad of the National league. He is now a bench manager. Charles, Jr., of Boston, now retired, is a well-to-do business man of that city. He was a catcher in the Detroit team of 1887, when the Tigers won the world's championship. Joe Ganzel of Grand Rapids won fame as a first baseman with various teams in Michigan while George Ganzel of Kazoo played with professional teams behind the bat and was a star. Both Joe and George had chances at the professional game, but preferred business life. The Ganzel family is one of the best known professional ball playing groups in the country.

Another Sprinter From the South. Ty Cobb, Joe Jackson, Tris Speaker and other famous American league outfielders will be forced to take to the tall timber when Long of Gadsden, Ala., reports to Washington. This young man, who is a discovery of Mike Kahoe, leads his league in base running and batting and is, according to Kahoe, the fastest man he ever saw. Kahoe saw him beat out an infield hit, steal second, third and home with the winning run in the tenth inning. That certainly is going some.

## BIG LEAGUES' RAID

Soon Begin to Grab Up Minor Baseball Stars.

Average Life of Professional Player in Major Company is But Four Years—Game Has Advanced Along Scientific Lines.

One of the laws of organized professional baseball provides that between May 20 and August 20 of each season the 16 clubs which comprise the American and National leagues can carry but 25 players on their rosters. This means that during the three most important months of the campaign 40 players are maintained on the salary lists of the major league clubs. Of this number nearly one-sixth—65, to be exact—have been playing in the two principal organizations of the great "outdoor leagues" for eight years and more. After August 20 the big leagues will begin their annual raid on the stars in the minors.

When the rack and tear on physique and mental powers by everyday competition for six months—the actual playing season—is taken into consideration, this is a large percentage. When it is also realized that each spring some 600 odd ball players are taken south for spring training by these same 16 clubs, the percentage grows proportionately.

It has been said by those who have made a profession of baseball for years that the average life of the professional player in the two major leagues is four years. This can readily be understood when it is recalled how many athletes are drafted or purchased by these clubs, taken south and then fall to show callous enough to oust some seasoned veteran from his regular berth, and are sent back to the minor leagues.

There is still another point of honor to the credit of the 65 favorites who have performed for eight years and more. Baseball has advanced in a natural progression along scientific lines.

The following are the men who have remained in the American and National leagues for eight years or more:

Giants—Christopher Mathewson, John J. McGraw, Leon Ames and George Witale.

Highlanders—Charles Hemphill.

Washington—James McAleer, Norman Eberfeldt, "Wid" Courty, "Tom" Hughes and Harry Gessler.

St. Louis Browns—"Bobby" Wallace and "Jack" Powell.

St. Louis Cardinals—Roger Bresnahan.

Chicago Cubs—Frank Chance, James Sheekard, John Evers, Joseph Tinker and Mordecai Brown.

Chicago White Sox—William Sullivan, James Callahan, Harry White and "Pat" Dougherty.

Boston Nationals—Fred Tenney, "Patsy" Flaherty, John Kling and Harry Steinfield.

Boston Red Sox—"Pat" Donovan and "Jack" Thoney.

Philadelphia Nationals—Charles Doolin, John Thrus, William Brandfield, "Pat" Moran, John Lobert, "Bob" Ewing and Earle Moore.

Philadelphia Athletics—"Connie" Mack, "Danny" Murphy, "Topsy" Hartel, Harry Davis, "Eddie" Plank and "Chief" Bender.

Pittsburg—Fred Clarke, "Tommy" Leach, John Wagner and Charles Phillippe.

Cincinnati—Clarke Griffith.

Brooklyn—"Bill" Dahlen, Harry Smith and "Bill" Bergen.

Detroit—Hugh Jennings, George Mullin, "Bill" Donovan and "Davey" Jones.

Cleveland—"Cy" Young and Napoleon Lajoie.

## UMPIRE MAKES UNIQUE RULE

Willing to Compromise on Foul Ball That He Had Declared Fair By Calling it Double.

Joe Jackson, the Cleveland star, tells this one on how an umpire decided a championship game between two rival South Carolina towns:

"I was playing with Greens against Buffalo," said Joe. "We had Buffalo

Joe Jackson.

beaten 10 to 5, but they scored three runs in the last of the ninth and had three men on bases with none out," says the Sporting News.

"The Buffalo catcher hit a ball that seemed to travel about a mile. It fell foul by two or three feet, but the umpire called it a fair, and four runs scored.

"We kicked on the decision. The umpire said: 'Well, I don't want to see my home town boys lose, and I don't want to cheat Greens, so I'll compromise and call it a double.' That just beat our team."

Mack is Not Worrying.

Connie Mack says he is not worrying a bit over the chances of his men to win out in the end. It is a long stretch from now to the end of the season and many things are likely to happen in the meantime.

## Family Enough.

Horace, five years old, has a brother nine, and a sister three, and with his father and mother, he deemed this family large enough. When, therefore, he was told by his aunt that a little baby was to be added to the family, he protested:

"I think papa and mamma might better spend their money for more strawberries and powdered sugar for me," he observed, indignantly.

On a certain day a doctor came to the house and Horace thought he knew what that meant. His spirit of revolt nearly got the better of him, however, when a second doctor came.

A few hours later, after the doctors had departed, his Aunt Ella told him he had a new little brother. Horace brightened, and tiptoed to his mother's room. "It's all right, mamma," he assured her. "There's only one."

## ITCHING AND BURNING SKIN

"About three years ago I was attacked with a very severe itching and burning all over my body and finally my skin broke until my body looked like a piece of raw meat. I did believe that I could not stand the torture any longer, while all the time I was using the salve and the wash ordered by my physician without relief. When I was advised to go to a skin specialist I went with no better results. My body was covered with large white scales, with scales on my hands, arms and lower limbs. In about one week my scalp was covered with scales which looked like dandruff but became worse each day until at the end of another week the scales were as large as on a fish. The itch in my head was unbearable. My hair was coming out in clumps until it looked so bad I was ashamed to go on the street.

"I used tar soap for a shampoo, but it took no effect. At the end of three weeks the back of my head was completely bald. I was a sight when I decided to try the Cuticura Ointment for the hair, and when I saw the wonderful results I decided to try the Cuticura Soap and Ointment on my body. After taking six baths in hot water with plenty of Cuticura Soap, and using three boxes of Cuticura Ointment and one bottle of Cuticura Pills, I was cured. My hair has grown more than an inch in length.

"Before using the Cuticura Soap and Ointment I lost all of my finger nails and my hands were so sore I could not put them in water. If I had tried them sooner I would have saved a few hundred dollars." (Signed) Mrs. K. Detlefson, 651 Knickerbocker Ave., Brooklyn, N. Y., Jan. 24, 1911.

Although Cuticura Soap and Ointment are sold everywhere, a sample of each, with 32-page book, will be mailed free on application to "Cuticura," Dept. 16 K, Boston.

## ALL OFF.

The Big Boy—What did yer girl give yer at Christmas, Bill?

The Little Boy—De mitten.

Cruel Disappointment.

Jugend tells this story: "In the lower court of a small town in Saxony William had served faithfully and well as attendant to the presiding judge for many years without ever having received any reward aside from his legal stipend. On the day of adjournment for the season, when visitors had retired, the judge, who was also about to leave, asked: 'William, do you smoke?' Seeing a square box under the judge's arm, he answered respectfully: 'Yes, your honor.' 'I knew it by the smell of your coat,' said the judge, as he walked out."

## WELCOME WORDS TO WOMEN

Women who suffer with disorders peculiar to their sex should write to Dr. Pierce and receive the advice of a physician of over 40 years' experience—a skilled and successful specialist in the diseases of women. Every letter of this sort has the most careful consideration and is regarded as sacredly confidential. Many sensitively modest women write fully to Dr. Pierce what they would shrink from telling to their local physician. The local physician is pretty sure to say that he cannot do anything without "an examination." Dr. Pierce holds that these distasteful examinations are generally needless, and that no woman, except in rare cases, should submit to them.

Dr. Pierce's treatment will cure you right in the privacy of your own home. His "Favorite Prescription" has cured hundreds of thousands, some of them the worst of cases.

It is the only medicine of its kind that is the product of a regularly graduated physician. The only good enough that its makers dare to print its every ingredient on its outside wrapper. There's no secrecy. It will bear examination. No alcohol and no habit-forming drugs are found in it. Some unscrupulous medicine dealers may offer you a substitute. Don't take it. Don't trifle with your health. Write to World's Dispensary Medical Association, Dr. R. V. Pierce, President, Buffalo, N. Y.,—take the advice received and be well.

"Please tell me your name and address?" asked the depot reporter of a middle-aged negro.

"Ah, Mrs. Cat'ah from Co'fo'."

"Whom have you been visiting, Mrs. Carter?" she was asked. "Ah, been visiting de ole co'ld woman down de track heah a couple blocks fo' about a week. Ah can't just 'member her name."—Success Magazine.

A Complication.

Bessie found getting well much more tiresome than being sick. She was becoming very impatient about staying indoors and eating soups.

When her aunt asked her how she felt she replied that she was much worse; that the doctor had found something else the matter with her.

"Why, what is it?" asked her aunt. "I think the doctor said 'convalescence.'"

## A TERRIBLE EXPERIENCE.

So Weak From Kidney Trouble She Could Not Arise in Bed.

Mrs. H. W. Bowles, 14 Ellis St., Augusta, Ga., says: "Kidney trouble came on me with terrible, burning pains through my back that so weakened me I could scarcely walk. Kidney secretions were filled with sediment, sluggish and very unnatural. I became so helpless I was compelled to take to my bed and could not arise without assistance. I was in despair as neither doctors nor the various remedies I used helped me. In the last, Doan's Kidney Pills helped me immediately and made me a strong, healthy woman. I have been well ever since."

The Wreck.

Mrs. Ronald H. Barlow, the eastern golf champion, was talking at the Cape May Golf club about the benefits of sea air. "To look at the cottagers and natives of Cape May," she said, "speaks of these benefits more eloquently than I could do. How pale and wan seem city people beside these brown, supple, vigorous men and women! An excursionist from the city said to a fisherman on the beach the other morning:

"Do you have any wrecks here?"

"The fisherman looked contemptuously at the city man, who was in bathing dress. He looked contemptuously at his hollow chest and white, thin legs and arms, and then he replied: 'You're the fust I've saw this season.'"
