VERSATILITY IN THE ARMY.

Is there anything that cannot be done by officers of the United States army? And done exceptionally well? There is nothing. For example, take Colonel Goethals and watch him construct the Panama Canal with ease and grace after various civilians had tried their hands at the job without schieving any glittering success. Then take the five bachelor lieutenants at Fort Scriven, Georgia, who gave a chafing-dish party, the particulars of which we find in the Army and Navy Journal. It was a surprise party. It was given in the Bachelors' Club. The service publication which makes known the achievements of these heroes justly remarks that "a great deal of praise is due the bachelors for having given such an elaborate party without the assistance of the ladies of the post," says the Chicago News. For example: "The dining-room and den, in themselves very handsome, were lavishly decorated with carnations and ferns. The beautiful pale pink flowers were massed in profusion on the mantel and library table in the den. In the dining-room a large vase, filled with the same gorgeous flowers adorned the table. As a souvenir of the occasion a large bouquet, tied with pink tulle, was presented to each of the young ladies present. A delightful Weish rabbit was served with dainty sandwiches, and a mild punch was served during the evening." Is it not plain that these bachelors are artists and poets as well as warriors? What bachelor outside the service could tie a bow of pink tulle around a bouquet? Doubtless, also, any one of the five, like Cyrano, could compose a ballade while preparing to transfix an enemy on the point of his service sword. Gentlemen, a toast, standing, to the army men who can concoct a Welsh rabbit which will not kill either at close or long range.

\*A little harmless flirting with nice people with whom you are acquainted will do much to rest the tired mind after the arduous duties of the schoolroom." This is one of the suggestions to young women schoolteachers made by an elderly lady on relinquishing detectives were notified and Mills' arher position as teacher in the Boston public schools after 49 years' service. "Be a live wire every minute, and don't eat too much," is another bit of advice. This kind of advice from a learned and experienced school "marm" will make most people "sit up and take notice," for in our opinion it is much worse than indiscreet, to say the least, says the New Orleans Picaqune. As a cure for brain fag. flirting is entirely new to us, though some years ago we heard it highly recommended for other allments, and we thought it pleasant to "take." Steamship Officials Near Canal Zone Adopt Drastic Measures.

Washington .- Some of the vessels touching at ports of the Panama Canal Zone are resorting to unique and drastic measures to discourage stowaways, a great number of whom in the past few weeks have attemped to reach the zone. The crew of a ship bound for Colon recently discovered several stowaways aboard. painted their heads and faces with red lead as a warning to others, and then landed them at the port from which they came.

As a result of extreme vigilance on the part of steamship officials, vessels are now entering the canal ports practically free of stowaways.

HAD KILLED A POLICEMAN.

Desperado Taken Half a Mile Out of Town--Makes Piteous But Vain Appeal For Mercy.

Coatesville, Pa .- Zachariah Walker, a negro desperado, was carried on a cot from the hospital here Sunday night and burned to a crisp by a frenzied mob of men and boys on a fire which they ignited about a half mile from town. The negro, who had shot and killed Edw. Rice, special policeman of the Fort Worth Iron Mills Saturday night, was first dragged to the scene of the shooting, begging piteously for

He had been arrested by a posse Sunday afternoon after a search which had stirred the countryside. When the posse finally located him he was found hiding in a cherry tree, and with the last bullet in his revolver shot himself in the mouth, falling from the tree. He was removed to the hospital and placed under police guard.

A few minutes after 9 o'clock, a crowd numbering almost 1,000 persons appeared at the hospital. The leaders were unable to gain admission, but quickly smashed the window frames and crawled through the corridor. A policeman, who had been placed on duty to watch Walker, was the only person in the building besides the nurses and patients.

The leader of the mob placed his hands over the policemen's eyes, while others, who had entered the building, set about to take their man from the hospital. When Walker was taken to the hospital he was strapped down in order to prevent his escape. The mob seeing this gathered up the bed and, placing it on the shoulders of four men, started for the country.

The negro was begging piteously to be released, but his pleadings fell upon deaf ears. A match was placed to the pile of grass and the flames shot up quickly, entirely enshrouding the screaming victim. That not a vestige of the murderer be left. the mob tore down the fence along the road and piled the rails upon the burning negro.

The lynching was accomplished only after the negro, mad from pain, had leaped from the blazing pyre built over him and tried to escape, dragging the bed to which he was bound by his bandcuffs. The mob leaders beat him with fence rails and forced him, shricking, back into the flames. NATIONAL FOOD PROSE BEGUN. Third of its Kind Will Cover Period

of Nine Months. Washington .- A country-wide investigation of the wholesale and retail prices of all foods, which will require nine months to complete and which will represent the most thorough inquiry of its kind yet attempted, has been begun by the Department of Commerce and Labor.

This investigation will cover the years 1908, 1909, 1910 and 1911. By comparison with records of the Department of Agriculture for the same period it will be possible to know just what prices were paid for every commodity now used, from the time it left the producer until served at the table of the consumer.

The present investigation is the third of its kind attempted by the Department of Commerce and Labor. Four experts, under the direction of F. V. Croxton, are now touring the country in search of data. Over all of the experts is A. W. A. Hanger, chief statistician, to whom the records will be first submitted before they are published.

Whether the data of this investigation will be made the subject of Congressional inquiry into the high cost of living or will be turned over to a committee of experts, who will seek from the figures at their command to evolve the solution of the high price of foods, will not be determined until some time next winter, when the report will be made

Carlisle.-The discovery of coal in the South Mountain, a few miles south of Carlisle, within the last few days, has caused quite a sensation here. While drilling for water on property leased from George Tanger, of Hatton, Pa., by Chester C. Bashore, of the Holly Sand Company, the latter company has run through a vein of coal for twenty-two feet which represents a deposit of what Chemist Wilbur F. Horn, of Carlisle, says is semi-bituminous coal of a quality something similar to the Clinton county, Pa., product. Dr. Horn has made careful analysis of the coal and believes that it is of great value. The samples partake of the qualities of asphaltum and burn like a petroleum product, Mr. Bashore, the lessee, is a local attorney. The find was entirely unexpected, although a member of the Ahl family, whose estate in the South Mountain was extensive years ago, said that some traces of coal were found three decades ago.

Pittsburgh.-Adeline Fraser, alias Smith, and Kathryn Harmen, two young women from Hazleton, who were arrested several weeks ago, charged with shoplifting at three different department stores here, pleaded guilty before Judge Davis and they were placed on parol for one year.
