Nebuchadnezzar was a great general in 605, in his first selge of Jerusalem, and became sole emperor B. C. 604. He made Babylon glorious during his reign of 43 years. He was in his 18th year when he began this siege.

Jerusalem was at this time a city of 20,000 inhabitants. Against the huge engines of Asiatic warfare the besieged citizens constructed counterengines; and the struggle was worthy of the occasion-a combat or duel not only of courage, but of skill and intelligence, between Babylon and Jerusalem. Houses were demolished, that new walls might be built of their materials, inside each spot weakened by the battering-rams.

The ramparts were vigorously defended by archers and slingers, equal in bravery to those of the Chaldeans. The rams were caught, when possible, by doubled chains or ropes to weaken their blows, or, if it might be, to capsize them. Lighted torches and firebrands were thrown on their roofs and on those of the catapuits, to set them on fire. The gates of the town were zealously defended against the efforts of the enemy to burst them open or to burn them.

At last there was no food for the people, and famine prevailed.

The houses were full of the sick and wounded; bloody fights between contending parties, as to surrendering or holding out, crowded the streets with fresh horrors; the roar of the siege night and day filled the air. A breach was made in the city, at midnight. The princes of the king of Babylon

came in, the generals and high officials, Nebuchnezzar himself was at Riblah in Hamath and the Chaldeans burned the king's house, and the houses of the people, with fire, and brake down the walls of Jerusalem. The king of the Chaldees slew their

house of their sanctuary, and had no compassion upon young man or maiden, old man, or him that stooped for and that, considering that we have age; h; gave them all into his hand.

And they burnt the house of God. They slew the sons of Zedekiah before his eyes, so that the last things his eyes ever saw, a perpetual memory, were the agonics of his sons, and of his friends, all the nobles of Judah. They put out Zedekiah's eyes. He

Cement Talk No. 2

Portland Cement does not come from Portland, Maine, or Portland, Oregon, and it was not first made at either of these places. It is called Portland because it was given this name by the Englishman who first made it. He called it Portland because he thought it resembled certain natural deposits on the Isle of Portland in England. Portland Cement is the fine powder produced by pulverizing the clinker resulting from the burning together of various materials of proper chemical composition. In the case of Universal Portland Cement, these raw mater ials are blast furnace slag and pure limestone. There are many brands of *Portland Cement* on the market, produced by different manufacturers. Universal is one of the best known and highest grade Portland Cements. You can always tell it by the name Universal and the blue trade mark printed on each sack. Forty million sacks of Universalare made and used yearly in this country If you have any concrete work to do, you will make no mistake
