McConnellsburg, Pa.

HUNTING WORK IN SUMMER.

A graduate of the University of Minnesota has asked the New York Post and the Chicago Tribune to air his reasons why commencement should be held in the fall instead of in June. He left school in June with such honors as Phi Beta Kappa dangling from his sheepskin, but, like Dawson, '11, says he has found no work yet. He blisters the paper with a scorching argument that summer is not the psychological time to find employment. But suppose this young man had been released from the classroom and campus along in September and had to traff the jobless route for the following six months, would be not, along about the holidays, deplore a bleak world's unkind worldliness? Would he not prefer to be knee deep in summer, when, if he had to remain idle, he could at least retain a degree of physical comfort? The trouble. with too many of these present-day graduates is that they emerge from the dear old alma mater thinking destiny has a greater career carved out than is really in store for them; they are not willing to begin at the bottom, says the Indianapolis Star. Scholastic training is the greatest asset a young man can carry as he strikes out for himself, but with it he must have the determination to begin with little things if me hopes ultimately to reach greater things. A college degree is not always a passport to the presidency of a big industrial corporation, though it is oftentimes a condition precedent.

Following the store robbery and shooting of a policeman in Cleveland by a boy, inflamed by stories of Wild West life and highwaymen, a councilman of that city has introduced an ordinance prohibiting the sale of trashy and immoral books to the youth. There should be such legislation in every city, says the Ohio State Journal. We spend millions to educate a boy right; why not do something to keep him from being educated BITTER ON DR WILEY'S FOES wrong? We have laws to prevent people from poisoning their bodies; why not a regulation to restrain them from poisoning their minds? To give a boy a book that will make a highwayman of him is a black offense that should not be permitted. It is an attack on society that society should not tolerate. We are greatly excited upon the question what schoolbooks shall be furnished the children. We should be a great deal more excited upon the question of keeping harmful books away from them. Ordinances are needed for this purpose. There is a vast amount of bad citizenship made by bad books, and there are stacks of bad boys.

hen to charge that she could lay about year, and is therefore slothful. It is unbelievable that the American Poultry association is responsible for this reflection on her powers. The truth is, the hen's egg output is automatic, being regulated by the treatment her This Time It is Bamed on Result owners give her. On a proper diet, which includes shell-making material, she works with great diligence, according to her breed. If she is expected to pick up a living about the barnyard and to keep herself warm in exposed winter quarters, her tally natprally suffers. The hen is a gold mine only when her owner co-operates with

The new minister of war in France. M. Messimy, is growing unpopular with the French officers. Taking an Illustrious American exemplar, he has issued an order that the examination for promotion to generalship shall include severe physical tests, and atother by which corps commanders are to report officers who are unfit to take the field. Any one who has seen an army review in Paris, say July 14, and observed the fat generals jolting like jelly in their saddles, will sympathize with M. Messimy's efforts.

Every dweller in tropical or semitropical countries knows that windows and doors should be closed in the early hours of the morning, and not opened again until sunset if the house is to be kept reasonably cool throughout the day. They are opened widely enough to the breezes of the night, but dark blinds and closed shutters are the secret of keeping the temperature low. However, one can never convince an Englishman of this fact unless he also has seen its demonstration abroad.

An interesting sight in London is one of the great periodical sales of raw skins and furs held at a fur warehouse in the city. The magnitude of the trade and the vast amount of money involved would surprise any one who visited one of these sales for the first time. At the premises in property. It is estimated that 50 Great Queen street one can wander from floor to floor piled with thousands upon thousands of skins until one begins to worder where all the creatures they once clothed lived.

JEERED TO FLY BURNS TO DEATH

Frank Miller, a Young Aviator, Meets His Doom.

CROWD CALLS HIM COWARD

People on the Fair Grounds at Dayton, O., See the Man Enveloped in Flames From the Biazing Gasoline Tank.

Dayton, O .- Forced into the air by jeers by thousands who called him a coward, Frank H. Miller, aged 23, a Toledo (O.) aviator, shot into the sky at twilight Friday evening and at the height of 200 feet was burned to death before the eyes of the terrified spectators on the Miami County Fair Grounds, at Troy, north of

Miller had circled the racetrack and was just starting on a spiral glide into a neighboring cornfield when something went wrong. He could be seen making a frantic attempt to get his machine under control, when suddenly the whirring of propellers ceased. The craft then dropped like a shot for a distance of 50 feet.

A tiny blue flame was emitting from the engine and in an instant the gasoline tank exploded. The machine was wrecked by the impact feet in all directions, what remained ing almost to a crisp as they dropped rapidly to the earth.

It was Miller's second flight of the day and the fifth and last of the week. In a short flight shortly after noon his machine acted unsteadily and he did not care to go up. The crowd jeered him in the afternoon when he said he would not make a flight and in the evening he went into the air. "Let her go, I'll be glad when this is over," he shout- lution are contemplated. ed to his mechanician. Miller used a Strobel biplane.

La Follette Calls for Dismissal all engaged in Case.

Madison, Wis .- In a bitter editorial in the last issue of La Follette's magazine, Senator La Follette demands the retirement of the plotters who sought to oust Dr. Harvey W. Wiley. In part he writes:

"The charge against Wiley was a pretext to get the vigilant and honest chief chemist. It collapsed under the broadside of publicity. * * Solicitor McCabe must go.

"Secretary Wilson may be forced to retire. But it would be a sorry perversion of justice to drop Wilson and keep Wickersham. Wilson has value has been replaced in recent removed from the positions of honor struction, betterment, depreciation, and trust which they have be- etc. smirched."

RISE IN FOOD STUFFS.

in Canada.

Chicago.-Foodstuffs which might have been affected by an influx of Canadian products had Laurier and his government not been defeated in Canada Thursday, rose sharply in prices in all American supply centers Friday. Wheat led the advance and was followed late in the day by flour, when millers ignored their previous price lists and adjusted their quotations to figures more commensurate with the advanced cost of the grain

Oats, too, felt the effect of the Canadian vote and as a result consumers may expect soon to pay increased prices for breakfast foods. The initial meal of the day, in fact, seems destined to bear the brunt of higher living costs within the next few months, as it needed only today's developments in the trading pits to add force to the recent advances in coffee and sugars. The consumer's toast and biscuit wheat cakes and porridge, it is probable, will but add to the woes of the housekeeper.

Sherman Will Recover.

San Jose, Cal.-The condition of the Rev. Thomas Ewing Sherman, 8. J., head of the Chicago Province of the Jesuits, who was committed to an insane asylum Wednesday after an attempt at suicide, was reported Friday to be improving so that an early recovery is probable. Dr. E. W. Mullen, of the Agnew State Hospital, where Father Sherman is confined, said after passing several hours with him all that was necessary was complete rest.

Fifty Perish in Storm.

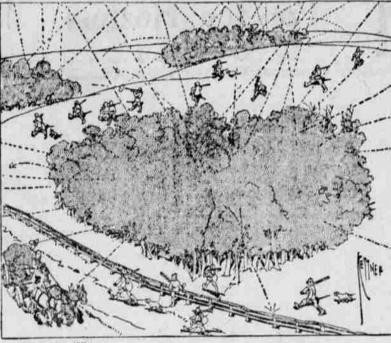

Naples.-A hurricane of great violence and accompanied by a deluge of rain raged throughout the Vesuvian region, causing a heavy loss of life and enormous damage to persons were killed. Houses were razed by the wind, while others were inundated. Numerous boats in the Bay of Naples are missing and are believed to have been sunk.

It is impossible as yet to estimate the total damage done by the storm.

Another Aerop'ane Test.

Washington.-Aeroplanes are soon to be put to a further severe the filers without endangering the machine and the lives of its operators. Sergeant M. Idsereick, an ex pert on explosives, has been ordered from San Diego, Cal., to the Army Aviation School at College Park,

A PEST THAT NOW INFESTS THE COUNTRY

Billion-dollar Steel Corporation Planning to Dissolve-- Problem a Difficult One.

New York.-It was reported here on excellent authority that the matter of dissolving and reorganizing the Laurier Government Defeated United States Steel Corporation is receiving the earnest attention of the Department of Justice and the legal and debris was hurled hundreds of representatives of the so-called "Billion-dollar Trust. ' There is ground of the machine and its driver burn- also for the assertion that the Steel Corporation is making a strenuous effort to meet the demands of the government, but by reason of the complexity of the situation little headway has yet been made.

Chairman E. H. Gary declined to discuss the status of affairs, and Francis Linde Stetson, the corporation's general counsel, would not affirm, nor deny the report that negotiations looking to a voluntary disso-

To those who have followed the operations of the United States Steel Corporation since its inception a decade ago the work of disintegrating and reorganizing the largest industrial combination over organized represents a task of titanic proportions. Many of the subsidiaries which helped to make up the corporation have lost practically all semblance of their original selves, and in the opinion of dispassionate observers it would be well-nigh impossible to restore original equities.

It is a matter of common knowledge that a large part of the \$500,-000,000 common stock originally represented little more than bonuses, or water. On the other hand, it has been admitted by government investigators that much of this inflated

BUTCHERED IN THEIR BEDS HAY RACK RIDE

Two Femilies Exterminated at Colorado Springs--Heads Smashed With Ax.

Colorado Springs, Col.-Butchered in their beds by some person as yet unknown, who used an axe, the bodies of six persons, three in each of two neighboring houses, were found here Wednesday. The heads of all the victims had been smashed in and the appearance of the bodies indicated that they had been dead several days, and that death came while they slept.

A report says that the murderer has been caught and that he has confessed, but this is denied by the police officials, who, it is intimated, fear a lynching might follow such an announcement. An axe which had been loaned to Mrs. Henry F. Wayne, one neighbor, last week, was found blood stained by Mrs. Evans on Monday near the back door of the Wayne home. No attention was paid to this fact, however, as it was thought the axe had been used in killing chick-

ENDS IN DEATH

Fast Train Dashes Into Party of Merrymakers.

SIX BODIES ON ENGINE PILOT

One Victim Hurled Over a Barn Fifty Feet From the Railroad Track-Thirteen Killed, three Others Will Die.

Neenah, Wis., Sept. 24 .- Thirteen persons are dead, three others are dying and five are seriously hurt as of the victims, by J. R. Evans, a the result of a fast train on the Chicago and Northwestern Railway, early Sunday morning, crashing into a hay rack, on which a party of 31 merrymakers were returning from a celebration. A big billboard beside the railway tracks obscured the view from the locomotive, as well as from Mrs. Alice May Burnham, wife of the wagon. Dust and fog were contributory causes to the tragedy. Nine members of the party escaped without a scratch. Nobody on the train suffered except from a momentary severe jar. The collision occurred at 3.40 A. M. at the Commercial street crossing here. Train No. 121, northbound, whirled through the wagonload of singing and happy people, who were returning from the Peter Hanson farm, where they had gone to attend the celebration of a wedding anniversary. All but two, who were Chicago men,

were residents of Menasha. Armless, legless and headless bodies covered the right of way, as the train, nine coaches in length, was brought to a stop 800 feet from the scene of the crash. Several of the bodies were so badly mutilated that identification was possible only by fragments of clothing. Six bodies were discovered on the engine pilot and two other bodies were hurled through a flagman's shanty with such force as to overturn the structure.

Unde wood Doesn't Balleve Next Session Will Consider It.

Birmingham, Ala .- "I do not believe anything will be done in the next Congress over the proposition of Canadian reciprocity," said Chairman Underwood, of the House Ways and Means Committee, when asked what disposition would be made of

the matter. "The reciprocity act," he added. could hardly come into Congress unless the two Governments open negotiations, and this not being possible now, I do not believe there will be anything said or done."

FRANCE SENDS SECOND REPLY doning power. Two Nations Not Far Apart on Moroccan Question.

Paris.-The latest reply of the French Government to the German approved the arrangements that have proposals, which was approved Sat- been made under the direction of urday by President Fallieres, who received the Cab net at Rambouillet, was dispatched to Berlin by special

messenger. A semi-official communication says that the reply shows some slight divergence from the text of the German note, but adds that the changes are inspired by the general views expressed at the last conversation between Herr von Kiderlein-Waechter and M. Cambon.

Boy Scouts Condemned. Battle Creek, Mich .- The Michi-

gan State Federation of Labor in annual convention here adopted a resolution condemning the Boy Scouts, whether they be called by that name or Minute Men, Children of the Republic, or anything else. The resolution placed the federation on record as opposed to "war and all its trappings, and especially the Boy Scout movement, and, further, that the local unions affiliated with the State Federation of Labor to be requested to begin an active campaign to counteract the evil influences of this insidious movement."

His Testimony Was Satisfactory. Indianapolis, Ind .- Testimony of Thomas L. Lewis, former president and are not like bills for infected of the United Mine Workers of Amer-

ica, given before a special committee investigating the alleged disappearance of thousands of ballots cast in the last election for president of the organization, was "entirely satisfactory," according to Charles Baker, of the Kentucky district, member of the committee. It was announced that port of the findings to the National thersburg; Treasurer, E. F. Burnett Executive Board.

To Succeed Senator Frye.

Portland, Maine.-Obediah Gardner, of Rockland, was appointed United States Senator to succeed the late William P. Frye. Mr. Gardner was the Democratic candidate for Governor of Maine in 1906, and an aspirant to the Senatorship before the Legislature at its session in January, when Charles F. Johnson won the honor. Governor Plaisted appointed Mr. Gardner assessor for the State for six years, and he has been engaged in that office since April.

Higher Than War Prices. New York .- Prices of food products are soaring so fast that it is freely asserted in wholesale circles that within another month the altitude record of a year ago would be exceeded, and that by the first of the year the necessities of life would be out of reach of the common people, Wholesale dealers made no effort to minimize the situation. It is most serious, they say, and few had any reasonable excuse or explanation to

STATE NEWS

State Sues Town

Suit for recovery of fines to the

amount of \$42,150 for violation of

the State purity of streams act of 1905 was brought in the Dauphin County Court here by the Attorney General's department against the borough of Jeanette, Westmoreland County. The suit is for the largest sum ever claimed for such violations, and is brought at the instance of the Commissioner of Health on the ground of alleged disregard of notices to obtain permits for extension of sewers and to file plans. Under the terms of the act all municipalities must obtain authority from the Commissioner of Health for extension of sewer systems under penalty of \$500 fine and \$50 penalty per day and must also file plans of sewer systems or pay \$50 fine. It is alleged in the statement filed that in February, 1907, the borough applied for a permit to extend sewers, but extended them without waiting for authority. Later this authority was granted, but subsequently new sexers were constructed into Brush Run without State sanction, although warnings to obtain permits were given. The statement claims the fine and \$50 daily penalty from June 1, 1908, for disregard of the requirements and a \$50 fine for failing to file any plans.

Gives \$25,000 For Orphans.

The State Council Jr. O. U. A. M. voted to make the council a representative body so that only delegates may vote and hold office. This action, which is the consummation of years of discussion, was carried by a close vote. The council voted \$25,-000 as a foundation for a fund for orphans of members of the order, with directions that it be added to vearly. Reports were received showing growth in the order, and a campaign to add 10,000 more members was inaugurated. Altoona was selected as the next place of meeting and the following officers were elected; State councillor, Thomas F. Ashford, Pittsburgh; vice-counciller, RECIPROCITY SHELVED A WHILE | Harry N. Selly, Holmesburg; treasurer, A. H. Leslie, Hoboken.

Actor To Escape Noose.

The State Board of Pardons has recommended to the Governor commutation of the death sentence of George L. Marion. Marion killed his wife in 1909 and was convicted in January, 1910, being sentenced to be hanged on September 28, after the State Supreme Court had affirmed the verdict of the lower court. At the hearing the plea was made that at the time of the murder Marion was insane, and members of the jury, prosecuting officials and experts for the State joined in stating that it was a fit case for exercise of the par-

Unveil Barnard Statues October 4. The Barnard Statues Commission met here, with the Governor, and Chairman Robert R. Dearden for the ceremonies of the unveiling of the Barnard statues in front of the State capitol on October 4. An interesting announcement was made to the effeet that while the sculptor, George Grey Barnard, modestly decilnes to take anything but a spectator's part in the program, the commission has obtained the consent of his aged father, Rev. Jos. H. Barnard, to deliver the invocation. Some years ago the veteran clergyman expressed
