

**INTERESTING PARAGRAPHS**

Of Local and General Interest, Gathered at Home or Clipped from our Exchanges.

**CONDENSED FOR HURRIED READERS**

C. H. Mann, merchant at Salvia spent Monday in McConnellsburg.

Trespass notices at the News office. Five cents each or 6 for a quarter. May be sent by mail.

Mr. and Mrs. Howard Shimer and little son, of McKees Rocks, Pa., are visiting at the old home in this place.

Senator Alexander and Rev. Diehl are attending presbytery at Middlespring church Cumberland county this week.

50 acres land 20 in good timber Licking Creek township—house, stable, &c. Price \$450. Apply to George A. Harris, Agent.

James Sipes and J. Nelson Sipes, of this place attended the funeral of their brother Noah in Licking Creek township last Saturday.

Misses Arbie and Olive Rotz, and Murnie Marshall, of Tod township spent the past week visiting their many friends in Franklin county.

Mrs. S. N. Bumgardner and son Ross Correll, of Belfast township, were visiting the former's daughter, Miss Jessie Correll at D. E. Little's last Saturday.

Ralph Truax, executor of the estate of his father John S. Truax, of Belfast township, was in town last Saturday attending to business connected with the settlement of the estate.

James A. McElhaney and wife started on their wedding tour Saturday September 23rd and expect to visit Tyrone, Pittsburg, Harrisburg, and returned via Mercersburg. Good luck Mac.

Miss Maude Ott and cousin Pearl Booth returned home Saturday after having spent three weeks with the former's sister Mrs. G. H. Knotts in Altoona, and their aunt Mrs. W. B. Karns at Everett.

Mrs. D. W. Myers (Aleba Hays) of Hancock, Md., spent the time from Thursday in the home of her brother Geo. W. Hays of this place. Mr. Myers came up Saturday and accompanied his wife home Sunday.

The marriage of Miss Jessie Logan Dickson daughter of William S. Dickson of this place, to Mr. Karl De Schweinitz, will take place at the home of the Misses Robinson, Mount Vernon St., Philadelphia on Wednesday, October fourth.

The Trustees of Juniata College Huntingdon, Pa., announce that Prof. J. Harvey Brumbaugh, who has been serving as Acting President of the College, has been elected President, and has entered upon his duties with the opening of the college year, 1911-12.

The implicit confidence that many people have in Chamberlain's Colic, Cholera and Diarrhoea Remedy is founded on their experience in the use of that remedy and their knowledge of the many remarkable cures of colic, diarrhoea and dysentery that it has effected. For sale by all dealers.

Mr. and Mrs. Foster Bolinger, and little daughter Blanche, of Jacobs, Huntingdon county, were visitors in the home of Mr. and Mrs. Isaac Bolinger on the Keziah Johnston farm in the Cove from Saturday until Monday. They were pleasant callers at the News office Saturday evening.

Few, if any, medicines, have met with the uniform success that has attended the use of Chamberlain's Colic, Cholera and Diarrhoea Remedy. The remarkable cures of colic and diarrhoea which it has effected in almost every neighborhood have given it a wide reputation. For sale by all dealers.

Roy Sipes, of Licking Creek township was in town last Saturday. Roy was not in his usually good physical trim, for on the Monday preceding he had a little accident that nearly put him out of business for a few days. He was helping to load a wagon with hay, when his foot slipped and he was thrown across the hind wheel of the wagon sustaining a painful bruise.

Mr. and Mrs. Foster Bolinger, and little daughter Blanche, of Jacobs, Huntingdon county, were visitors in the home of Mr. and Mrs. Isaac Bolinger on the Keziah Johnston farm in the Cove from Saturday until Monday. They were pleasant callers at the News office Saturday evening.

**Cider Making.**

The undersigned will make cider at his home near Jugtown school house Tuesday of each week for two weeks and then Tuesday and Wednesday only. NICK HOHMAN.

**Waterfall Cider Mill.**

The Cider Press at Waterfall will begin operating on Wednesday, August 9th, and will be in operation on each succeeding Wednesday during the season.

**Men's Meeting.**

There will be a meeting of men only on next Sunday, October 1st at 3:00 p. m. in the M. E. Church of McConnellsburg. The meeting will be addressed by Mr. Warden, the Evangelist. Come and bring a friend.

**Forced to Leave Home.**

Every year a large number of poor sufferers, whose lungs are sore and racked with coughs, are urged to go to another climate. But this is costly and not always sure. There's a better way. Let Dr. King's New Discovery cure you at home. "It cured me of lung trouble," writes W. R. Nelson, of Calamine, Ark., "when all else failed and I gained 47 pounds in weight. Its surely the king of all cough and lung cures." Thousands owe their lives and health to it. It's positively guaranteed for Coughs, Colds, LaGrippe, Asthma, Croup—all Throat and Lung troubles. 50c and \$1.00. Trial bottle free at Trout's Drug Store.

**LAUREL RIDGE.**

Mrs. Margaret Lynch and Mrs. Robert Mellott spent last Thursday with Mrs. Margaret Richards. Our farmers are now busy sowing wheat.

The institute held at Laurel Ridge was well attended and the best of order prevailed.

Some of our neighbors seem to be kept busy smoking candidate cigars.

There will be a song service at Laurel Ridge next Saturday evening, and preaching Sunday morning at 10:30 o'clock.

Mrs. Bruce Miller and Rachel Gordon spent Tuesday in McConnellsburg attending to business.

Stanley Humbert spent Friday afternoon with Robert Mellott and family. Stanley is getting along nicely.

Misses Jeanette Stouteaigle and Flore Shives spent Saturday afternoon and Sunday at N. H. Evan's.

We have now added to our Sunday School a Cradle Roll and a Home Department which will be of great interest to the older folks.

Nellie Hess spent Saturday and Sunday with her mother Mrs. Jacob Clouser.

Jessie Mellott has returned home after having a very pleasant visit with her sister Mrs. George Keefer.

The talk is now a new organ for the new church at Laurel Ridge. We hope they may be successful.

Dottie Richard spent from Friday until Sunday with Mrs. Harry Bivens.

Dayton Shives is spending a few days with B. F. Shives and wife.

Some of our young gentlemen are sporting a new buggy. "Look out, girls."

Robert Mellott and wife spent Sunday at Jacob Gordon's.

Rosie Everetts, who had been at Hagerstown, is spending a few days with her friends here.

Henry Trott spent Sunday at Reuben Hull's.

Our school is progressing nicely under the skillful care of Jeanette Stouteaigle.

Bruce Miller called at Jacob Gordon's Saturday evening.

McCauley Pittman's baby is very sick at this writing.

Among those who called at Robert Mellott's Sunday evening were: Henry Trott, Reuben Hull, Flora Shives and Jeanette Stouteaigle.

Jack Pittman and Alvah Williams called at B. F. Shive's Sunday.

**A Dreadful Sight**

to H. J. Barnum, of Freeville, N. Y., was the fever sore that had plagued his life for years in spite of many remedies he tried. At last he used Bucklen's Arnica Salve and wrote: "It has entirely healed with scarcely a scar left." Heals Burns, Boils, Eczema, Cuts, Bruises, Swellings, Corus and Piles like magic. Only 25c at Trout's Drug Store.

**CLEAR RIDGE.**

Miss Maud M. Fields, who had spent some time in Johnstown, returned home one day last week, much pleased with her trip.

The farmer is now a very busy man. The rains have thoroughly soaked the ground and put it in fine shape for plowing, and all are now busy getting ready to place another crop.

Mr. and Mrs. Calvin Henry rejoice in the advent of a little son into their home.

From present indications the drought which has been wide spread since the last of April, is at last broken. We have been having copious showers which should add much to fall pasture, late corn and vegetables.

Mr. David Wallace, Mr. and Mrs. John Shock and their son Master George—all of Altoona, spent from Wednesday until Saturday very pleasantly visiting in the home of Mr. and Mrs. George Taylor. Mr. Wallace is a brother of Mrs. Taylor.

Andrew L. Keys and Miss Lulu Kerlin of Tyrone, are visiting the Fraker and Kerlin families at this place.

James Appleby and son John, of Decorum, spent Sunday with his father-in-law Nathan B. Henry.

W. L. Fields is building himself a new wood house.

Harry Mort's new house is ready for the plasterers, Daniel Henry's new house is near completion. The houses of both these men were burned about a year ago.

E. S. Nead has been working at Cherry Grove.

Johnsey Kerlin, of Fort Little ton called on his nephew A. G. Kerlin last Saturday.

Mrs. Horace Grove was a Wednesday visitor at Mrs. W. L. Fields.

Nell Baker, and Glen and Minta Miller, were visitors of Mertie Shore one day recently.

Baby Loe Fields spent Saturday with his grandparents W. L. Fields and wife, as did also Emma Grove and Elsie Mort in the Fields home.

G. C. Fields and wife were Saturday shoppers at the County Seat.

Clair Baker and Blair Barton have been having tooth ache.

John F. Clippinger, who has been a soldier boy the past three years, and son of Solomon Clippinger formerly of this place but now of Fannettsburg, accompanied by his sister Sadie, visited the Winegardners. Frank thought his vacation and home visit would not be complete without visiting the home of his childhood. He says he likes soldier life and is going to re-enlist. From here they went to visit in the home of W. L. Moseby in Wells Valley.

Levi P. Morton is boarding at Calvin Baker's. Ward Berstreser is driving from his home at Waterfall to his school.

For once we are glad to state that none of our residents are sick.

A number of plum trees at this place are in full bloom.

Now that the schools are in session, pupils should make the best possible use of their time so that they may not later in life, regret not having taken advantage of their opportunities.

B. S. Winegardner is improving his property, by erecting an addition to his house and putting on new siding, new windows and porches.

A great deal of the corn about here is cut. It is a much better crop than was expected. Potatoes are the luxury this season.

Daniel Henry had a very sick horse last week.

A. J. Fraker and wife attended the funeral of Mrs. Foster Anderson at Center on Tuesday.

We learn Mrs. Thomas Ramsey and Mrs. Sheridan Ramsey have been suffering with tonsillitis.

Joseph Ramsey a boy who left this place about ten years ago, and no one knew his where abouts, has been heard from in California. He recently wrote his brother Howard, directing the letter to Clear Ridge. Howard operates a truck farm three miles from Waynesboro. The letter contained the information that he was living and doing well in a store in California. The sad part of the story is that his poor mother since his departure has gone to her grave not knowing if her boy was living or not. Boys, don't leave home without informing mother and write her a letter often.

Nine pupils from Taylor are going to the Dublin school here. Jacob Winegardner has installed a new telephone in his store.

Quite a number of candidates were registered at Hotel Baker last week.

**AVIATION IN CHAMBERSBURG.**

(Continued from first page.)

a thrust propeller (mounted in the rear, as on the biplane), the monoplane is pulled through the air steadily and surely, and with the least possible strain on the driving mechanism, and the greatest amount of motor energy is employed in the actual act of flight. That is to say, less horse power is wasted with the tractor screw than with the thrust propeller, and therefore that type of flying machine which uses the tractor screw must travel the more easily through the air.

It is an axiom so simple as to require no explanation, that the faster one flies the safer one is in the air. An aeroplane gets off the ground remains in the air, and returns safely to earth only through the medium of its speed, and the simpler the manner or mechanism by which this speed is applied, the safer the machine. So much for the abstract side of the question. Concrete illustrations will, perhaps, be more interesting to the reader.

That the monoplane is far safer than the biplane can be proved in no easier fashion than by quoting statistics. There are in France at the present time approximately 4,500 aeroplanes in active daily use (these figures were obtained from the Aero Club of France, Aug. 1). Of course 4,500 machines, approximately 3,700 are monoplanes and fewer than 800 biplanes, a numeral advantage of about four and one-half to one in favor of the monoplane. From the very beginning of aviation France has been a monoplane country, and yet the death toll shows that the fatal biplane accidents outnumber the fatal monoplane accidents about five to one. A combination of these two sets of figures would therefore seem to establish a ratio of safety of about 22 to 1 in favor of the monoplane.

But this is not all. France, the home, if not really the actual birth place of the aeroplane, is as far ahead of the rest of the world in aviation as the United States is ahead of all other countries with the railroad. This advanced position was earned by France because the monoplane was almost universally used among the French airmen. For it is extremely significant that not one single cross country race or tour where monoplanes competed against biplanes has ever been won by the biplane. The monoplane has always won, and it has in almost every instance been a fifty horse-power monoplane which was the victor.

Under the spur of Alfred Moisant's activities, other American manufacturers have had to offer their machines for sale without the numerous restrictions and royalty clauses that once attached to them, although even today the Moisant monoplane is the only machine whose bill of sale has no strings attached to it, the other American manufacturers still retaining a percentage interest in the earning of those who buy their product.

Aviation in the United States is bound to assume the same wonderful proportions that the automobile industry has. A decade ago, in its "get a horse" days, the motor car seemed to the public the most ludicrous and unreliable of vehicles. Today it stands fourth in value in the point of American exports, and the automobile export trade of the United States today leads the world. America has been slow in developing the aeroplane. There have been no such prizes either in number or size in this country as have been bestowed in Europe. Neither the American airmen nor the aeroplane manufacturer of 1911 has yet received the public encouragement that is bound to come to him with the development of the aeroplane industry during the next twelve months. There is every reason to believe that within eighteen months, at the most, the aeroplane business of the United States will be to the aeroplane business of this country today relatively the same as the automobile industry of today is to what it was five years ago.

Today it stands fourth in value in the point of American exports, and the automobile export trade of the United States today leads the world. America has been slow in developing the aeroplane. There have been no such prizes either in number or size in this country as have been bestowed in Europe. Neither the American airmen nor the aeroplane manufacturer of 1911 has yet received the public encouragement that is bound to come to him with the development of the aeroplane industry during the next twelve months. There is every reason to believe that within eighteen months, at the most, the aeroplane business of the United States will be to the aerop
