Beware of Ointments for Catarrh That Contain Mercury.

as mercury will surely destroy the sense of smell and completely derange the whole system when entering it through the mucous surface. Such articles should never be used except on prescriptions from reputable physicians, as the damage they will do is ten fold to the good you can possibly derive from them. Hall's Catarrh Cure, manufactured by F. J. Cheney & Co., Toledo, O., contains no mercury, and is taken internally, acting directly upon the blood and mucous surfaces of the system. In buying Hall's Catarrh Cure be sure you get the genuine. It is taken internally and made in Toledo, Ohio, by F. J. CHENEY & Co. Testimonials free.

Sold by all Druggists. Price, 75c per bottle.

Take Hall's Family Pills for constipation.

Attend to It Now.

Prof. H. A. Surface, State Zoologist, Harrisburg, calls attention to the importance of promptly destroying the remnants of garden plants and truck crops at this time of year, rather than leaving them in the gardens or fields until spring. If destroyed now, many of their pests are destroyed with them; if allowed to remain until spring, many of these pests have opportunity to escape.

The vines of potatoes, cucumbers, squash, melons, etc., should be raked together and thrown on dry straw or brush and burned. This gets rid of both the insect and fungous diseases lurking therein. The old asparagus plants should be cut off and burned, and straw spread over the asparagus bed and burned there on at once, to get rid of the asparagus beetles, and then the soil containing the asparagus roots can be well mulched with a cover or litter of any kind to protect them during the winter.

It is especially important that the stalks of cabbage plants and the imperfect heads should be removed and fed to swine or cattle, or kept in storage in a cold place to feed to poultry during the winter. Even the old stalks from which heads have been cut should be removed from the soil and treated as directed, above, or burned. Several kinds of pests are liable to be found upon these old stubs thereto. The best way to destroy them is to feed them to livestock or burn them.

Winter Spraying.

Pennsylvania's State Zoologist, H. A. Surface, is responsible for the statement that the spraying for the San Jose scale, Peach twig borers, Woolly aphis, Apple aphis, Tent caterpillar, Leaf blister-mite and certain other insects and diseases, which is generally done in the early spring, can be done just as well and effectively at any time while the trees are dormant, without any injury to the trees, if the proper material is used. He says that the best material for the destruction of these pests, and also one which is absolutely free from danger of injury to the trees is the concentrated lime-sulfur solution, either home boiled or commercial. If the latter is used it should be tested with a hydrometer, such as can be had, with full directions, from the Carbondale Instrument Company, to the specific gravity tests 1.03.

The home boiled lime sulfur solution is cheaper, and chemically the same as the commercial. It is made by boiling two pounds of ground sulfur of any kind in powdered form, with two pounds of fresh stone lime, and one gallon of water, for one hour. Use this proportion of material to boil a larger quantity.

Any vessel but copper can be used for the boiling, and requires no expert knowledge nor skill to make it. An iron kettle or galvanized iron wash tub will do very well as a boiling vessel. After it is boiled, strain it, and let it settle, and dip or drain off the clear red liquid, and store it in a barrel, or jug, or some other vessel that can be kept closed. When ready to use it, dilute it with about seven times its bulk of water, or to a hydrometer test of 1.03. It can be used stronger without any injury to any bush, tree or shrub when leafless, but if used weaker may not kill the scale.

The great advantage of this material is that it can be made during the winter, when one can not do other work, and can be stored and used at any time when needed. It is the same material which when diluted several times further is used as a summer spray to prevent injury by plant diseases.

Lightning Kills Few.

In 1906 lightning killed only 169 people in this whole country. One's chances of death by lightning are less than two in a million. The chance of death from liver, kidney or stomach trouble is vastly greater, but not if Electric Bitters be used, as Robert Madson, of West Burlington, Ia., proved. Four doctors gave him up after eight months of suffering from virulent liver trouble and yellow jaundice. He was then completely cured by Electric Bitters. They're the best stomach, liver, nerve and kidney remedy and blood purifier on earth. Only 50c at Trout's drug store.

Their Twenty-Fifth.

On Friday of last week, Mr. and Mrs. W. J. Moore completed their twenty-fifth year of wedded life. In the evening about twenty persons assembled at their home Sharpsburg, Pa., in honor of the happy event. Euclid, five hundred and music were the diversions of the occasion. An elegant supper was served.

Miss Moore's maiden name was Miss Susie Hull, and she lived in Fulton county, until she married Mr. Moore, who has been a life long resident of Sharpsburg. To this union one child, an accomplished daughter, Miss Elda, was born. Indeed, the Moore's is a happy family, and as host and hostess fairly excelled themselves upon their twenty fifth wedding anniversary.

At a seasonable hour the guests repaired to their respective homes, after wishing Mr. and Mrs. Moore many happy returns of the anniversary of their wedding day.

SALVIA.

We are glad to hear that Mrs. N. A. Mellott is getting better. John Hann has purchased a graphophone. They have a Nick elodeon two nights in the week—Wednesday night and Saturday night. Everybody welcome. Miss Lotte attends to the music.

Mrs. Howard Hann spent the time from Thursday until Sunday with her mother at Pleasant Ridge.

Harvey Strait is home again. Mrs. Beckie Hann has purchased a new buggy.

Things do not turn up unless somebody turns them up.

Minnich Mellott is sawing for Dick Mellott now.

It is quite lonesome along the pike since Mr. and Mrs. Howard and Mr. and Mrs. Rinehart have gone.

Edgar Hann had the misfortune to lose a fine horse last week.

John E. Moore has a horse for sale.

GRACEY.

The cold weather is freezing up the mud.

Miss Alice Cutchalls pent Sunday with her cousin Miss Helen Edwards.

There will be an institute at the State Road School Friday night Dec. 22nd.

Leslie Shaw and son Joseph spent Sunday in the home of his daughter Mrs. Charles Stinson, who is sick at this writing.

Leonard Berkstresser spent Sunday with his uncle E. O. Kesselring.

Isaac McClain has moved his shingle mill to Jesse O. McClain's near New Grenada.

Mrs. Aaron Knepper is suffering with cancer.

Those who visited Miss Mary Shaw on Sunday were: Ruth Strait, Jessie Cutchall, Addie Gracey, and Jennie Lamberson.

The Christmas entertainment at this place will be held at Mt. Tabor on the night of Dec. 25th.

Albert King lost two horses within the past two weeks.

The Portuguese government have a lot of perfectly good crowns on hands for which they have no more use. They also have a lot of costly junk such as rings, bracelets, swords, daggers, scimitars and other bejeweled baubles of the late monarchy. If any one has need of a few such things he is advised to correspond with the authorities at Lisbon.

The Ladies Aid Society of the Presbyterian Church will be at the same old stand (Patterson's Building) next Saturday afternoon from 1 to 5 o'clock with home made bread, rolls, pies, cakes, home made candies, and, last but not least, plenty of good chicken swallow which they will sell by the pint quart or gallon. Go early and get something to eat for Sunday.

Mrs. W. H. Elder and little daughter arrived here from Albany, N. Y. on Tuesday in response to a telegram informing her of the serious illness of her father S. M. Robinson, Esq. She reached home but a few hours before her father's death, but before he had subsided into unconsciousness.

We should feel ungrateful if we were not to express our appreciation of the fact that so many of our subscribers are advancing their subscriptions, and those who had allowed themselves to get in arrears, are paying up in great shape. Thanks, friends. It's money that makes the wheels go around.

J. L. Kope, and John Kann, of Burnt Cabins, were agreeable callers at the News office while in town yesterday. Mr. Kann, who sometimes carries the mail, has been off duty for several days on account of ill health.

H. S. Daniels, Esq., of Licking Creek township, was in town on business yesterday. Mr. Daniels expects to leave the farm and move into the property that he recently purchased on west Market street.

There has never been a season since its establishment, when so many persons have subscribed for the News as Christmas presents for some son, daughter, or other friend who has gone away from the home nest.

HOW THEY MEASURE TIME

Strange Methods Employed by Various Indian Tribes in Keeping the Time.

To ascertain the time at night the Apache Indians employed a gourd on which the stars of the heavens were marked. As the constellations rose in the sky the Indian referred to his gourd and found out the hour. By turning the gourd around he could tell the order in which the constellations might be expected to appear.

The hill people of Assam reckon time and distance by the number of quids of betel nut chewed. It will be remembered how, according to Washington Irving, the Dutch colonial assembly was invariably dismissed at the last puff of the third pipe of tobacco of Governor Roulton Van Twiller.

A Montagnais Indian of Canada will set up a tall stick in the snow when traveling ahead of friends who are to follow. He marks with his foot the line of shadow cast, and by the change in the angle of the shadow the oncoming party can tell on arriving at the spot about how far ahead the leader is.—Harper's Weekly.

THE AMERICAN FAMILY.

The American people, almost instinctively, have turned away from the old domestic policy. A large family implies a home in the old-fashioned sense, but the urban life of America necessitates a departure from the home as thus defined. The cramped apartment, with those ministering angels, the kitchenette, the baker, the laundryman and delicatessen shop, are not adapted to numerous children. Children often are not wanted. In fact, a man with a large family finds it difficult even to secure living accommodations in many cities. Thus, in great numbers of communities, the social order has passed beyond the conviction that the large family is a normal and necessary condition, and has adapted itself to a scale of living based on small families, or on none at all.—William S. Rossiter, in Atlantic.

INCREASED TEA CONSUMPTION.

Fourth place among the tea-exporting countries of the world is taken by Java, which follows closely after Japan. British India with Ceylon is first and China second. Java is rapidly gaining on Japan, for the cultivation of tea is increasing steadily and the product is gaining in quality. Java tea can now be kept for upward of two years and even improves in flavor by the keeping. This has been found out already in Australia.

You kin always tell a restaurant bar tender when he gets to a banquet, ter he always wipes off his plate with his napkin, and never takes the top piece of bread off'n the pile.

KEELEY CURE

The cure that has been continuously successful for more than 22 years is worth investigating. For the drug or drink habit. Write for particulars. Only Keeley Institute in Western Penna. 424 Fifth Ave., Pittsburgh, Pa.

THE THRICE-A-WEEK EDITION

OF THE

New York World

Practically a Daily at the Price of a Weekly.

No other Newspaper in the World gives so much at so low a price

The greatest Presidential campaign will soon begin and you will want the news accurately and promptly. The World long since established a record for impartiality, and anybody can afford its Thrice-a-Week edition, which comes every other day in the week, except Sunday. It will be of particular value to you now. The Thrice-a-Week World also abounds in other strong features, serial stories, humor, markets, cartoons; in fact, everything that is to be found in a first-class daily.

THE THRICE-A-WEEK WORLD'S regular subscription price is only \$1.00 per year, and this pays for 156 papers. We offer this unequalled newspaper and THE FULTON COUNTY NEWS together for one year for \$1.75.

The regular subscription price of the two papers is \$2.00.
