

MARKET REPORT.

CORRECTED EVERY WEDNESDAY. The grain markets are taken from the Chambersburg daily newspapers. The provision prices are those that obtain in McConnellsburg.

Table with 2 columns: Grain and Provisions. Includes items like Wheat, New wheat, Bran, Corn, Oats, Rye, Ham, Bacon, Potatoes, Butter, Eggs, Lard, Live Calves, Chickens.

Trespass notices at the News office. Five cents each or 6 for a quarter. May be sent by mail.

LOST. — In McConnellsburg last Saturday, a First National Bank book containing twelve dollars in paper currency, belonging to Elmer Tolbert. The finder will confer a great favor by leaving it at the NEWS office, or by giving it to Elmer, who is in town almost every day.

Our country is remarkable for its rich and varied products of the soil, the forest and the mine, but is deficient in precious stones, or if they exist they have not been discovered. In consequence the country was drained of \$41,000,000 last year for diamonds alone, imported from other lands.

The Huntingdon and Broad Top railroad have issued their new schedule to go into effect on Monday, January 1, 1912. The principal change is the abolition of the night train leaving Huntingdon shortly after 10 o'clock. In its place, the afternoon train, to leave Huntingdon at 2.00 p. m., has been put back on the run.

S. W. Kimmel, of Saltillo, has settled a damage suit on in the Franklin County Courts by paying Mrs. Lydia Keefer, a widow \$1,000. In October 1910, Mrs. Keefer was struck on a street crossing in Chambersburg by Mr. Kimmel's automobile, knocked down and crippled for life, she being compelled now to use an invalid's chair.

A Des Moines man had an attack of muscular rheumatism in his shoulder. A friend advised him to go to Hot Springs. That meant an expense of \$150.00 or more. He sought for a quicker and cheaper way to cure it and found it in Chamberlain's Liniment. Three days after the first application of this liniment he was well. For sale by all dealers.

That Centre county will be the location for the new State Penitentiary has been made public within the past few days. The prison commission appointed to select the site conferred with the farmers and land owners in that vicinity last week and secured their signature for the sale of land comprising, approximately, 5000 acres, which also includes about 900 acres of state preserve already owned by the state. It is figured that this land will cost the state in the neighborhood of \$200,000 or an average of about \$48 per acre.

We wish to call your attention to the fact that most infectious diseases such as whooping cough, diphtheria and scarlet fever are contracted when the child has a cold. Chamberlain's Cough Remedy will quickly cure a cold and greatly lessen the danger of contracting these diseases. This remedy is famous for its cures of colds. It contains no opium or other narcotic and may be given to a child with implicit confidence Sold by all dealers.

School authorities are striving to enforce more vigorously than ever the compulsory school law. Recently in Philadelphia seven men were arrested and sentenced to prison five days each because they refused to pay the fines imposed on them for not having their children attend school as the law requires. The state makes ample provision for giving every child at least a fair education, because it considers it necessary that all should have some learning to qualify them for the business duties of life, and if parents are too indifferent about the future welfare of their children, the state deems it her duty to step in and correct the wrong.

Spraying Benefits Fruit.

A prominent railroad official called the attention of State Zoologist, H. A. Surface, to a rumor which he had heard in one portion of Pennsylvania to the effect that spraying produced fruit of poor quality. He suggested that this wrong idea should be corrected before it gains further ground. In reply to this Dr. Surface wrote as follows:

"I note with unusual interest that in the vicinity of West Chester, Pa., the fruit is reported as large and fine in color, but poor in quality and flavor, with the prevalent opinion that this is due to spraying. I can only say that if we devote our energy to chasing down and controverting one-half of such rumors that get started, we could do nothing else but chase phantoms. Let those who wish to raise fruits without spraying them try to do so, and they will find that they can not produce quality without it.

The best fruit grown in this State are invariably those in orchards that have been sprayed. Sprayed fruits keep longer and have the best quality. They are the ones that take the prizes in the various and State Exhibitions. There is absolutely no foundation for the rumor that spraying impairs quality. Thus it seems to me to be almost unnecessary to give it much notice, especially as to do so would give it some standing and consideration, which such an absurd idea should not have. However, I shall publish a News Letter on this subject reaching all parts of Pennsylvania."

Safe Register.
