HAD NICE TRIP TO WASHINGTON. On Monday, January 5th, the

Our New Burgess and Conacil.

Boy and Girl Corn. Potato, and Canning Club Champions of Several States.

Over 75 farm boys and girls who as members of agricultural clubs have led their States in the production of corn, potatoes, cotton and tomatoes and in the home canning of their own garden produce, spent from December 11 to December 18 in Washington. The trip to Washington, the expenses of which were borne by individuals and civic, commercial, and agricultural organizations in the States, who are proud of the agricultural achievement of their sons and daughters, was one of the many rewards of these little champions. The boys and girls visited many points of interest in and about Washington, were received by many Government officials and obtained their coveted diplomas from the Secretary of Agriculture. The work done by these children was under the direction of the Office of Farmers' Cooperative Demonstration and the Office of Farm Management.

Of the corn club boys, Walker Tallapoosa County, Ala., not only eads the country, but has broken the record for corn production. Walker raised 232.7 bushels on a single acre, at a cost of only 19.9 cents per bushel. This exceeds bushels, at a cost of 42 cents per bushel, held by Jerry Moore, of South Carolina. The second corn club boy this year is J. Jones Polk, of Prentiss, Jeff Davis County, Miss., with 214.9 bushels, raisen at a cost of 21.4 cents per bushel, and the third was J. Ray Cameron, Hinston, Lenoir his interest in public welfare but County, N. C., with 190.4 bushels, raised at a cost of 33.25 cents the needs of his agricultural cus-
