John D. Rockefeller gave you his personal assurance that a certain security was absolutely safe, would pay big dividends, was, in short, the best investment he knew of—

Would you follow his advice? We will take for granted that you would.

Why would you take his advice?

Is it not for the reason that he has made a very large fortune through paying investments and is in position to know?

John Wanamaker has advised you to advertise.

These two gentlemen built up the largest retail establishment in the world. Each of them made a fortune. Each attributes his success, very largely, to advertising?

Why not take their advice and use THE NEWS.

What's The Use.

What's the use of finding fault With every wind that blows? What's the use of wanting rain Every time it snows?

What's the use of grumbling when It's ninety in the shade? What's the use of brooding o'er Mistakes that we have made?

What's the use of wishing that We'd been born with wealth? What's the use of groaning when We've sacrificed our health?

What's the use of railing at The man who wins success? What's the use of telling of Our personal distress?

What's the use of talking when We've nothing wise to say? What's the use of buying things For which we cannot pay?

What's the use of standing where We're in somebody's way? What's the use of feeling glum When we might as well feel gay?

What's the use of this and that? What's the use of anything That's useless anyhow?
