George Regi, of Todd township, was kicked by a horse last Saturday, inflicting a painful wound on the shin about two inches below the knee, a never-slip calk penetrating to the bone.

The February number of Popular Mechanics shows a plow with a small harrow attached to level the furrow as fast as made. The "thing" might work, but the only advantage we can see for the extra trouble of using it would be to quickly close up the openings in the fresh-turned soil to prevent escape of moisture.

Congressman Dershem, of this district, in the House of Representatives at Washington last Friday, introduced a bill to provide for the purchase of a site for a public building at Waynesboro, Pa., to be used as a postoffice, the site not to cost more than \$30,000 and the entire structure including the site, not to cost more than \$80,000.

There have been tens of thousands of books written for agriculturists, and yet, one of the leading ideas in every one of them can be expressed in a few words—to teach us what to ask for when we wish to buy fertilizer, whether stem and leaf, or well filled heads of grain is desired; some ingredients make one—some the other.

R. Sharpe Patterson owns a ranch two and one half miles from Concord, California, and has on it 4 acres of dandy pear trees, in addition to one acre that he calls his family orchard. He is planting five acres in almonds this spring. Sharpe has promised to write a letter for publication before long, and tell us his impressions of opportunities in the Golden State.

Prof. Helman principal of our schools, is to be commended for his interesting instructions to the senior members of the High School on agriculture. When the weather permits, the Professor will take walks into the fields with his pupils and make personal observations and applications of subjects studied in the classroom. This being an agricultural county, Prof. Helman thinks more good will result from these studies than so much Latin. We think so too.

Some Ifs.

If woman suffrage is the failure the anti-suffragists say it is in California, why don't they wipe it out of the constitution? They have the referendum in that State, and could easily do it.

If woman suffrage is a failure in Australia, would the Australian Parliament after eleven years, experience pass a unanimous resolution declaring it to be a success and call on the English Parliament to enfranchise English women?

If at the September primaries in the great city of New York, with nearly 5,000,000 population, only 144,660 men voted, what right have men to demand of women that they prove that the majority of women want to vote before suffrage shall be extended to women?

Surprise Party.

On Wednesday evening, February 3rd, while George Regi, of Todd township, was entertaining some railroad surveyors with stories of his earlier life of New York, and of his later connection with the grading of the Old South Penn. in this county, a large crowd rushed into his house seized him and raised him bodily to the ceiling, letting him drop down carefully and reminded him that they had come to celebrate his 54th birthday, which they did in fine style. We know he felt better that evening than he did on the following Saturday when the horse kicked him on the shin.
