On to Victory.

"I am not bound to win, but I am bound to be true." These words of Abraham Lincoln convey a fitting sentiment to those engaged in the present No-Licenses campaigns. Duty to God to Home, to Native Land, bids us be true. We cannot control the outcome, but we must be true to the call to service. No matter if the odds are against us no matter if we have little faith in the Judges of the Courts, no matter how indifferent some, how hostile others, we must fight on. It is no new experience for the women of the Temperance Union to fight without hope. They have often been defeated—but never vanquished. Every campaign brings us nearer the goal. We never go down to the level of the starting point. "Agitate, educate, organize" these are the deathless watchwords of success. The experiences of each campaign fit us for the next. So work, all fight on, pray on; but falter never!

We are told that one hundred "leading" men endorse a certain candidate. The writer does not tell, however, what the men "lead." If they are leaders in clean politics we could support him; but if they are leaders in the interest of the liquor business, and in the breaking down of demand reforms, then we can take no interest in him. Politics that rely for support upon raids on the public treasury are going out of style, and if these "leaders" are of that type—save your words—our readers want none of them. Tell us what the men "lead."

WHY FULTON COUNTY MERCHANTS SHOULD ADVERTISE IN THE FULTON COUNTY NEWS.

Written for the News by

How it's Done.

A merchant can buy a larger quantity of any given product at a lower figure than a small quantity.

In many instances, he buys the larger quantity, giving his patrons advantage of his low purchase price and cuts off an extra 10 or 15 per cent—then, through the newspaper, he lets the public know just what he has done.

The result is, that while the merchant may not have made more than 5 per cent, on the transaction, that profit has been made in a very few days.

5 per cent. is a very small margin of profit, but if he, with the aid of advertising, turns his investment but once a month, it means 60 per cent. per year.

The "NEWS" is the greatest agency for turning merchandise into cash.

# Makes Healthy Bowels

THIS simple rule of health is daily called attention to by every doctor in the land, whose first question to the patient almost invariably is, "Are your bowels regular?" Yet there's not one person in fifty who takes proper care of the bowels. And the result of this foolish neglect is nine-tenths of all ill-health.

If today you are unable to free your body of waste matter at the usual time, or if the act causes straining, pains and discomfort, don't let that condition occur again tomorrow. Unless your bowels can carry away the waste materials left after food is digested, decay sets in, the poisons of which, taken up by the blood, increase the risk of Typhoid Fever, Appendicitis, and many other serious diseases.

In treating constipation, there is a right way and a wrong way. The wrong way is to take harsh purgatives which even though they do clear the bowels, cause griping and nausea, injure the delicate tissues, and so disturb the normal functions as to cause the return of constipation. The right way is to help Nature to produce natural movement, without pain or discomfort, by using

## Rexall Orderlies

More Than One Hundred Million Were Sold Last Year

—a gentle laxative in the form of a chocolate-tasting tablet. One of these tablets eaten just before going to bed will help to restore your bowels to normal activity at a time when, your body being at rest, the medicine can do its best work. As a result of taking that tablet (or say two, if your case is obstinate), your bowels will move easily and naturally in the morning. The use of Rexall Orderlies for a few days afterward will restore normal regularity. Even chronic constipation is benefited by them, and it is not necessary to continue the treatment for a long time, because, instead of driving Nature, they simply help her to help herself.

This enormous quantity was used with good results by busy men who suffered from constipation, due to lack of exercise, or indigestion caused by overwork—by children whose parents realize the harmful effect of common purgatives—by old people whose systems cannot stand anything harsh—by women during pregnancy, and after childbirth, when any medicine with a violent action would be particularly dangerous. Many of these people are your neighbors and friends. Ask anyone who has ever used them—they'll tell you Rexall Orderlies satisfied and helped them.

Sold only at the more than 7,000 Rexall Stores and in this town only by us. In vest pocket tin boxes, 10c, 25c, 50c

This Is Our Guarantee—You Risk No Money

If Rexall Orderlies do not make your bowels act right, tell us so and we'll give back your money without asking a single question. There is no red tape to this guarantee. It means just what it says. You sign nothing. We won't hesitate, or ask you any questions. Your word is enough. If Rexall Orderlies do not do all you expect them to—if you don't feel better after using them and find that they are the pleasantest-acting and best laxative you have ever used, we want you to tell us and get your money back.
