A great display of Easter cards and novelties at the Irwin store.

The Pleasant Grove Sunday School is preparing for an Easter Service to be held on Easter Sunday at 10 a. m.

The sudden thaw filled the Susquehanna river to overflowing, and drowned some livestock in the lowlands.

Mr. George McDonald is moving onto the W. W. McDaniel farm near Salvia from which Henry Connor moved recently to his own farm near Mattie, Bedford county.

We ask the kind indulgence of strangers for a few more days if our citizens appear a little "crusty," as stovepipe never will go together again along about April first.

The Sunday school at the Greenhill Presbyterian church will be reorganized next Sunday morning if the weather permits; if weather is bad, then on the following Sunday.

HIDES.—Frank B. Sipes pays the highest market price for beef hides at their butcher shop in McConnellsburg, also highest price paid for calf skins, sheepskins and tallow.

Advertisement.

The superintendent of a lace mill on Long Island ordered all the girl employees to wash their faces or lose their jobs. They had become so addicted to the use of powder and rouge as to make their appearance ridiculous. We do not know of any Fulton county girls working in that factory.

Mr. and Mrs. D. E. Little, Mrs. Della Crouse, Miss Evelyn Barnett, and Wilbur Grissinger and son Carl—all went to Mercersburg last Sunday in Mr. Little's new Crow car; and on the return trip brought home Mrs. Wilbur Grissinger who had been in the hospital in Chambersburg for five weeks.

In the hope that it will help some of our readers to save little chickens from getting the "gapes," we again print the warning that the trouble comes from permitting the peeps to have access to wet ground that contains filth. The egg from which the gape worm hatches is positively known to be carried by common earth worms that are plentiful in that kind of soil.

Bert Hann, Esq., who has been working in the mountains for the Reichley Bros., in Wells Valley, is spending a week's vacation at his nice home in Licking Creek township. Bert told a reporter while in town last Monday that life in camp out in the mountains beats any other kind. He looks hearty as the pine knots that the camp cook gathers to fire the grub furnace. He expects to return to the new camp when it is located on the Thropp property.

Summer Normal.

The Summer Term for teachers and those preparing to enter the profession will open in McConnellsburg, Monday, May 11th at 1:30 p. m. in the Public School building.

The best assistance available has been secured. A revised course.

The school will be conducted in two or more sections as conditions demand. Length of term—8 weeks. Tuition—full term—\$7.00. Less than seven weeks—\$1.00 per week. More particulars later.

For other information, address
LEWIS HARGIS,
4-2-3t. McConnellsburg, Pa.

Whole No. enrolled during term: males, 29; females, 23; total, 52. Those who will take the spring examination are—Dallas Kerling, Wayne Black, Zola Bolinger.
Ray Hess, teacher.

Cattle Dealer Fined.

Henry E. Brown, an extensive cattle dealer of Southern Lancaster County, has been fined \$100 for violating the interstate cattle law by bringing diseased cattle from Maryland to Lancaster county, Penna. The cattle were quarantined by agents of the State Livestock Sanitary Board and upon being killed under State supervision were found to be extensively diseased.

State Veterinarian, C. J. Marshall, says that this is but one of many cases that demonstrates the necessity of State and Federal supervision of the interstate movement of livestock. Continuing he said that had there been no livestock sanitary law and no State agents on the lookout for illegal cattle traffic these diseased cows might have been sold and placed in Pennsylvania dairy herds where they would have been a menace to healthy cattle.

Big Lumber Deal.

The Reichley Brothers, who have been operating a large sawmill in Wells Valley for several years, have recently purchased from the Thropp about 4000 acres of timber land on the Old McIlvaine lands lying on both sides of the pike on Sideling Hill and Rays Hill.

This tract will furnish an immense amount of lumber and we have been informed that Reichley Bros. & Co., contemplate building a narrow gauge railroad from the tract to Everett, as an outlet for the lumber.

The lumber from their present mill site is taken by rail up the mountain from Wells Tannery to a point above Kearney connecting with the Sandy Run branch of the H. & B. T. R. R. from Hopewell.

Congregational Meeting and Social.

At a congregational meeting last Monday evening in the Reformed church, the reports from the three charges showed that over \$1,200 had been contributed during the past year. Both pastor and members are being congratulated for the excellent showing, not only in financial matters but in work of all the departments. Rev. J. L. Yearick's three charges are: McConnellsburg, Big Cove Tannery, and Little Cove. After the business meeting adjourned a social was held, and a nice little supper served in the church. During the short time Rev. Yearick and his most excellent wife have been among us they have gained the esteem of a very wide circle of friends, not only in their own church but wherever they have gone. In the absence of a pastor, the Presbyterians frequently join as a congregation in the Reformed services, and, in turn, the Reformed congregation meets the Presbyterians in the latter's church—Mr. Yearick preaching to both. A very happy relationship is, in this manner, being established between the two denominations.

Dr. Dixon's Talks.

One of the least spectacular but most useful of the many good works of the State Health Department is the weekly health talk Dr. Dixon has been issuing recently for newspaper publication, and these talks have been appearing regularly in the FULTON COUNTY NEWS. In speaking editorially upon the value of these talks; The Public Opinion (Chambersburg) says that for years past the pages of daily papers have been crowded with advertisements offering cures for disease. Physicians have made fortunes bringing patients back to health. Specialists spend years in the study of obscure ailments. All this is vitally necessary for the relief of the suffering, but in the eyes of the most advanced thinkers along medical lines, the great mission of the physician is to prevent disease, says the Harrisburg Telegraph. Dr. Dixon is putting this idea into very effective practice, using the great prestige of his office to procure the publication of the articles he so carefully prepares.

How to keep well, not how to get well, is the theme of his "talks" and every one of them ought to be in the scrapbook of the man who gives serious thought to his physical condition.

Make a Lime Spreader.

There is a lot of bright young men in the County who can handle tools to make many pieces of machinery that will work and save labor and money. We suggest that some of them try their hand at making a lime spreader according to the following hints. Get a pair of old mower wheels and connect them with an iron axle as long as you wish—say eight or ten feet; put a V shaped hopper on the axle as long as will work between the wheels. Have the axle fast to one wheel so that the axle will revolve and make a "feed" like in a grain drill. Have small holes in the bottom of the hopper to take the place of the spouts on a grain drill and make a slide with corresponding holes so that holes in the hopper can be closed at will. Fasten this machine to the back end of your farm wagon as a trailer, and as close to the wagon as it will run. Load your wagon with slacked lime and as fast as the lime feeds out of the hopper fill it from the wagon. Do not make both wheels fast on the axle, as one of them must be loose in order to accommodate itself in turning corners.

Lime is too costly in this county to waste it by putting out in little piles to slack and ten to fifteen bushels to the acre is too small amount to spread evenly with a shovel. When lime is put out in little piles to slack and too much water falls on it before being spread, the lime will get hard and is then useless as a sweetening agent. Lime in the form of dust is the only form available for soil, as lime must be dissolved by moisture at the moment of action.

Political Announcement.

FOR THE LEGISLATURE.

TO THE DEMOCRATIC VOTERS OF FULTON COUNTY.

After having received so much encouragement, I feel that I would be shirking my duty if I did not offer myself as a candidate for the nomination for the General Assembly the second term, as anyone knows full well that a man elected to a second term has more influence, and can serve his constituents better the second term than he possibly can the first time.

I, therefore, announce myself as a candidate for the General Assembly, Subject to the decision of the Democratic voters at the primary election to be held May 19, 1914, respectfully ask the support of the voters, and pledge myself to support the ticket nominated. I also pledge myself, if nominated and elected, to do as I have done in the past—discharge my duty fearlessly and honestly, and work hard for the best interest of the people of Fulton County and the State.

Respectfully yours,
GEO. B. MELLOTT.

Many Thanks.

In behalf of the McConnellsburg Band I wish to extend thanks to the people in general for their patronage of the play we gave last Friday evening. We appreciate very much the support the people gave us, and we hope every body was pleased with the entertainment. In return we will try to serve you with music, the best we can during the coming summer.

We, also, extend thanks to those who assisted us with the play.

C. R. SHORE, Manager.

WHY FULTON COUNTY MERCHANTS SHOULD ADVERTISE IN THE FULTON COUNTY NEWS.

Written for the NEWS by

Does It Belong to You.

The trade you have developed belongs to you—

As long as you can hold it. Your competitor's trade belongs to him—

As long as he can hold it. You are after his trade and he is after yours.

Both you and your competitor are pleasing the buying public.

If this is not a fact, neither of you would have the "trade" to contest for.

That you please the buying public is evidence that you give them their money's worth of merchandise and service.

They—your patrons—are not mind readers. Tell them through the NEWS, what you have to offer them.

IT PAYS.

Pass the Fakirs Along.

We made mention in these columns last spring of a set of fakirs who go through the country and claim to be able to "vaccinate" fruit trees so as to make them immune from disease. State Zoologist Surface says that reports have reached him that the men are again at work, and warns all to beware that the vaccination—or whatever they call the treatment—has no value and that in some cases it killed the trees. Beware of these fakirs, and order them out of the country. Prof. Surface offers to attend court as a witness, if any one causes the arrest of the men for having treated trees for pay.

Every thing advertised will positively be sold for the high dollar, regardless of price, for Trout sell. Immediately following this sale Prof. Rider will give an exhibition of training wild horses. Anyone having a bad one bring him along.

H. B. TROUT.

Farm for Sale

containing 214 acres, about 140 acres cleared and balance in timber, situate in Montgomery township, Franklin county, about six miles from Mercersburg. Buildings all in first class condition, new Bank Barn, all fine Outbuildings, such as Hog Pen, Chicken Houses, Wagon Shed and Corn Cribs. A 1 House of 8 rooms, water, which runs by gravity, at barn. Fruit of every description, last year sold \$80.00 worth of cherries. Fine young Apple Orchard, Pears, Plums, Peaches, etc. This farm I sold last year for \$5,500.00; but the party who purchased has met with adversity and therefore will not be in position to take possession this spring.

If sold before April first, the price is \$5,250.00, and the purchaser gets the entire wheat crop of 65 acres. Any one wanting to buy a farm will find this a bargain. Remember, the price after April 1st is \$5,500.00 without the crop. Buildings alone would cost more than the price asked. Terms to suit. For further information call on or address

S. B. WITHERSPOON,
Mercersburg, Pa.
Bell phone 58.

Rugs! Rugs!

REISNERS

have the best 9x12 Rug at \$5 98 you ever saw, others at less.

Some Nice Brussels from \$10.00 up.

Geo. W. Reisner & Co.,
McConnellsburg, Penn'a.

THE GROWTH AND EARNINGS OF A BANK.

There is no other line of business in the world that so much concerns the public and its welfare as the growth and earnings of a Bank.

A little over two years ago—or more precisely—on January 1, 1912, THE FULTON COUNTY BANK commenced business as a State Bank with a Capital of \$50,000.00 and total assets of a little over \$233,000.00.

Our last call for a statement—February 20, 1914—a little more than two years later, shows Total Assets of over \$350,000.00 and Surplus and Undivided profits of over \$19,000.00 During these two years \$8,000.00 was paid out in CASH DIVIDENDS to stockholders.

The above facts and figures are arguments.

Correct banking methods; Our integrity in dealing with the public; Conservative management; Confidence—These are the principles that helped to make this splendid showing possible.

GEO. A. HARRIS, President.
C. R. SPANGLER, Vice President.
WILSON L. NACE, Cashier.

Congratulate Yourself!

You have reason to congratulate yourself that it is possible for you, in this county, to open a

Savings Account With a National Bank

"The Only National with a Savings" is not a mere advertising phrase, but a substantial and comforting fact.

The First National Bank

Pays 3 Per Cent Interest. Compounded Semi-Annually.

Spring and Summer Millinery

now in stock, and we can please the most fastidious. If it is a new hat, we have it. If you wish your old one remodeled, we have an immense stock of trimmings to select from. Come in and tell us about what you want and we will make it for you.

Mrs. A. F. Little,
McConnellsburg, Pa.

FULTON COUNTY NEWS is the people's paper. \$1.00 a Year in Advance.

The Fact Remains

No amount of misrepresentation by the peddlers of alum baking powders, no juggling with chemicals, or pretended analysis, or cooked-up certificates, or falsehoods of any kind, can change the fact that

Royal Baking Powder has been found by the official examinations to be of the highest leavening efficiency, free from alum, and of absolute purity and wholesomeness.

Royal Baking Powder is indispensable for making finest and most economical food.
