WANTED.—A very stout boy to hold the assistant editor on his job during this enticing weather when the fish are biting.

The classis of the Reformed Church will meet in their church in this place on May 5th, continuing to and including the 8th.

Forest fires in the United States have caused an average annual loss of seventy human lives and the destruction of \$25,000,000 worth of timber.

HIDES.—Frank B. Sipes pays the highest market price for beef hides at their butcher shop in McConnellsburg, also highest prices paid for calf skins sheepskins and tallow.

Ed Sollenberger, of Hamburg, Pa., spend a day or two in this place last week examining the reservoir of the city waterworks with a view to preventing a repetition of last summer's scarcity of water.

George W. Sipes whose fine residence near Harrisonville was destroyed by fire recently, moved his family to one of Frank Taylor's houses on east Water street, this place. Mr. Sipes is a very fine carpenter and builder, and will have no difficulty to find employment at remunerative prices.

Sale Register.
Saturday, May 2, Mrs. Sarah Fisher will sell at her residence on east Water street, all her household goods. Sale to begin at 1 o'clock.

Abnormal Eggs.
Frequent accounts of quarter-pound eggs lead us to ask readers to give their experience with hens that lay these eggs. For several years we had a flock of about a dozen hens under observation, and during that time hardly ever failed to get an egg, at least, once a year, that weighed about twice as much as the same hen's normal egg. If memory serves us right, a hen laid two such eggs several years ago, and she was carefully watched to see if she would make it a "hab-it." She died very shortly afterward, much to our disappointment. In the course of time other hens laid similar eggs, and careful trace of their actions invariably ended in their death soon after laying a big egg. This led to the conclusion that the cause of the big egg was a diseased condition of the hen, which interrupted the natural functions of her body, producing the abnormal egg, and causing her early death. What has been your experience?

WHY FULTON COUNTY MERCHANTS SHOULD ADVERTISE IN THE FULTON COUNTY NEWS.

Written for the News by

A PROFITABLE INVESTMENT.

That we often hear of the larger advertising successes and the smaller successes rarely, does not prove that there are few small successes.

It is on the contrary for the same reason that we heard all details of the sinking of the Titanic while the sinking of smaller craft receive but small comment.

Early in June, 1912, Mr. B. P. Cobb, of Camden, N. J., despite twenty years of experience as an awning maker, had no orders.

He expended the munificent sum of \$6.00 for advertising in the Post Telegram and received one hundred and eight orders in less than a week.

Just as long as you are doing business, there is opportunity for increasing it by use of THE FULTON COUNTY NEWS.

Write, phone or call and say you are willing to talk it over.

Motor Trucks on Pike.

On Friday of last week a light motor truck intended to haul 1,500 pounds, came over from Mercersburg in little over an hour and a quarter, loaded with 1,800 pounds of flour. For some time the Atlantic Refining Company at Chambersburg has been delivering thousands of gallons of oil and gasoline to this place in motor-truck tanks. It must be cheaper for the Franklin county firms to deliver full loads to points far west of us.

Our object in referring to the foregoing is to keep before our people the possibility of our being connected with the Cumberland Valley railroad by swift autos, and auto freight trucks, as soon as we make—or have them made—roads free from breakers and ruts too much for business vehicles to negotiate. We will also repeat what we have said several times—that the middle at Harrisburg will necessitate our building some of the roads by private subscriptions and labor. There is no possible other way unless, the State return some of the roads to the townships.

All Bosh and Rubbish.

Those newspapers that are doing their best to belittle the Administration at Washington are now crying out that President Wilson should have recognized the murderer Huerta a year ago and saved this country from having to go to war with Mexico. Had Mr. Wilson done so these same papers would now be claiming that it was a blunder. In the language of "ole" Uncle Rastus, "deed they would!"

If any man can point out how the recognition of Huerta would have saved the lives and property of Americans and other foreigners in Mexico, when more than half of the people were at war with him, he will prove himself a seer that would make the shade of Mormon John Smith green with envy.

HELP SAVE THE Republican Party
BY VOTING FOR
J. Benjamin Dimmick
Candidate for Nomination for U. S. Senator at the
Primaries, May 19th

Why I Entered This Fight
I recognize that the disastrous split in the Republican Party was the result of a Political System known over the whole country as PENROSEISM. I am convinced that the Republican Party can and should be reunited. But, Senator Boies Penrose—THE MAN WHO WRECKED THE REPUBLICAN PARTY—should not and will not be trusted to reconstruct it! I believe the people of Pennsylvania will support a real Republican, who is opposed to PENROSEISM. I believe in the great Republican principles—the principles that have been the basis of Republican success in the past. I am a real Republican! I believe all the best features of the new progressive spirit ought to be incorporated in the Republican Party, and I offer my service to bring about this condition.
A Vote for Dimmick May 19th, is a Vote Against Penrose and Boss Rule.

G. W. Reisner & Co.'s Spring Announcement.

The balmy days of springtime are here again, with all its joys of housecleaning, garden making, and general shaking off of the odors of a long winter. With this season comes the necessity for new carpets, new rugs, new wall paper, new paint, new garden tools, to say nothing of the new dresses for the girls and women, and new shoes for the whole family.

From our long experience in catering to the wants of the Fulton County trade, we know just what is needed, and have our store full to overflowing with the very best things to supply the demands of our varied patronage. For instance:

We have a large assortment of Women's Misses' and Children's Dresses in colors and white at prices ranging from 25 cents to \$3. Beautiful Waists—colors and white—50 cents to \$3. A large lot of Summer Dress Stuffs in Cotton, Silk, and Wool, and a splendid assortment of Embroideries, beautiful and cheap.

CARPETS AND MATTINGS
A good assortment of carpets and mattings ranging in price from 13 to 60 cents. Brussell's, 65 to 80 cents. Blinds from 10 cents to 45 cents.

MEN'S AND BOYS' CLOTHING
The large sale of men's and boys' clothing this spring proves that we have been exceedingly fortunate in the selection of our stock. Come right along for your spring and summer suits; while we have sold lots, we have plenty left, and are adding new stock right along.

SHOES! SHOES!
Not as many going barefoot this season as formerly, and we have on hands shoes enough to go around, and at the right price. They come to you direct from the factory, and one profit is saved to you. Style and quality guaranteed.
G. W. Reisner & Company at the Old Stand.

Scare Crows.
The time is here when some of us will want to scare crows and blackbirds from our fields. An old time scare-crow that works better than anything we know of is made by binding two looking glasses back to back and suspending them from an arm fastened to a pole or tree. The looking glasses must be suspended so that they will move in the least breeze. The flashes of light is what frightens the birds.
A writer in one of our farm papers tells of how he frightens crows by making a platform in the field and placing an old wash boiler on it with an old clock under it. He arranges so that the ticking of the pendulum beats against the sides of the wash-boiler and which can be heard all over the field. He says crows will give the mysterious invention a very wide berth. Perhaps some of our boys can make a wind wheel to beat against the sides of the old boiler to make the racket.

THE GROWTH AND EARNINGS OF A BANK.
There is no other line of business in the world that so much concerns the public and its welfare as the growth and earnings of a Bank.
A little over two years ago—or more precisely—on January 1, 1912. The FULTON COUNTY BANK commenced business as a State Bank with a Capital of \$50,000.00 and total assets of a little over \$233,000.00.
Our last call for a statement—February 20, 1914—shows Total Assets of over \$350,000.00 and Surplus and Undivided profits of over \$19,000.00. During these two years \$6,000.00 was paid out in CASH DIVIDENDS to stockholders.
The above facts and figures are arguments.
Correct banking methods; Our integrity in dealing with the public; Conservative management; Confidence—These are the principles that helped to make this splendid showing possible.
