Advertisements for help now read 'Cigarette smokers and booze fighters need not apply,' thus putting the two evils on the same footing.

Mr. and Mrs. Wilson L. Nace and daughter Helen drove up to Bedford last Thursday evening in their automobile, spent the night in the home of Mr. and Mrs. W. H. Ayres, the next morning went to Johnstown and spent the time until Sunday morning in the home of George and Lenora Wishart Fockler, returning home Sunday afternoon, very much pleased with their outing.

Mr. and Mrs. J. F. Carnell, of Bethel township and Mr. and Mrs. Emory A. Diehl, of Whips Cove, made a trip to McConnellsburg last Friday in Emory's automobilous wagon. Mr. Carnell had a touch of the auto fever, but the trip across Scrub Ridge last Friday reduced his temperature considerably, and the chances are that he will leave his cash at interest until Mr. Bigelow gets our state roads made.

W. Scott Palmer and E. N. Akers, of Sipes Mills, and Clarence E. Akers, of Akersville, were in town Monday in Mr. Palmer's Ford touring car. Just you wait until this county gets up a few frolics to repair the roads, and the many automobiles in use here will reduce the size of the county to about that of a slate land farm, and the mountains to molehills, so far as time to go anywhere is concerned.

Mr. and Mrs. Walter Smith, and Mr. and Mrs. Geo. E. Reisner, wife, and daughter—all of Chambersburg—formed an automobile party that came to McConnellsburg Saturday afternoon and spent the time until Sunday afternoon. The Smiths were guests in the home of Mr. and Mrs. Leslie W. Seylar, George E. Reisner is Business Manager for the Valley Spirit Publishing Company, and is a cousin of J. G. and G. W. Reisner, of this place.

Mr. and Mrs. C. H. Mann, of Saluvia, drove to town Tuesday evening to meet the 9 o'clock accommodation train from Mercersburg on which came Mrs. Mann's sister, Miss Henrietta Conance, and Miss Anna Mann, of Vineland, N. J. The two ladies will enjoy the change from practically sea level at Vineland, to an elevation of over 1,000 feet at Saluvia, besides having the opportunity to sample the wild strawberries for which Licking Creek township is famous.

Mr. and Mrs. Oscar Litton, accompanied by Mr. John Winters and his grand-daughter Miss Mattie Winters, came to McConnellsburg last Sunday morning in Oscar's Auto. 'Uncle John' stayed with James and Esther Waltz, for dinner; Miss Mattie went to Lewis Harris's to board while she will be attending the Normal school, and Oscar and Mrs. Litton took a spin over the mountain to try Franklin County roads returning to town in the afternoon, and going home in the evening. Mr. Ora Douglass was a member of the party, and he and Miss Mattie were along to Mercersburg.

Mr. Al Bryan and wife, of Painesville, O., in a big 'Winton Six' spent the time in town from Saturday until Monday. Mr. Bryan was born in Mercersburg and spent several years of his boyhood days in the home of his grandmother 'Old Mrs. Carney' who lived in a little house where Mrs. Agnes Ray's property now stands in the east end of McConnellsburg. Mr. Bryan is a cousin of the late Mrs. James Rummell, and while starting out in life a very poor boy, is worth all kind of money now is taking life easy. Miss Murnie Rummell accompanied Mr. and Mrs. Ryan to Chambersburg Monday morning.

Mr. McDonald is a nephew of Mrs. Mower. It was his first visit to Fulton county and his wife's first visit to the State of Pennsylvania. They seemed to appreciate the mountains and scenery.

If our team will follow three rules, they may regain the standing which they held a few years ago.

Dowling B. Johnson, McKee's Rocks spent a few days this week with friends in this township.

During the winter Dowling had typhoid fever eight weeks, followed by measles. It has been nine years since he left Fulton county.

Most of this time he spent in the state of Ohio. The manager of the firm for which he is working made an automobile trip to Franklin county and Dowling came with him.

Paul Hershey spent Sunday in the home of his uncle John Gillis north of McConnellsburg. One day recently Edwin Brant killed a large yellow specimen 'crotalis' near their dwelling house. (Has your reporter told a snake 'story?')

In noting improvements, we omitted to say that David Hershey has put up a nice lot of board fence this spring.

Maggie and Jane Price have gone to Bedford Springs where they have employment.

The recent rains have done much to refresh the grass and gran. More is needed, however.

The stork left a ten pound boy at the home of Mr. and Mrs. Edward McCray, and, of course, they think there is but one baby in town.

John Palmer, of Mount Union, spent two days the past week in the home of his aunt, Mrs. Maria Palmer, and visited among his many old time friends in and about Needmore. We were all mighty glad to see John and hope he may not stay away so long the next time.

David Garland is making an addition to his house which will add much to the appearance and the convenience of his home.

Quite a crowd from Needmore attended the Memorial services at Antioch.

All legal business and collections entrusted will receive careful and prompt attention.

Ball Season Opens.

A seven inning game of baseball between the Laidig and Waterfall teams, at the latter place, marked the opening of the ball season in this section, and was also the leading event in the celebration of Memorial Day.

Being the first game played by either team for several seasons, brilliant playing was not to be expected. Nevertheless, many experienced players showed skill in handling the ball, and several new men, gave evidence of creditable ability at the bat and in the field. No runs were scored by either side in the beginning, and the result appeared uncertain. In the third inning, Waterfall took the lead and by careful playing maintained it until the close as shown by the score of 10-4 in their favor.

Several two base hits, a three base hit and a home run were features of the game. Another feature, perhaps, was the spirit of friendly rivalry displayed during the game, little time being spent in petty arguments and useless vulgarity.

The Waterfall team hopes to complete its schedule at an early date, and teams having open dates should communicate at once with Manager Witter or Captain Alloway New Grenada.

Line up: Laidig Waterfall, C. Cutchall 2b G. Alloway, C. Brant ss J. Black, E. Brant 3b Witter, Foreman p J. Alloway, Laidig 1b Bolinger, E. Cutchall lf Newman, Cleveneger cf W. Black, Bergstresser rf C. Alloway, D. Brant c Shafer.

CURIOUS BITS OF HISTORY

By A. W. MACY.

FOURIER'S FOLLY.

Charles Fourier, a French socialist, believed himself to be the originator of a scheme which would make all men happy. His social system was to be organized on a mathematical basis. By his plan humanity was to be divided into groups of four hundred families, and the groups into series, and the series into phalanges. Each group would be placed under one immense roof, and the members supplied with every appliance of industry and art. Each individual should choose the occupation for which he was best adapted, and then all work would become pleasure. Salaries would be abolished, and each worker be paid enough for his simple wants. The surplus should be used for the general good. There would be no drones, for each person would be anxious to labor for the common good. No army would be needed, and no police, for the world would become one great family, well behaved and happy. Communities for putting these ideas into practice were started in various countries. Thirty-four of them were founded in the United States, and some of them lasted four or five years. It was a beautiful dream which did not come true.

GIVE PLACE TO CHIMBORAZO

Measuring From Earth's Center, Mount Everest Is by No Means the Highest Peak on Earth.

Probably few people could say off-hand the relative heights of more than half a dozen of the greater mountains, but nobody can have forgotten that the highest of them all is Mount Everest in the Himalayas. Even in this region there is a good deal of uncertainty about the heights of peaks in the neighborhood, and the peaks themselves are identified by letters and numbers rather than by names. Prof. August van Dohn has, however, suggested another way of comparing the heights of the greater mountains, which is to measure them not from the sea level of their latitude, but from the center of the earth. He has had the patience thus to calculate the geocentric altitude of thirty-one of the highest mountains. Owing to the fact that our planet bulges towards the equator and is flattened at the poles, a number of rather unexpected reversals take place in the hierarchy of mountains. Thus the chief of them all is no longer Everest, which has to take a modest place on the list, but Chimborazo, in the Andes. Chimborazo is 2,000 meters, or about a mile and a quarter higher—or at any rate farther from the earth's center—than its rival of Asia.

TO THE POINT

'She—Would you buy if you had a whole dime, Willie? He—Aw! Shut up.'

Insinuation. 'I hope you will be successful and bring home some fish,' said Mrs. Frycaster. 'Never fear, I'm the boy that can get them if there's any to be found.' 'Yes,' she smiled remissively, 'and you'd better take your pocketbook. You can't catch fish without bait.'—Kansas City Star.

Dwire, of Foxburg, Pa., and Rhoda, little daughter of Mr. and Mrs. Reuben Sipes, of Licking Creek township, called at the NEWS office yesterday.
