We regret very much that in giving the account of the "Lutheran Steamship and Navigation Co's Trip Around the World," last week, we got Japan on the wrong continent and the White House in Japan. Laugh at Texas and some of the other "wild and woolly" western states all you wish; but the fact remains that the later settlers forgot to take with them some of their eastern mistakes and were mighty careful to see that the mistakes did not follow and take hold of them in their new communities. Town streets were laid out square with the square section of farms adjoining; ample provision for schools was the first thought in public affairs; and we must go to these western states for samples of anti-trust and anti-rum legislation.

**To the Music Loving Public.**

The McConnellsburg Band will hold a festival on the square at the Court House Saturday evening, June 20th, for the purpose of raising money to defray a part of the expenses connected with the Band.

The management expects to solicit a greater part of the refreshments that will be served at the festival; so look for the solicitors. If they fail to see you, this time they will call upon you next time.

Complaint has been made that the Band does not play at different places in town. It is impossible to give a concert in front of each individual residence. If we were to attempt this, we should then have to go to the country, for some of our support comes from there. Now, to be fair, we have established a standard place, the Public Square, where we expect to give our concerts throughout the summer. When we play on the Square, the concert is for the public; when we play in front of an individual residence, it is for individuals.

The Band will give concert during the evening of the festival, and we sincerely hope the public in general will help us along.

Mr. Kauffman has traveled extensively, is well informed, and the fact that after having examined conditions in the rest of the United States, he selects Fulton county for a home, is a just recognition of the possibilities in our some what out of the way county. Fulton county has a farm of almost 140 acres for every family within her borders, and her doors are open for more such good citizens as Mr. Kauffman.

**To Oil Water Street.**

At a recent meeting of the Town Council, it was decided to oil Water street in order to eliminate the intolerable dust nuisance. Fifteen barrels of oil are now being delivered to town for this purpose, and it will be used as soon as the street is cleaned. Each property owner is expected to clean the street in front of his place of all loose material, as dry dust and fine earth mixed with oil make a bad combination—worse than mud. Scrape and sweep the street down to the macadam.
